

# **District Disaster Management Plan**

## **2024-25**

**District Emergency Operation Centre**

Collector Office - Vadodara

Phone: 0265 - 2427592, Toll Free: 1077 Fax. : 0265-2431093

E-mail ID: [disast-vad@gujarat.gov.in](mailto:disast-vad@gujarat.gov.in)

## **PREFACE**

Vadodara District is prone to multiple hazards such as Floods, Cyclone, Heavy Rain, Lightening, Earthquake and Fire and have experienced and witnessed too on several occasions in the past. Vadodara District have experienced the effects of cyclone in the year 1998, effects of devastating earthquake of year 2001 and faced the impact of major floods once in every three year period. In the past, the district was severely affected by the floods of 1978, 1994, 2005, 2006, 2013, 2014, 2019 and 2023. Moreover, the district comes under the golden corridor and has several chemical industries/ industrial areas in the hence there is a need to have such disaster management plan which may be useful to comply with multi hazard approach to dealt with different disasters. Past experiences has shown that the pre-planned and practiced procedures, for handling an emergency can considerably reduce the loss of life and minimize the damage too.

The Disaster Management Plan for Vadodara District has been updated in April-2024. The role of different agencies/ departments and Individuals in the event of emergency is specified in the Plan. Needless to say that the success of disaster management depends upon the strong co-ordination, swift response and effective performance of the duties assigned to each and every agency/department/individual.

I admire the efforts of Resident Additional Collector and the entire team of Disaster management cell ,who has prepared this plan other departments and agencies who given their valuable inputs in developing and updating Disaster Management Plan-2024-25. I hope this document would really be helpful in swift response and healthy coordination thus protecting life and properties as well as sustainable development in future.

## **FOREWORD**

As we are aware that Vadodara District is prone to multiple disasters like as Floods, Cyclone, Heavy Rain, Lightening, Earthquake and Road Accidents, Chemical hazards and other disasters occurring in the area. It is very much necessary to be prepared and respond in timely manner to a certain kind of disaster that occurs: it may be our basic duty to save human life and other living things as well as to protect environment and assets.

Keeping the above view of preparedness and response to the community in mind, the Disaster Management Plan-2024-25 is prepared for the district as role of district administration always comes first during a crisis as it gets the first hand information and produced before the Authority for approval and to the entire District heads to implement the same.

The Disaster Management Plan is prepared with due care and have tried to incorporate the required details in it. In spite of these details the preparation of the plan was to develop a holistic, co-ordinated and proactive strategy for the management of Disaster through a mindset of prevention, mitigation and preparedness to generate effective response during the time of emergency. if there are any suggestions or additions, then it may be conveyed to the under signed.

## CHECKLIST

Given below is the general list of important actions / items required in a Disaster. Please check out the items pertaining to your area / function.

- District Collector is the chief custodian of this plan document and also ensures that this plan document is reviewed and updated regularly.
- The Collector shall submit a copy of Disaster Management Plan and of any amendment thereto to the GSDMA and the state Relief Commissioner as well.
- Each govt. department shall prepare a disaster management plan for the district and Collector shall ensure that such plans are integrated into the district disaster management plan.
- The departmental heads of the district shall ensure that all employees have gone through this document and aware of their roles and responsibilities.
- Each department shall identify a disaster coordinator who will be responsible to coordinate with different taskforces.
- Each taskforce leader shall ensure, their SOPs are prepared and all the members have gone through the Plan/SOPs and clear about their role and responsibilities.
- During your absence/leave period, please keep key members informed.
- Make sure that you have identified an Alternate Member from your department who would function in your place in case of emergency.
- Each taskforce shall identify a Communication Coordinator from the taskforce members.
- Make sure, the facilities available at District Control Room (DCR) and Taluka control rooms are intact and are in good condition.
- Check that all Communication facilities like Telephones, Cell Phones, Radios, and Base Stations etc. under your control are in good operating condition and fully charged.
- Ensure that you have the latest revised list of Emergency Contact Numbers and addresses.
- Ensure availability and operability of all resources under your control and at identified resource locations in neighboring districts for quick mobilization to emergency site.

- Maintain the records of area-wise population, shelter centers in your area for effective emergency evacuation.
- Check that the updated list of blood donors is available.
- Ensure adequate inventory of critical equipment/spares/medicines is available
- Make sure that all Fire Protection systems, rescue equipment, PPEs and other emergency equipment are in good state of repair.

## CHAPTER - 1 - INTRODUCTION

## **1.1 Aims and Objectives of the Disaster Management Plan**

Vadodara District is prone to multiple hazards such as Floods, Cyclone, Heavy Rain, Lightening, Earthquake and Fires and have experienced & witnessed too on several occasions in the past. Vadodara district have experienced the effects of cyclone in the year 1998, effects of devastating earthquake of year 2001 & faced the impact of major floods once in every three year period. In the past, the district was severely affected by the floods of 1978, 1994, 2005, 2006, 2013, 2014 and 2019. Moreover, the district comes under the golden corridor and has several chemical industries / industrial areas in the district hence there is a need to have such disaster management plan which may be useful to comply with multi hazard approach to dealt with different disasters.

Recognizing the fact that most tasks and actions before and following a disaster are common at the district level, the Vadodara district administration has used a multi-disaster approach (all disasters covered by one plan) while developing disaster management plan for the district. The present plan is not intended to provide comprehensive explanations and background information about a disaster, or serve as a training manual on how to respond to a disaster or conduct a disaster related task. This is simply a Multi Hazard Management Plan consisting details regarding different hazards that affect the district along with the response structure to deal with such hazards, and having linkages of subsidiary DM plans of all levels and of sectors with this Plan.

### **Following are the main objectives of this Plan:**

- To protect and minimize the loss of human lives from the effects of different disasters
- To promote a culture of prevention and preparedness by ensuring that disaster management receives the highest priority at all levels
- To ensure that community is the most important stakeholder in the disaster management process
- To minimize the sufferings of the people arising due to different disasters
- To mainstream the disaster management concerns into the developmental planning process
- To minimize the damages and losses that occur to the Property and Infrastructure due to different disasters
- To reduce the vulnerability aspect of both the people and infrastructure due to different disasters

- To ensure the efficient response and relief with a caring approach towards the needs of the vulnerable sections of the society
- To create awareness and preparedness by providing advice and training to the agencies involved in disaster management and to the community
- To assess the risks and vulnerabilities associated with various disasters
- To provide clarity on roles and responsibilities for all the stakeholders concerned with disaster management so that disasters can be managed more effectively and efficiently
- To strengthen the capacities of the community and to establish and maintain the effective Disasters Response Systems / Mechanisms
- To strengthen the existing Response mechanism
- To incorporate all the concerned aspects of DM for pre, during and post disaster phenomena
- To integrate and link up all level specific and department specific Disaster Management Plans

## **1.2 Mandatory Provisions of Disaster Management Plan**

Preparation of Disaster Management Plan is one of the mandatory provisions under the Gujarat State Disaster Management Act-2003 and the National Disaster Management Act-2005. With respect to the above mentioned provisions, Gujarat State Disaster Management Authority and Relief Commissioner have issued guidelines for the preparation of District Disaster Management Plan.

- As per THE GUJARAT STATE DISASTER MANAGEMENT ACT, 2003 under CLAUSE 26. Sub section (1), (2), (3), (4) & (5) Of CHAPTER X - FUNCTIONS OF LOCAL AUTHORITIES, Each department of the Government in a district shall prepare a disaster management plan for the district and the Collector shall ensure that such plans are integrated into the Disaster Management Plan for the whole of the district and submit a copy of the District Disaster Management Plan, and of any amendment thereto the Authority and the Commissioner.
- Under the provision of the DISASTER MANAGEMENT ACT, 2005, under Clause 30 Section (2), subsection (i) & Clause 31 Section (1) of CHAPTER IV District Disaster Management Authority, without prejudice to the generality of the provisions of sub section(1), the district

authority may (i) prepare a Disaster Management Plan including District Response Plan for the district, and there shall be a Disaster Management Plan for every district of the state.

The Disaster Management Plan prepared, reviewed and updated according to the above provisions and when there are any significant changes in that then it will have to be incorporated by the District Collector / District Emergency Operation Centre.

The DM Act authorizes the District Collector to secure cooperation and assistance from other parties in efforts to avoid or reduce the impact of disasters. The Collector (Specifically) and Government authorities (generally) are responsible for managing hazards and disasters which affect a district, with support from GSDMA, the relief commissioner and other public and private parties as may be needed. The roles, responsibilities and obligations of the Collector and other parties are set out in detail in the Act and are considered as part of this plan.

### **1.3 Sendai framework of Disaster Risk Reduction**

#### **1. Disaster Risk Reduction Post-2015**

Post 2015, there has been a significant shift from the approach of Managing Disasters to Managing Risk. The three landmark global agreements viz. – the Sendai Framework for Disaster Risk Reduction 2015-30 (SFDRR), Sustainable Development Goals (SDG) and the Paris Agreement (CoP 21) set the stage for future global action on Disaster Risk Reduction (DRR), sustainable development and climate change.

#### **2. Sendai Framework of Actions for Disaster Risk Reduction 2015-2030**

The Sendai Framework for Disaster Risk Reduction 2015-2030 (SFDRR) was adopted at the Third United Nations World Conference on Disaster Risk Reduction held in Sendai, Japan in March 2015. The SFDRR is a document that outlines four priorities for action to achieve 7 targets, which in turn would lead to one outcome which is- a substantial reduction of disaster risk and losses in lives, livelihoods, health, the economy of persons, businesses, communities and countries. India is a signatory to the Sendai Framework for a 15-year, voluntary, non-binding agreement that recognizes that the State has the primary role in reducing disaster risk, but that responsibility should be shared with other stakeholders including local government, the private sector and other stakeholders.

**The Four priorities of action are:-**

1. Understanding Disaster Risk
2. Strengthening Disaster Risk Governance to Manage Disaster Risk
3. Investing in Disaster Risk Reduction for Resilience
4. Enhancing Disaster Preparedness for Effective Response and to 'Build Back Better' in Recovery, Rehabilitation and Reconstruction

**The seven global targets are: -**

- A. Substantially reduce global disaster mortality by 2030, aiming to lower the average per 100,000 global mortality rates in the decade 2020-2030 compared to the period 2005-2015
- B. Substantially reduce the number of affected people globally by 2030, aiming to lower the average global figure per 100,000 in the decade 2020-2030 compared to the period 2005-2015
- C. Reduce direct disaster economic loss in relation to global gross domestic product (GDP) by 2030
- D. Substantially reduce disaster damage to critical infrastructure and disruption of basic services, among them health and educational facilities, including through developing their resilience by 2030
- E. Substantially increase the number of countries with national and local disaster risk reduction strategies by 2020
- F. Substantially enhance international cooperation to developing countries through adequate and sustainable support to complement their national actions for implementation of this Framework by 2030
- G. Substantially increase the availability of and access to multi-hazard early warning systems and disaster risk information and assessments to the people by 2030

**Sustainable Developmental Goals**

The Sustainable Development Goals (SDGs), also known as the Global Goals, were adopted by all United Nations Member States in September 2015 as a universal call to action to end poverty, protect the planet and ensure that all people enjoy peace and

prosperity by 2030. The 17 SDGs are integrated—that is, they recognize that action in one area will affect outcomes in others, and that development must balance social, economic and environmental sustainability. They recognize that ending poverty and other deprivations must go hand-in-hand with strategies that improve health and education, reduce inequality, and spur economic growth – all while tackling climate change and working to preserve our oceans and forests. To make the 2030 Agenda a reality, broad ownership of the SDGs must translate into a strong commitment by all stakeholders to implement the global goals.

### **Paris Agreement on Climate Change Action and Disaster Risk Reduction (CoP 21)**

The CoP 21 the Paris Climate Conference held in December 2015 led to a new international climate agreement, applicable to all countries, aiming at “holding the increase in the global average temperature to well below 2°C above-industrial levels and pursuing efforts to limit the temperature increase to 1.5°C above pre-industrial levels, recognizing that this would significantly reduce the risks and impacts of climate change”. The Paris Agreement recognized the need for loss and damage associated with the effects of climate change. The agreement identified areas of cooperation central to DRR and called for investments to address the underlying risk drivers associated with rising greenhouse gas (GHG) emission levels and to inspire innovation and low-carbon growth.

**The State Disaster Management Plan (SDMP) has tried to envisage coherence across the states. Efforts for DRR, sustainable development, and the actions in response to climate change.**

### **Prime Minister’s 10-Point Agenda towards Disaster Risk Reduction**

The Prime Minister, Shri Narendra Modi, listed a Ten -Point Agenda in his inaugural speech at the Asian Ministerial Conference on Disaster Risk Reduction 2016, held in New Delhi in November 2016 (AMCDRR), which has also been incorporated in the SDMP. The ten key elements consist of the following:

1. All development sectors to imbibe principles of Disaster Risk Management
2. Work towards risk coverage for all-starting from poor households to small and medium enterprises to multi-national corporations to nation states.

3. Encourage greater involvement and leadership of women in disaster risk management.
4. Invest in risk mapping globally related to hazards such as earthquakes based on widely accepted standards and parameters.
5. Leverage technology to enhance the efficiency of disaster risk management efforts.
6. Develop a network of universities to work on disaster issues.
7. Utilize the opportunities provided by social media and mobile technologies.
8. Build on local capacity and initiative. Response agencies need to interact with the communities and make them familiar with the essential drill of disaster response.
9. Ensuring that disaster learning is well documented.
10. Bring about greater cohesion in international response to disasters.

## **1.4 Concept of Disaster Management**

There are few terms and definitions of Disaster and Disaster Management as per DM Act - 2003, the basics of Disaster and Disaster Management can be understood as follows:

- The term **Hazard** means : A hazard is a natural or manmade phenomenon which may causes physical damage, loss or threaten human life and wellbeing if it occurs in an area of human settlement, agricultural or industrial activity
- **Category of Hazard :**
  1. **Natural hazards** are the hazards that are caused because of natural phenomena (hazards with meteorological, geological or even biological origin). **Examples** of natural hazards are cyclones, tsunamis, earthquake and volcanic eruption which are exclusively of natural origin. Landslides, floods, drought, fires are **socio-natural hazards** since their causes are both natural and manmade. For example, flooding may be caused because of heavy rains, landslide or blocking of drains with human waste.

2. **Manmade hazards** are the hazards that are caused due to human negligence. Manmade hazards are associated with industries or energy generation facilities and include explosions, leakage of toxic waste, pollution, dam failure, wars or civil strife etc.

3. **Geological hazards**

- Earthquakes
- Tsunamis
- Volcanic eruptions
- Landslides

4. **Climatic hazards**

- Storms (including tropical cyclones)
- Floods
- Drought
- Tornados

5. **Environmental hazards**

- Environmental pollution
- Deforestation
- Desertification
- Pest infestation

6. **Industrial accidents**

- Nuclear
- Biological
- Chemical

7. **Epidemics of all types**

- The term **Risk** means: Risk is defined as the expected losses (lives lost, persons injured, damage to property, economic activities of livelihoods disrupted) to a community when a hazard event occurs. The probability of the loss will occur as the result of an adverse event, given the hazard and vulnerability.
- The term **Vulnerability** means: Vulnerability is defined as the degree of loss it is sets of prevailing conditions, which adversely affect people's ability, prevent, to prepare for and

respond to hazards event. These long term factors, weaknesses or constraints affect a household or community's ability to absorb losses after disaster or to recover from the damage.

### **Definitions as per the Disaster Management Act- 2003**

**“Disaster”** means an actual or imminent event, whether natural or otherwise occurring in any part of the State which causes, or threatens to cause all or any of the following:

- (i) Widespread loss or damage to property, both immovable and movable; or
- (ii) Widespread loss of human life or injury or illness to human beings; or
- (iii) Damage or degradation of environment;

and any of the effects specified in sub - clauses (i) to (iii) is such as to be beyond the capacity of the effected community to cope up with using its own resources and which disrupts the normal functioning of the community ;

**Disaster Management** is a continuous and integrated process of:

- Planning and implementing measures to mitigating or reducing the risk of disasters
- Mitigating the severity or consequence of disaster
- Preparedness for emergencies and disasters
- Assessing the effects of disasters
- Providing emergency relief and rescue and post disaster rehabilitation and reconstruction, and
- Building capacities to these ends.

The concepts of all hazard management and empowerment provide the foundation for disaster management plans and efforts. All hazards management involves considering, planning for and taking actions to avoid or mitigate, all possible hazards, which may affect the district.

Empowerment means that each citizen is enabled through education, training and support, to be able to address all hazards and disasters, which may threaten their lives or livelihoods. Empowerment does not transfer full responsibility for dealing with disasters to the individual, but strives to ensure that each individual has the means and support needed to avoid or limit the impact of disaster.

The district and subsidiary plans seek to limit vulnerability and reinforce the resilience of communities in the face of hazards and disasters. Addressing vulnerability generally takes place before a disaster through actions to reduce the opportunities for the disasters to occur. Reinforcement of the resilience occurs through actions to reduce the scale or potential impact of a disaster, and building capacities and systems that facilitates (shorten and make less costly) the recovery process.

## **1.5 Approach to Disaster Management**

The Government of Gujarat takes a comprehensive approach to disaster management. Disaster impact reduction is divided into two broad areas:

- **Warning, Relief and Recovery** focusing on plans and actions necessary to reduce the impact of quick-onset disasters or speed the response to slow-onset disaster, and,
- **Mitigation, Preparedness and Prevention** focusing on plans and actions to avoid or eliminate the causes or impacts of hazards or threatened disasters.

The overall approach to disaster management is based on six elements;

- Accurate risk and Vulnerability assessment
- Planning and efficient allocation of resources
- Capacity building and training
- Provision of adequate resources
- The assignment of disaster management roles and responsibilities which correspond to normal roles and responsibilities (if possible) and,
- Use of diverse legal and operational mechanisms to accomplish disaster management objectives.

## **1.6 Policies and Responsibilities**

The Institutional framework for operationalization of the DM plan at the District level is conceived in terms of integration of both rural and urban areas and by recognizing the interdependence between line departments, district and state level authorities. The constitution of the District Disaster Management Committee will be as per the Gujarat Disaster Management Act 2003. Details with Functions of DDMC members of Vadodara District (chapter 4 response measure)

## **1.7 Authorities and Responsibilities**

The requirement for district and subsidiary plans is set by the Gujarat State Disaster Management Authority (GSDMA) under the authority of the Gujarat State Disaster Management Act of 2003. The Act authorizes the collector to secure cooperation and assistance from other parties in efforts to avoid or reduce the impact of disasters.

The Collector (Specifically) and Government authorities (generally) are responsible for managing hazards and disasters that affect a district, with support from GSDMA, the Relief Commissioner and other public and private parties as may be needed. The roles, responsibilities

and obligations of the Collector and other key parties are set out in detail in the Act and are considered as part of this plan.

## **1.8 Warning, Relief and Recovery**

Warning, Relief and Recovery actions are intended to eliminate the loss of life and property and reduce hardship as a result of disasters. Plans and SOPs at District level should provide a seamless mechanism of warning, relief and recovery assistance to avoid or reduce losses and hardship.

The focal point for early warning, relief and recovery is the District Collector, who directs and coordinates these efforts within the district. The Collector is also responsible for coordinating warning, relief and recovery with similar activities in neighboring districts and with the GSDMA and Revenue Department.

The Collector is further responsible for developing long term relief, recovery and rehabilitation plans during the course of a disaster. These plans will include steps to reduce disaster impact in the future and be coordinated with the GSDMA in terms of policy and implementation.

## **1.9 Mitigation, Preparedness and Prevention**

Mitigation, preparedness and prevention actions are to be taken before a disaster to reduce the likelihood of a disaster (risk reduction) or the level of damage (vulnerability reduction) expected from a possible disaster. Vulnerability reduction is given priority over risk reduction. The district can avail itself of any or all of four mechanisms to reduce risk and vulnerability:

- Long term planning for mitigation, preparedness and prevention-investments to this effect in the district,
- Enforcement of regulations, particularly building and safety codes and land use plans;
- Review and evaluation of development plans and activities to identify ways to reduce risks and vulnerability; and
- Capacity building, including warning, the provision of relief and recovery assistance and community-level identification of risk and vulnerability.

The Collector, assisted by the District Development Officer, is responsible for developing plans and activities to effect mitigation, preparedness and prevention using the mechanism noted above. Based on the interim assessment of risk and vulnerabilities, the District will focus on the following areas for mitigation, preparedness and prevention, which are specific to Vadodara district:

- Resilience of lifeline systems (water, power, roads and communications)
- Reduction in disaster impact on health care facilities and schools
- Vulnerability reduction in flood-prone areas, including riverbank erosion
- Vulnerability reduction to high winds
- Improvement of Off-site Preparedness near Industrial sites.

### **1.10 Plan Review and Updation**

Disaster Management Plan is prepared and reviewed by the District Collector / DEOC in collaboration with the line departments and other organizations in the district.

The plan reviewed annually (in the Month of May) and in special case periodically too and updated:

- When significant changes in the nature of any hazards
- Lessons learnt following any major disaster or
- When there is any significant change to organization or responsibilities of primary members of the task forces defined in the plan.

### **1.11 Financial Arrangements**

With respect to the Updation of the DM plan the expenditure shall be booked **either** from the grant provisions of GSDMA under the DM Plan Updation head and time to time guide lines of GSDMA **or** as per the directions of District Collector the expenditure will be booked under the head of 2245 for DDMP Updation.

There are other provisions which are utilized in different kinds of relief measures as per the directions released from Central Government , State Government and so the Collector & DM viz.

the funds like Calamity Relief Fund (CRF) which is utilized for the affected people / nature / cattle death in case of the natural calamities, NCCF, CM Relief Fund, PM Relief Fund etc.

## **1.12 Scope of the Plan**

The District Disaster Management Plan for Vadodara District has been prepared for its execution by various departments and agencies of the district and other Non-governmental Agencies expected to participate in disaster management process. This plan provides for Vulnerability Assessment and Risk Analysis, Preventive Measures, Mainstreaming disaster management concerns into Developmental Plans, Preparedness Measures, Response Mechanism, and Partnership with Stakeholders, Financial Arrangement, Roles and Responsibilities of the various agencies interlinks in disaster management and the scope of their activities. An elaborative inventory of resources has also been formalized.

## **1.13 Trigger mechanism**

The plan would be put into action as per the levels of disasters categorized i.e. L0, L1, L2 & L3.

### **Levels of Disaster (The L Concept)**

The L concept has been developed to define the different levels of disaster in order to facilitate the assistance to State and the Centre. It has four levels which are as follows.

- **L0 level:** Denotes normal times, which will be utilized for close monitoring, documentation and preparatory activities. Training of Search and Rescue teams, rehearsals, evaluation and inventory updation for response activities will be carried out during this period.
- **L1 level:** Denotes when the disasters which can be managed at the District level where the State and the Centre need to be on guard in case assistance is required for disaster relief operations.
- **L2 level:** Disaster situations that require assistance and active participation of State resources for management of the disaster.
- **L3 level :** Disaster situation arises in case of large scale disasters that have a noticeable impact on a number of districts of states and when the State and District authorities have been overwhelmed with the disaster and require assistance from the Centre for rescue and relief operations.

# HAZARD, RISK AND VULNERABILITY ASSESSMENT

## CHAPTER - 2 -

# HAZARD, RISK AND VULNERABILITY ASSESSMENT

### Hazard risk assessment and vulnerability mapping & vulnerable elements to specific hazards

The **Hazard** technically is not a disaster unless the ' Trigger ' set it off. It could be weak legislation that failed to regulate the functioning of the facility. The Risk and Vulnerability factors analyzed from these Hazards which vary from Minor to Major impacts affecting the smaller or larger areas of the District.

"**Risk** is a technical concept, which is used by engineering and management specialists to arrive at an estimation of losses in the event of disaster and the expected probability of its occurrence."

$$\text{Risk} = \frac{\text{Hazards} \times \text{Vulnerability}}{\text{Coping Capacity}}$$

Coping Capacity

"**Vulnerability** gives the extent to which a community is affected by a disaster".

The idea of danger or threat points out the possibility of physical event capable of causing damage, like earthquake, floods, industrial accidents etc. The vulnerability brings to light, the structural susceptibility of society or social group to suffer harm, based on physical event constituting a "Threat". Vulnerability concerns the relationship between the social, economic and physical elements, on which the wellbeing of the society or the group in question depends. The analysis of vulnerability is specific and based on the type of danger or threat, which is apprehended.

The table below summarizes the results of an analysis of impact of Hazard, risk and Vulnerability of disaster in Vadodara is as below. This analysis indicates that disaster planning at Vadodara district level should first focus on the functional response to the Flood, Industrial Accidents and Earthquakes which triggers to the other hazards like Dam Failure, Water logging, Fire, Failure of critical infrastructure and building collapse.

**Table 1: Risk and Vulnerability Analysis (Vadodara District)**

Hazards	Probability Rating	Impact Rating	Vulnerability Ranking	Vulnerable Areas/Talukas	Vulnerable Population
Industrial Accidents	5	4	12 (moderate)	Industrial areas of Vadodara, Padra, Karjan, Savli and Waghodia Taluka.	As the Data incorporated with Off-site Emergency Plan and Individual Industrial DM Plans
A) Fire	4	3	12 (moderate)	Mostly in urban pockets and industrial areas (including rural areas), and domestic fires in rural	

				areas.	
B) Leakage of Gases	4	3	12 (moderate)	Industrial area of Vadodara, Padra Taluka	
C) Oil Spill	3	2	10 (moderate)	Industrial area of Vadodara and Padra Taluka	
Drought	4	3	12(moderate)	Whole District	Population residing with short fall of the water supply can be vulnerable.
Flood	5	5	20(High)	Mostly low lying Areas	As the data incorporated with the District Contingency Plan and with CDMP of VMSS
Epidemics	5	4	25(High)	Whole District	-
Heat Wave	4	3	12 (Moderate)	Whole District	-
Rail/Road/Air Accidents	4	2	10(moderate)	Whole District	-
Earthquake	3	2	16(High)	Zone-3 Vadodara District	Mainly the population of highly populated area and the area having large

					infrastructure (Urban pocket)
Terrorism 1)Cyber 2)Robbery	2	5	15(moderate)	District	-
Boat Sinking	2	1	2 (Low)	Majorly the areas surrounded by rivers i.e. Vadodara city, Padra, Karjan, Dabhoi, Sinor, Savli	-
Building Collapse	1	2	2 (Low)	Majorly the urban areas	-
Dam Failure	2	1	2 (Low)	District has no major dams but having medium/minor dams like Ajwa Dam can be the vulnerable one. Failure of Narmada Dam can also affect Vadodara district	As the data incorporated with the District Contingency Plan in the case of the district dams' failure.
Failure of Critical Infrastructure	2	1	2(Low)	The hydrocarbon cross-country	-

				pipelines running from Vadodara may be affected	
--	--	--	--	--	--

**Note: The process of risk and vulnerability analysis is described in the Annexure-B**

## **2.1 Multi-Hazard Profile of Vadodara:**

Vadodara District is prone to multi hazards and experienced & witnessed too on several occasions in past. Past few decades Vadodara District faces number of hazards due to which normal life style has been disturbed during that time period.

Natural Environment / Atmosphere get affected due to certain kind of chemical hazards mainly of industrial areas and its surroundings where the drinking water and the water used for farming get contaminated.

Vadodara district have experienced the effects of cyclone in 1998 due to which, most of the city area including Vadodara city has been affected, mainly temporary establishments like hoardings etc. has fallen down in the city areas of the whole district, roofs of the huts has flown away in certain villages which are on the river bank, trees were fallen down and the routine life has been disturbed.

Due to the effects of devastating earthquake of the year 2001, panic condition has been seen throughout the district, majorly the residents of the high rise buildings has experienced the jolt of the quake, minor cracks has been notified in buildings and other structural establishments.

District faces the impact of major floods once in every three year time period. Majorly the District was severely affected by the floods of 1978, 1994, 2005, 2006, 2013,2014,2019 and 2023 almost the whole district was affected due to these hazards.

Due to road and rail accidents, major life losses has been observed in most of the urban part of the district from where the National high ways / State high ways / Express way and Railway lines passes through.

## Potential Hazards with respect to Vadodara District:

Multi-Hazard Profile of Vadodara (Based on past 10 years history of events):

Hazard	Taluka under severe risk	Taluka under moderate risk
Flood	Vadodara City, Vadodara Rural, Karjan, Dabhoi, Sinor, Padra, Savli, Vaghodia, Desar	
Cyclone	No Coast Line is situated within 15 kms of District Boundary	
Earthquake	All taluka in Zone III	
Drought	All Taluka under Moderate risk	
Industrial/Chemical	Vadodara City, Vadodara Rural, Padra, Savli, Waghodia	
Biological Disaster	All Talukas	
Tsunami	----	

Criteria for Classification of Risk by Taluka:

Hazard	Taluka are at severe risk	Taluka are at moderate risk
Flood	Talukas which are affected by flood for more than 5 years in last ten years	Talukas which are affected by flood for at least 3 years in last ten years
Cyclone	Talukas that fall between 0 to 7 Km distance from the sea	Talukas that fall between 7 to 15 km distance from the sea
Earthquake	Talukas falling under the Seismic Zone IV and V	Talukas falling under Seismic Zone II and III
Drought	Talukas facing scarcity of drinking water for more than 5 years in last ten years	Taluka facing scarcity of drinking water for at least 3 years in the last ten years
Industrial/Chemical	Talukas lying within vicinity of 5 Km from MAH units and/or vital industrial/ chemical/nuclear installations	Talukas lying within vicinity of 5-15 Km from MAH units and/or vital industrial installations
Tsunami	Talukas that lie between 0 to 7 Km distance from the sea	Talukas that lie between 7 to 15 km distance from the sea

## 2.2 Hazard Identification and risk assessment:

### ➤ Cyclone

There are possibilities of strong winds before monsoon, majorly in the river prone areas and city areas as well. As per the Disaster Calendar, the months of May to November are

for advance preparation against cyclone. The main reason behind the loss to the properties is the loss due to weak construction (especially weak & connected roofs or ceilings).

➤ **Flood**

As mentioned in the Map-1 & Map-2 and Table : 5 of Annexure - 1, Vadodara District is surrounded by several major and minor Rivers, Irrigation Ponds, different Water bodies and Dams in more than 300 villages along with city areas have the probability of floods due to various reasons. Details of affected villages by Rivers and Dams are included in Annexures.

Soil evasion occurs due to flood water/tidal water of the sea which results in to salinity in the soil / poor fertility and the crossing of the soil or layers of unwanted elements on the soil and the soil becomes useless.

The foundations of the buildings are not so strong that can face the force of floodwater. Along with this, there is a great damage to the fertile land due to floods. The fertile land becomes saline and thus crops are not possible on such infertile land.

The District has two major rivers viz. Mahi that flows on North - Western boundary of the district and Narmada that flows on the South - Eastern boundary of the district. There are other rivers like Vishwamitri, Dhadhar and many other seasonal streams that go through the district; more over to these, major *Water bodies* like Ajwa Reservoir, Dev dam are also the possible sites from where the risk of floods can be possible.

As per the risk and vulnerability analysis of the Vadodara district, the district has major risk of floods. Major parameters of flooding in the district are unplanned urbanization of few areas of the district, drainage/sewages are not properly developed in newly developed areas, storm water drainage, river bed aggradations due to siltation & damming rivers, channel shifting, waste dumped into the rivers due to which the natural drainage systems gets narrow, etc.

Ongoing Construction work of Artificial Drain, for prevention with regards to flooding and water logging in the city area have a risk of recharging of water with respect to future aspect for city area.

The risk of Floods is very frequent in Vadodara district and the most affected areas are low lying areas. The details of the same are with the City Disaster Management Plan of Vadodara Municipal Corporation, with DM Plan of Vadodara Irrigation Circle- Irrigation Department and District Disaster Management Plan. The safe shelters details are also been incorporated with these plans.

Due to various water bodies, rivers and low lying areas (the area as a whole); environment and population are being affected due to heavy rain fall or floods. Details regarding the vulnerable villages, population etc. have been incorporated separately in the Action plan of the floods - Chapter-5.

### ➤ **Earthquake**

Vadodara district falls under zone-III according to the zoning map there is a fault line located in Vadodara District so it may possible that the magnitude can be of 7 on the Richter scale, so very high possibility of failure of various infrastructures and very high chances of risk of loss of live, properties too in certain highly populated areas of the district. Mostly the high rise buildings and constructions which are not made as per the earthquake resistant technology in the urban area, old / defective constructed buildings, huts with the mud walls etc. has the most danger of earthquakes. Certain areas which have less open space in surroundings probably are more affected at the time of earthquake.

Population / Density wise area / residents details can be drawn from the City Disaster Management Plan / Ward Disaster Management Plan of VMC in case of city area, from Taluka Disaster Management Plan / City Disaster Management Plan of Municipalities for urban and rural areas of the district.

#### **Details of earthquake hazard-prone zone area, reason, effect in the district**

Sr.	Hazard Prone Zone	Reason	Effect
1.	Vadodara District	Fault Line under District	Damage to human being & property
2.	Vadodara, Padra, Savli, Karjan, Dabhoi, Waghodia, Sinor, Desar	Dense population Taluka place of district	----- As above -----

3.	PCC, Nandesari, Vadodara, Padra, Savli, Waghodia and Makarpura GIDC area	High number of chemical factories, MAH chemical factories, other industries, high number of employees and ancillary business establishment & persons	Producing chemical hazard such as fire, explosion, toxic release, poisoning etc. as a result of rupture of tank & collapse of buildings. This can cause damage to human beings.
4.	PCC, Nandesari, Vadodara, Padra, Savli, Waghodia and Makarpura GIDC area	MAH Chemical factories and the places of availability of oil and Natural gas	Fire, explosion, toxic release etc. from certain MAH factories as well as fire, explosion in oil well, which can damage to human beings and property
5.	Underground passing pipeline area	Water, oil, chemical to a strong pipeline in district	Fire & explosion, which can cause damage to human beings & property. Interruption in industrial activity.
6.	Road, railway and bridge area	National highway, other taluka road, western railway	Traffic in interruption, shortage occur in essential commodity in district as well as state
7.	Dams, water storage area	Very near to district Ajwa, Pratappura and Dev Dam, GIDC water storages; industries reservoirs	Low lying areas will be flooded with water. There is shortage of drinking & industrial water. Thus can cause harm to humans & interruption in industrial activity.

➤ **Accidents**

**Road:**

The district has 3191 Kms length of pakka roads connecting to 426 villages/towns in the district. 249 villages are connected by kachha roads and 43 villages accessible only in fair weather. Out of the total 694 inhabited villages, 633 villages are connected by state road transport facilities. Thus probability of road accidents are there, and are occurred on

regular bases on State highways, National highways and Express highway passes through Vadodara district.

The State highway & National highway No.8 with Express way passes through this District. The villages along the State highway, Express way & the villages along the National highway are highly accident-prone areas.

Majorly, newly developed Vadodara - Mumbai 6 lane National high way, Fartikui - Thuvavi - Dabhoi state road, Vadodara - Jambusar national high way, Ahmedabad - Vadodara express way, Vadodara - Halol road are the most accident prone zones due to heavy traffic and various types of transportation vehicles including heavy trucks, transport vehicles, oil / gas tankers transporting at high range.

#### **Rail:**

Vadodara district have in length railway lines which has covered almost half of the talukas of the district, total length of railway track is 557 kms in the District, out of that Broad Gauge length is 557 Kms and remaining is Meter gauge. Vadodara Railway Station is the main station in the city of Vadodara, Gujarat, India. The station is a major stop on the western railway zone of Indian railways. It has two railway lines, a straight line between Ahmedabad and Mumbai & the other being the line coming from Madhya Pradesh. Trains going towards northern region use Madhya Pradesh line while all the other trains use the Ahmedabad-Mumbai line.

There are no. of Non gated railway crossings in the district which leads the probability of railway accidents higher, Vadodara district have suffered from a tragedy of Samlaya Train accident in past.

#### **Air:**

Aviation sector is a vital segment of strategic and economic environment of the modern state. Vadodara Airport or Civil Airport Harni is a civilian airport located in the north-east of Vadodara, in the suburb of Harni. It is a domestic airport. The existing domestic terminal at Vadodara Airport is distinct from other airports due to its mix of Gujarati and architectural styles complete with domes on the roof. The terminal is small and cannot handle large numbers of passengers.

Vadodara has air connectivity with Mumbai, Delhi, Kolkata, Bangalore, Ahmedabad and Chennai. Number of domestic flights of different airlines has been operational through the Vadodara airport, there may have chances of air accidents due to technical errors in the aircraft, aircraft crashing or the recent scenario of increased threat of hijacking. The primary responsibility is laid with the airport authority in such cases of air accidents / hijacking. The role of the District Administration is of secondary type as the district collector and other agencies head are with the Aerodrome Committee.

#### **Fire:**

Vadodara district has a larger production of cotton/groundnut hence there are number of gins / oil mills where other cotton/groundnut is stored/processed. Due to high amount of storage, there are possibilities of fire also. With these number of incidents is reported on domestic fire like short circuit etc.

#### ➤ **Industrial / Chemical Disasters**

There are collection centres, oil wells & refiners etc. kind of risky industries along the State/National highways passing through the district. Besides, there are gas refilling station, gas and oil pipe lines, chemical plants, storages, bottling plant etc. in the district due to which there are chances of Fire & Accidents. Savli taluka and Karachiya village of Vadodara (R) Taluka experienced incidents of huge fire year 2009 and 2010. There are several incidents of chlorine / Ammonia gas leakage which has been observed during last five years in the district.

Vadodara is called capital of industries as most of industries are located or situated near by the District so very high chances of risk of loss of property due to oil spill, leakage of gases and fire.

Industries have their own Onsite Emergency Management Plans to deal with onsite emergencies and the other major units like IOCL, BPCL etc. has developed their Disaster Management Plans.

Maintenance of permanently established machinery and shutdown mechanism can be monitored periodically with high concern, could be a major concern of risk in case of large scale industries / petro chemical industries.

To deal with Industrial / Chemical disasters, separate Off site Emergency Plan -DM plans developed by Director Safety & Health - Vadodara, total coverage of Task force, Rescue Teams, Contact details, shelters, response mechanism etc. with MAH unit details and Annexes has been incorporated with the Plan and the same can be referred at the time of Offsite emergency.

Off-site Control Room (OCR) is functioning to take care of Industrial accidents particularly of MAH units. OCR located at Material Bhavan, Reliance Industries Ltd., Petrochemicals, Vadodara.

**Table: 7: Details of Industrial Pockets:**

No.	Name of Industrial Pockets	Identification	MAH Units		
			Working	Closed	Total
1	PCC & Nandesari Area Industrial Pocket	Vadodara 1	30	9	39
2	Padra, Karkhadi, Jambusar road area	Vadodara 2	17	3	20
3	Savli Industrial Pocket	Vadodara 3	10	2	12
4	Waghodia Industrial Pocket	Vadodara 4	2	3	5
5	Makarpura, Maneja, Karjan	Vadodara 5	2	3	5
	<b>Total</b>		61	20	81

Mainly, Manufacturing units working in the District are of fields like Engineering, Petrochemicals, Pharmaceuticals, Fertilizers, Glass, Cotton, Tobacco, Pesticides, Dairy etc.

Note: (1) Vulnerable Elements, etc. details have been incorporated with Chemical Disaster Action Plan: Page No. 131 of this DM Plan. (2) For Experts details, Shelter

details, Escape routes, who will do what? In Chemical Disaster, for this refer Offsite Emergency Management Plan.

**Details of type of risk, sources, resultant emergency and effect at large from the industries/factories:**

Sr. No.	Type of Risk	Sources	Resulting Emergencies	Effect
1.	Environmental risk – Due to man-made disaster (Air pollution)	Leakage, spillage, escaping of toxic, flammable, explosive, reactive, poisoning chemical vapor, dust, fume in atmosphere from storage, manufacturing, handling, transportation operation from the factory by the abnormalities in operation, maintenance, startup / shutdown, failure of equipment, use of substandard / wrong material, civil commotion and armed conflicts, sabotage, war, riots, civil disturbance	Toxic release in atmosphere or Land poisoning or Water poisoning or Fire or explosion or Combination of them	Injury to humans and other living creatures, or Land poisoning or Water poisoning or Damage to property or Plant poisoning or Combination of them
2.	Environmental Risk – Due to man-made disaster (Water pollution)	Leakage, spillage, penetrate of industrial waste such as solid or liquid on or in the land due to abnormalities in operation, maintenance, failure of equipment, civil commotion and armed conflicts, sabotage, breakage or choking of pipeline	Same as above	Same as above
3.	Environmental risk – Due to natural calamities i.e. earthquake, cyclone, flood (water and air pollution)	Leakage, spillage, penetrate of toxic , flammable, explosive, reactive, poisoning chemical vapors, dust, fume in atmosphere from storage, manufacturing, handling, transportation operation from the factory and leakage, spillage penetrate of industrial waste such as solid or liquid	Same as above	Same as above

		on or in the land due to natural calamity		
4.	Environmental risk – Due to man-made Natural Calamity disaster while transporting of chemical by road, rail & pipeline	Leakage, spillage, escaping, penetrate of toxic, flammable, explosive, radioactive, poisoning chemical liquid, vapors, dust, fume in atmosphere or on or in the land due to rupture of pipeline, on or in the land road transport containers / vessel, railway wagon, equipment failure as a result of natural calamities or manmade or combination of them disaster	Same as above	Same as above

➤ **Drought:**

“Scarcity is a marked deterioration of the agricultural season due to the failure of rains or floods or damage to crops from insects resulting in severe unemployment and consequent distress among agricultural labours and small cultivators,” (Gujarat Relief Manual 1987: 14). In the old system of currency in India, one rupee was equal to 16 annas. Hence in the *Annawari* system, 4 annas meant 25% damage, 8 annas was 50% and so on.

As the state the Vadodara district follows the *Annawari* system, 20 of the assessing extent of crop failure because of failed monsoons: usually an *Annawari* of less than four is sufficient to declare a drought, though there is also provision for a partial drought. However, relief measures ranging from provision of drinking water (through tankers or even trains in severe cases), fodder supply for livestock and employment opportunities are typically short-term and end once the next agricultural season begins.

Probability of drought is very rare which may occur with certain blocks of Vadodara district only due to the following impacts:

**Impacts of climate change** (hydro-meteorological issues):

- Increase in temperature

- Variation in monsoon rain (extreme summer rainfall, decrease in number of rainy days)
- Continuation of dry days
- Decrease in runoff and water availability in arid and semi-arid area

**Actions for adaptation and coping with drought** (development issues):

- Water management
  - Deepen well, utilize water supply system properly
  - Construct check-dam, artificial dam, integrated water shed management, conserve water, rain water harvesting system
- Agriculture
  - Improve agronomic practice, drought tolerant seeds
  - Soil conservation, seeds conservation
- Animal husbandry
  - Migration, utilize fodder bank, cattle camp
  - Control livestock population, conserve fodder
- Local economy
  - Engage in non-agriculture labor work, relief work, loans
  - Secure income from other livelihoods, craft

**Local Government Policy measures**

- Focus on development oriented drought mitigation
- Utilize drought relief fund on regular development practice
- Incorporate future climate scenario in drought proofing plans
- Enhance climate prediction capability through link to the hydro meteorological organizations

➤ **Epidemics:**

Probability is almost certain due to increase in Human Disease (Water borne disease, air borne disease and vector borne disease) along with that animal disease so impact will be very high according to that vulnerability is very high.

Majorly the people of urban area residing in Vadodara district is affected by various types of Vector born disease and Water born disease in particular during the monsoon season.

Frequent epidemics, especially during monsoon are a common aspect for Vadodara district.

Vadodara district is endemic to various water-borne diseases such as Cholera, Leptospirosis and Malaria. Several relatively minor ailments such as Diarrhoea are more common during the monsoon. Most importantly, there is always a danger of epidemics breaking out after floods arising due to different factors – inundation of wells under contaminated sewage water, wading through such flooded water. There is contamination of groundwater as well as well-water in such circumstances. Well water can be contaminated directly when sewage water enters the well during inundation.

### **History of Disasters / Major Incident:**

<b>No.</b>	<b>Disaster</b>	<b>Month &amp; Year (Last occurrence)</b>	<b>Damages</b>
1.	Earthquake Richter Scale (6.9)	Jan-2001	No such severe damage has been reported but the jolt has been experienced throughout the district.
2.	Cyclone	June-1998          May 2021	Due to high speed of wind roofs of villages of Sankheda taluka has been flown away.  A kind of damage reported every year before monsoon season starts , genuinely in end of May or starting of May month and in end of September month.  Extremely Severe Cyclonic Storm Tauktae was having powerful impact in Vadodara as a part of heavy rainfall and cyclonic wind flow.  Light poll Damage: 108  Tree uprooted: 238  Road Block : 16  House Damage(Kachha/pakka): 61
3.	Flood	July-2005	Rainfall : 15920 mm

		July-2006	<p>Severely Affected Blocks : 8 including Vadodara City</p> <p>Villages affected : 520 Approximate</p> <p>People affected :147906</p> <p>People Evacuated : 24950</p> <p>No. of Relief Camps : 75</p> <p>Human Death : 42</p> <p>Cattle Death : 46 Approximate</p> <p>House Damage : Total 40254 houses were damaged (Kachha + Pakka)</p> <p>Rainfall : 20073 mm</p> <p>Severely Affected Blocks : 7 including Vadodara City</p> <p>Villages affected : 564</p> <p>People affected :161787</p> <p>People Rescued : 714</p> <p>People Evacuated : 147351</p> <p>No. of Relief Camps : 344</p> <p>Human Death : 19</p> <p>Cattle Death : 56 Approximate</p> <p>House Damage : Total 623 houses were fully damaged (Kachha + Pakka)and 8207 houses (Kachha + Pakka) were partly damaged</p>
		September-2013	<p>Rainfall : 17194 mm</p> <p>Severely Affected Blocks : 18 including Vadodara City</p> <p>Villages affected : 289</p> <p>People affected : 1378</p> <p>People Rescued : 200</p>

			<p>People Evacuated : 124024</p> <p>House Hold : 2068 Family</p> <p>Human Death : 8</p> <p>Cattle Death : 41 Approximate</p> <p>House Damage : Total 218 houses were fully damaged (Kachha + Pakka) and 3300 houses (Kachha + Pakka) were partly damaged</p>
		June - October, 2014	<p>Rainfall : 6296 mm</p> <p>Severely Affected Blocks : 8 Taluka including Vadodara City</p> <p>Villages affected : 150 Approximate</p> <p>People Evacuated : 49881</p> <p>House Hold : 4273 Families</p> <p>Human Death : 9</p> <p>Cattle Death : 10</p> <p>House Damage : Total 559 (Kachha + Pakka) were damaged</p>
		July - Aug, 2019	<p>Rainfall : 7118 mm</p> <p>Severely Affected Blocks : 8 Taluka including Vadodara City</p> <p>People Evacuated: 22572</p> <p>Rescue operation: 14369</p> <p>Human Death : 17</p> <p>Cattle Death : 20</p>
		July 2020	<p>Vadodara taluka has been mostly affected due to heavy rainfall</p> <p>Rainfall : 1257 mm</p> <p>People Evacuated: 2587</p>

		<p>July 2022</p> <p>July 2023</p>	<p>Rescue operation: 56 Human Death : 4 Cattle Death : 3 Vadodara taluka has been mostly affected due to heavy rainfall Rainfall : 1370 mm People Evacuated: 3022 Rescue operation: 50 During monsoon period total of belowdetah has been recorded Human Death : 4 Cattle Death : 12</p> <p>Affected talukas(Narmada River Flooding)- Dabhoi, Karjan, Sinor People Evacuated : 2244 Rescued: 40 Affected talukas(Mahi River Flooding)- Vadodara Rural, Desar, Padra People Evacuated : 1867 Rescued: 115</p>
4.	Fire	<p>Year 2008 -2009</p> <p>March - 2012</p> <p>November-2012</p>	<p>Fire caught in Ginning mill situated at Jetpur pavi block, the fire extinguished after two days.</p> <p>12 Houses in Village - Zer of Naswadi Taluka caught fire and destroyed fully.</p> <p>There were several incidents of domestic fire due to sort circuits and other reason.</p> <p>Brigade call of fire at fire crackers bazaar at Polo ground - Vadodara city</p>

		October 2016	Fire in Residential building in Waghodiya Taluka due to illegal trading of fire crackers in house and fire initiated due to gas bottle leakage resulted into huge fire because of fire crackers. 6 persons died in the incident
5.	Road / Rail Accident	<p>April - 2004</p> <p>April - 2008</p> <p>May – 2010</p> <p>June - 2010</p> <p>July - 2010</p> <p>Aug-2010</p>	<p>Rail Accident near Samlaya village, Sabarmati Express crashed with freight Stationary train due to which 16 people were died and more than 120 persons were severely injured.</p> <p>Dabhoi - Bodeli road accident of topple down of ST bus in Narmada Canal due to which 44 school students and driver was died due to drowning in the Narmada Canal.</p> <p>Private Luxury Bus over toppled from Jambua Over bridge in to jambua river, 1 person died and 47 persons were injured.</p> <p>Road accident between Rickshaw and Truck near Panchdevla village of Waghodia Taluka due to which 3 persons were died and 4 persons were injured.</p> <p>Road accident between Luxurybus and truck near Thuvavi - Fartukui of Dabhoi Taluka, 8persons were died and 34 persons were injured in the accident.</p> <p>Road accident near Choramal patiya of Naswadi block due to which five persons were died and 2 were injured.</p>

		March-2012	Road accident between Truck and Luxury bus near Manglej village of Karjan Taluka, 6 people died in the incident.
6.	Chemical/Industrial Disaster	December - 2009	Fire caught in Furnish oil tank of Shell bitumen company situated at Pilol village of Savli block.
		June - 2010	150 persons form Karachiya village resided near Gujarat Refinery was temporarily shifted in nearby primary School due to Fire broke out at Karachiya village Pond situated near IOCL (GR) Plant area.
		July - 2010	Ammonia gas leakage in Gayatri Ice & Cold Storage factory situated at Nagardada area of Vadodara City due to which 60 to 70 persons were primarily affected.
		August - 2010	Chlorine gas leakage in Nikita Chemicals situated at Nandesari Notified area 9 persons were affected due to the chlorine gas effect.
		November -2011	Boiler burst at GSB co., near Dipak Nitrate, Village - Nandesari, Vadodara ®, and Total 5 fire fighters were at the place for operation.
		February - 2015	Fire Blast at Shiva Pharmachem Pvt. Ltd. in Luna Village, Padra Taluka occurred due to which 3 workers lost their lives and there were more than 5 fire fighters in operation to control the fire.
			Major Fire in GSP Crop Science Pvt. Ltd.in

			Nandesari Area, Taluka - Vadodara occurred due to which 4 workers lost their lives and 15 got injured.
7.	Epidemics	June - July 2010  January - March, 2015	Water born disease like fever, vomiting, diarrhoea etc. recorded in Ajwa road of Vadodara city and in Savli taluka.  Swine Flu Disease affected cases were recorded in Vadodara District  A kind of epidemics recorded every year in monsoon season.
8.	Biological Disaster	March-April 2020	Covid-19 Virus was a notified virus has been spraed all over the District.
9.	Other	Almost Every year	Due to lightning human death and cattle death reported every year in monsoon season.

## **2.4 Capacity Analysis**

### **Traditional Coping Capacity:**

It is important to identify and recognize traditional coping capacity of the community to enable them to enhance their capacity to withstand disasters.

<b>Hazard</b>	<b>Early Warning</b>	<b>Preparedness</b>	<b>Early Response</b>
Flood	Monitoring of water courses through community	Identified high elevation places and rescue teams	Evacuation, search and rescue and first aid support
Cyclone	Information through fisher folks	Evacuate to safe place	Search and rescue and first aid support

Earthquake	-	Identification of safe places	Search and rescue and first aid support
Drought	Own assessment mechanism	Fodder storage, food storage at individual level	Panjrapol
Industrial/Chemical Hazard	Local Administration	OCR, DISH and EOC	Local response Teams
Tsunami	-	Evacuate to safe place	Search and rescue and first aid support

### Summary of Capacity against flood:

Details	No.
Villages at risk	184
Swimmer	1222
Emergency / Rescue Shelters	159
Govt medical practitioners	58
Nurses	267
Cattle shed (Panjrapol)	3
Machine boats	12
Simple Boats	29
Fiber Boat	26
Rubber Boat	29
Life Jackets	636
Rings	1171
Rope 200 ft	245
Rope 100 ft	262
Life Buoy	400

### Summary of Capacity against earthquake:

Details	No.
Emergency / Rescue Shelters	159
Govt Doctors	58
Nurses	267
Dumpers	35

**Capacity against industrial and chemical disaster:**

Particular		Unit (no.)
Special Response Teams (SRTs) readily available for Industries		Yes
Trained personnel at District level		164
Fire Fighters (Private) & (Govt)		50
Govt doctors		58
Antidotes	1. Yes details covered in	Annexure N28

# PREVENTION, MITIGATION AND PREPAREDNESS

## **CHAPTER - 3 -**

# **PREVENTION, MITIGATION AND PREPAREDNESS**

In the context of Vadodara district in particular and Gujarat State in general the Disaster Management perspective has been followed in three phases, i.e. pre, during and post disaster management activities.

The pre-disaster phase includes prevention, mitigation, and preparedness activities. These activities involve Extensive Data collection, maintaining Directories of resources, developing Action plans, Capacity building, Training and Community awareness activities among others.

District administration, other Government departments, local authorities and other relevant agencies have already been formulated / working on the plans for prevention and mitigation of disasters and will build the capacity and ensure preparedness in the event of a disaster actually taking place. The private sector, NGOs and the community actively co-operate with the relevant agencies and participate in the training and other activities, which are conducted to augment their disaster management capabilities.

In this context, District Administration, Vadodara Municipal Corporation and different Government Line departments act as the nodal agency for mitigation, preparedness and capacity creation for the respective specific field areas as per the guidelines of State government and GSDMA.

In Vadodara district, DEOC / District Administration has developed linkages with other stakeholders such as Lending agencies, Government departments, Local authorities, NGOs, Private sector and Community groups in order to share the knowledge and augment capacity on a holistic basis. The capabilities developed in this phase play a critical role in all subsequent phases.

**In Pre-Disaster Phase with Respect to Vadodara District, the key activities** may be the joint efforts from the Chairman i.e. District Collector and other district line department heads / District Disaster Management Committee members towards the disaster management.

**Planned development:** There is a significant relationship in the way disasters and development affect each other. A long-term disaster management approach has been adopted and accordingly

planning activities for development has been carried out for robust mitigation practices. District Administration and different Government Departments would ensure that the planning activities of the district administration and local authorities would take into account disaster risks and provide for suitable preventive and mitigation measures.

**Development of policies, SOP's and guidelines:** Effective disaster management requires the formulation of clear guidelines and subsequent compliance by all Government authorities, private sector entities and the public at large. Different departmental SOP's has been developed for Vadodara district and department specific and private sector specific SOP can be developed in these regard.

**Establishment of a proper chain of command:** It is imperative that a clear chain of command is established for effective management of activities that immediately follow a disaster. Vadodara DEOC / District has been established a clear chain of command which is headed by District Collector and DEOC is the focal control room for all disaster management activities and coordination mechanisms across all entities responsible for implementation in the district.

**Risk assessment:** Before commencing preventive and preparedness activities, it is important to identify and assess different types of risks for the district. Relevant departments will co-ordinate with District Administration for a thorough assessment of:

- Hazards: Classification of the region into zones, based on hazard potential; and
- Vulnerability: Assessment of degree of vulnerability of any given structure/ people / region to the impact of the hazard.

The assessment has been used for developing detailed contingency plans and mitigation measures.

**Develop disaster management plans:** Detailed disaster management plans that are tailored to local needs would enable the relevant authorities and the community to respond systematically and effectively to disasters. District administration / DEOC, different line departments, and expert agencies etc., in consultation with DEOC has developed the disaster management plans. These are constantly reviewed and updated.

**Develop repositories of information:** It is critical that the relevant authorities should be in a position to quickly establish contact with people and resources in the aftermath of a disaster.

DEOC and the relevant Government departments has created comprehensive repository of information such as names, contact details, and made easily accessible to the relevant authorities at all times.

**Establish communication networks:** A robust district-wide communication network is critical not only for managing disasters but also for effective functioning of the district administration. Comprehensive communication network has been established up to village level by DEOC and different line department

**Developing early warning mechanisms:** Early warning mechanisms help the relevant authorities in taking timely preventive measures and thereby, reduce the damage caused by disasters. Set up of early warning mechanisms by DEOC, different control rooms and departments to give advance warning for hazards like cyclones, floods etc.

**Building capabilities & expertise:** It is necessary to build strong capabilities and expertise for handling various aspects of disasters. District administration with the support of GSDMA has been involved in enhancing the capabilities of different officials and community members, NGO's etc by imparting disaster management trainings to different agencies and departments by providing rescue equipments for strengthening individual and department with respect to disaster management.

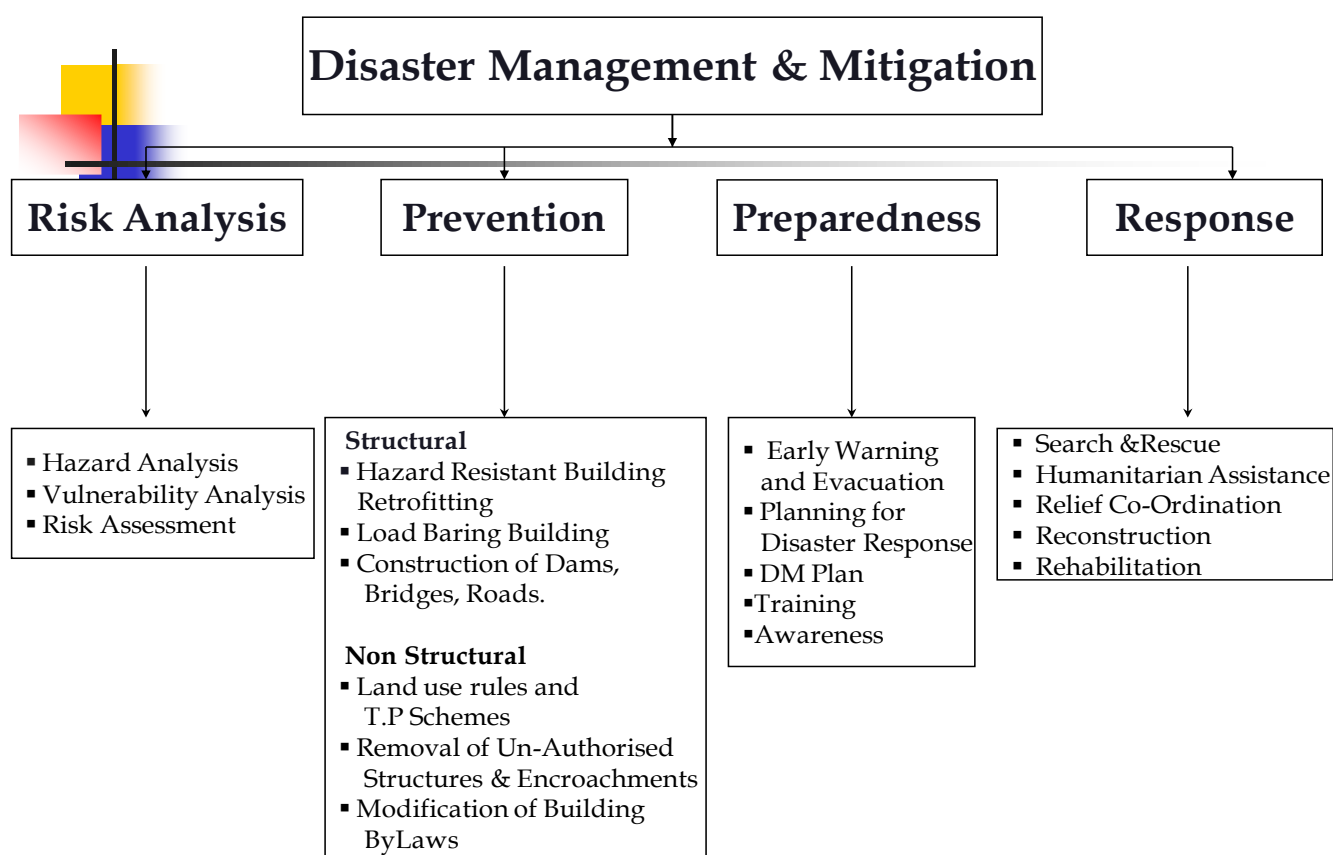

**During the period of any kind of disaster:** As per the set response mechanism with this District Disaster Management Plan all line department will perform accordingly to get the routine life back on the regular track, District Collector is the Responsible Officer and as per his/her directions all other line departments, agencies respond to the disaster and ensure that the damage due to the disaster can be minimize as much as possible. The Rescue and Relief work in the affected area will be the focal point of response and accordingly the response teams / groups will be performed to let the disturbed life on track.

**In Post disaster scenario** of any types of disaster, the focus will be on the rehabilitation and reconstruction work, as per the directions of State Government and so the Chairperson & District Collector, the aforesaid task will be performed with the support of

different taskforce, department and agencies and by the cumulative efforts of all line department and response groups the focus will be on the routine life establishment.

Mitigation, preparedness and prevention actions are to be taken before a disaster to reduce the likelihood of a disaster (risk reduction) or the level of damage (vulnerability reduction) expected from a possible disaster. Vulnerability reduction is given priority over a risk reduction.

As Vadodara district is surrounded by various rivers and industrial zones the major possibilities of floods and industrial hazards are more with the district so the required mitigation strategies may be developed in this regards to minimize the effect of such kind of disaster. Following flowchart shows the Disaster Management and Mitigation aspects in three different DM phases.

- “Mitigation” means a measures aimed at reducing the impact or effects of a disaster;
- “Prevention” means measures the object of which is to avoid the occurrence of a disaster

- “Reconstruction” means repair and construction of a property undertaken after a disaster
- “Rehabilitation” means any activity the objects of which is to restore normalcy in conditions caused by a disaster ;
- “Emergency Preparedness” means the state of readiness which enables stakeholders to mobilize, organize and provide relief to deal with and impending or actual disaster or the effects of a disaster ;

Based on the interim assessment of risk and vulnerabilities, certain measures for mitigation, preparedness and prevention have been taken with respect to Vadodara District. These are as follows:

- Ongoing Construction work of Artificial Drain is in progress in Vadodara city area to prevent the flooding and water logging problem in the city area.
- To reduce the connectivity problems due to water logging in between different areas, talukas and villages, multiple over bridges have been erected throughout the district which can also reduce the risk of road accidents and traffic hangout problems, with the project of NHE-1 and by State's R&B department, few of such over bridges are:
  1. Sindhrot bridge - near sindhrot village
  2. Vadsar bridge - near Makarpura GIDC area
  3. Lalbaug bridge - near lalbaug area
  4. Jambua bridge - near jambua
  5. Dena-Vemali bridge - near dena village
  6. Dumad bridge - near dumad village
  7. The bridge - near Halol chaukdi and Ajwa chaukdi
  8. Tarsali bridge - near Tarsali village
  9. Dandiya bazaar - Akota Bridge
  10. Kalali Bridge
  11. Jetalpur overbridge
  12. VIP Road Overbridge - near Amit Nagar
  13. Fatehgunj Overbridge
  14. Atal Bridge etc.

With these many of the small bridges have been erected to reduce the risk of flooding and sort out the problem of connectivity.

- One of the mitigation step is the proposed project of VMSS for Vishwamitri river, 4,500 slum-dwellers shifting from the river bank of Vishwamitri
- Many of Boribandhs have been created throughout the district with dual purpose of water recharging and prevention of flooding.
- Proposed Project of VMC for widening of Vishwamitri River for flood mitigation.
- Natural drainage system passes through Undera - Karachiya has been designed accordingly to reduce the flooding problem due to this drainage problem.
- Widening of city roads due to which the traffic problem as well as the road accidents problem reduced.
- Encroachment has been done near Bhukhi kaans area, the natural drainage system has been cleared and the habitants resided near Bhukhi kaans (one of the natural drainage) has been rehabilitated to Vadsar and Jambua Village of Vadodara.
- To respond in emergencies of all districts of south Gujarat Region the ERC (Emergency Response Centre) has been established near Darjipura village, in support of ERC, 10 Acre land has been allotted to NDRF (National Disaster Response Force) near Jarod Village in Waghodia Taluka of Vadodara District.
- The services of 108 has been introduced in full fledge which provide the emergency health support to the victims in case of almost all kind of man - made and natural hazards and also routine healthcare emergencies in the district.
- Offsite Control Room situated at RIL, Undera village near Vadodara, Specially meant for response, preparedness and other DM aspects in case of Industrial accident, has been more active, the OCR is well equipped with Communication instruments like, Mobile, wireless sets etc. the same is connected with DEOC for direct communication in case of industrial accidents.

## 3.2 DRM Programme

- For point of preparedness view **Disaster Risk Management Programme** of GSDMA has been implemented in Vadodara district since year 2004 under which :

1. **Level specific Disaster Management plans** such as District DM Plan, Departmental DM Plan, Offsite emergency Plan, Taluka DM Plan, Village DM Plan, City DM Plan, School DM Plan, etc. have been prepared and updated periodically, time to time instructions for development and Updation of DM Plan for different set up like industries, Educational establishments, Health infrastructure, different agencies has been given by the District EOC.
2. Preparation and timely Updation of district level **contact detail diary, Resource Inventory** and communication plan by District EOC.
3. The data base of DM Plans has been updated on regular basis on **SDRN** and **IDRN**.
4. **Capacity building** of all stake holders including government officials, agency representatives, PRI's and community members with respect to Disaster Management, it is ongoing process.
5. **Subject specific trainings** such as First Aid, Search & Rescue, EOC Management, Early Warning & Communication and Masons training has been organized for various stake holders by inviting guest lecturers, Professional trainers of different health agencies, fire department, individual agencies to conduct the trainings for different types of stake holders of all level.
6. **Awareness generation programmes** with respect to Disaster Management are frequently organized to sensitize all kinds of stake holders, officials, community members of all level and other organizational representatives on Disaster Management through various types of modes such as:
  - Orientation / sensitization meetings
  - Competitions
  - School level programmes (elocution, Poster competition, etc.)
  - Rallies
  - Using special drives of IEC handouts distribution for different Agencies / bodies / practitioners
  - Poster exhibition and IEC distribution on different occasions / fairs / in National / local festivals, in government programme.
  - Video Screening for different target groups.

- By organizing different programmes like street plays, Bhavai etc.
- Spread the message of preparedness and what to do and what not at the time of emergencies through media channels, Print media (local and national both), cell phone operators by scrolling of messages and warnings.

## **7. Training and Rehearsals at all levels (District, Taluka, Village, City)**

For effective implementation of this DDMP, regular training and mock drills involving all key members need to be carried out. This will further enhance better understanding of individual's role and responsibilities in emergency response besides improving the overall coordinated efforts.

The main objectives of training plan are:

- Familiarizing key personnel involved in the plan with their equipment, the overall plans and their roles.
- Ensuring efficacy of emergency response mechanisms/resources.
- Reviewing the total plan, so that updating, modifying and training activities can be improved.

## **8. Mock Drills**

The ability of the Emergency Management Team is to perform a set of critical tasks under simulated conditions for different hazards that are validated by conducting a full scale mock drill once in a year at district level. This includes but not limit to management initiatives, response activities, direction, control, mobilization of resources, communications, mitigation and post incident activities of all concerned. This is a field mock drill on a large scale involving all the task forces.

After completion of every mock drill, a debriefing meeting shall be arranged in which proceedings of the mock drills are discussed highlighting weak areas/shortfalls for effecting improvement in the plan.

Taluka level mock drills have been organized twice in a year for checking of preparedness measures of all kinds of DM initiatives in particular DM Plan updation status. Same way as per the office order of zonal - sub zonal officers appointment,

village level mock drills has to be performed thrice for one taluka covering different villages of the taluka.

In the year of 15-16, a mock exercise of scenario of Earthquake leading to a Chemical and Industrial Disaster drill has been carried out, the findings has been narrated to the concerned agencies and instructed to rectify the same and report to the district administration. There are several mock drills that are regularly conducted in the District to build the capacity of the community and different Departments and also to keep check on the response time being taken in the drill so that it can be minimized at the time of actual disaster.

Similarly, in the year 2019 District level mega mockdrill has been has varied out on Chemical Industrial Disaster to understand the onesite and off site mock scenario on chemical leakages by involving various stakeholders etc.<sup>67</sup>

### **3.3 Electronic Support for resources utilization and information**

#### **1. State Disaster Resource Network : (SDRN)**

SDRN is Web base data base system/portal and can be utilized for the DM related resource details/ information of Taluka, City and Village of whole Vadodara district. SDRN consist contacts related as well as resources related both types of details of the Gujarat State. This portal can be utilized from Taluka, District and from state level where GSWAN connectivity is there. For utilization of the same one can use the following link:

**[http://117.239.205.164/SDRN\\_NEW/Login.aspx](http://117.239.205.164/SDRN_NEW/Login.aspx)**

#### **2. India Disaster Resource Network : (IDRN)**

IDRN is nationwide data base portal and utilized through district and from state and national level. IDRN consist online data base of equipments, skilled men power and critical supplies of whole nation. This data base can be utilized at the time of crisis; the hard copy of updated equipment related details is having with DEOC separately. For utilization of the same one can use the following link:

**<http://www.idrn.gov.in/>**

### **3.4 ICT infrastructure for disaster management at State, District, Taluka and Village levels:**

#### **➤ SDRN (State Disaster Resource Network):**

During past disaster, it has been observed that a comprehensive database of disaster management related inventory is essential for an organized response. More often than not, lack of proper and adequate information has hampered swift and measured response resulting in delay which could be critical in such eventualities. Therefore, a need was felt to prepare a database of such resources, from Village level to State level. GSDMA, as part of the Disaster Risk Management Programme formulated by UNDP and MHA, GoI has created a web based portal named State Disaster Resource Network (SDRN) which contains a database of resources at the Village, Taluka, City and District level which can come in handy during disaster situations. A resource network of more than 18,000 villages has been created in SDRN.

The information is collected through Village Disaster Management Plan [VDMP] format at Village level and collated through SDRN at Taluka level with taluka level secondary data to produce the Taluka Disaster Management Plan [TDMP]. These TDMPs are then aggregated to form a District Disaster Management Plan [DDMP]. This centralized database system, SDRN, hence collects stores and processes resource information and produces query based reports on:

- Hazards Faced with intensities
- Data on Vulnerable Elements
- Information on Past Disasters
- Sector wise detailed Information
- Complete Resource Inventory
- Task Force and Disaster Management Committees at various administrative levels with their emergency contact nos.

SDRN allows the creation and updating of the Village, Taluka, and City disaster management plans at regular interval once the data has been collected at the Village level, entered into the SDRN system at the Taluka level and aggregated with secondary data pertaining to the specific taluka or district. This system presents many advantages such as

the easy availability of plans at all levels, minimum duplication, time saving and finally the visual data reports generation that assists in gap analysis and resource mobilization.

Each user of all 249 talukas of the State has been given unique username and password through which he/she can perform data entry, data Updation on SDRN for their Village, Taluka or City. All of these data are stored in database of the server located at State office. Status reports are also generated showing the status that how many forms, records are entered on SDRN.

SDRN, a decision support tool, is layered using the existing IT Wide Area Network (WAN) of the State - GSWAN. SDRN uses the map-based Geospatial Information Systems developed by the Gujarat based organization Bhaskaracharya Institute for Space Applications and Geo-Informatics (BISAG). Currently, the SDRN network is being integrated with the GIS based Decision Support System using Java, MS-Access, Visual Studio 2005 with Database SQL Server 2005. The GIS Visualizer does not require any GIS software. The GIS Visualizer contains multi layered options depicting roads-highways, taluka, district boundaries, rivers, ports, airways, etc.

With the completion of the integration to GIS Visualizer, the SDRN will not only be a useful tool for disaster preparedness but also provide support to decision makers in managing resources, search & rescue operations in the event of disaster and later during the relief and rehabilitation work post disaster.

➤ **IDRN (India Disaster Resource Network):**

Ministry of Home Affairs, GoI formulated a based platform to share information on availability of equipments, skilled human resources, and critical supplies along with their location and agency details throughout the country. Total 226 technical items have been identified which will be listed in the resource inventory. It is a nationwide district level resource database.

Each user of all districts of the State has been given unique username and password through which they can perform data entry, data updation on IDRN for resources available in their district. All of these data are stored in database of the server located at NIC-Delhi.

The IDRN network has functionality of generating multiple query options based on the specific equipment, skilled human resources and critical supplies with their location and contact details.

### **3.5 MITIGATION MEASURES:**

- Structural Mitigation Measures for Flood (Identified works of concerned Departments are indicative):

<b>Probable Mitigation Measures</b>	<b>Identified Locations and Villages</b>	<b>Implementing Departments</b>	<b>Convergence with Scheme/ Program</b>	<b>Time Frame</b>
Desilting and deepening of water channels (kaans)	Respective Sensitive Kaans	Irrigation,	Departmental program	Before June, 2024
Repair and maintenance of Flood Channels, canals, natural drainage, storm water lines	-	Irrigation department	Departmental or special plan	Before June, 2024
Construction of Safe Shelters (new construction through Indira Awas, Sardar Awas and Ambedkar Awas)	Respective villages	Rural Development	Housing Scheme	Regularly
Desilting of water bodies like river and ponds	Village ponds and river streams	Irrigation TDO Rural Development	Departmental program	Before June, 2024

- Non-Structural Mitigation Measures for Flood:

<b>Non-Structural measures</b>	<b>Locations/ coverage area</b>	<b>Implementing Departments</b>	<b>Convergence with agency/program</b>	<b>Time Frame</b>
Safety audit of existing and proposed housing stock in risk prone areas	Flood risk prone villages	TDO, Rural development	IAY, Sardar Awaas and other rural housing schemes	Regularly
Promotion of Traditional, local and innovative practices like bamboo/plastic bottle rafts etc	Flood risk prone	TDMC, SHGs and youth groups, NGOs	Training and capacity building plan for disaster management	Continuous
Capacity building of volunteers and technicians	Flood risk prone	TDMC	Training and capacity building plan for disaster management	Continuous

- Structural Mitigation Measures for Earthquake:

<b>Structural measures</b>	<b>Identified Locations and Villages</b>	<b>Implementing Departments</b>	<b>Convergence with Scheme/ Program</b>	<b>Time Frame</b>
Retrofitting (if required) of public utility buildings like offices, schools/ banks/ markets etc.	Whole District	R & B (State and Panchayat), Panchayat, Rural department		2024-25
Retrofitting of unsafe rural houses		DDMC, DDO	Rural housing schemes and departmental programs	2024-25
Identifying and safely dismantling unsafe structures		R & B department		2024-25

- Non-Structural Mitigation Measures for Earthquake:

<b>Non-Structural measures</b>	<b>Location/ coverage area</b>	<b>Implementing Departments</b>	<b>Convergence with agency/program</b>	<b>Time Frame</b>
Capacity building of architects, engineers and masons on earthquake resistant features	Whole district	R & B (State and Panchayat), DDMC		2024-25
Registration of trained and certified mason		R & B (State and Panchayat), DDMC		2024-25
Strict enforcement of guideline pertaining to seismic safety for government rural housing		DDO	Rural housing schemes	2024-25
Mock-drills for Schools, Hospitals and , Public Buildings and trainings for mason, engineers and architects		DDMC, Schools		2024-25

- Industrial (Chemical) Structural Measures (in coordination with LCG, DCG district and state level authorities)

<b>Structural measures</b>	<b>Activities</b>	<b>Implementing Departments</b>	<b>Convergence with agency/ program</b>	<b>Time Frame</b>
Monitoring impact of industries on NRM (land, water and air)	Data collection of impact on natural resources (ground water monitoring wells, air quality test, etc)	DDMC, TDMC, LCG, GPCB		Regular interval
Safety assessment	Carry out structural safety inspection/audit	DISH, DCG, LCG ( Dy. Industrial safety and health)		Regular interval

- Industrial (Chemical) Non-Structural Measures (in coordination with LCG, DCG district and state level authorities)

Non structural Measures	Activities	Implementing Departments	Convergence Agencies	Time Frame
Planning	Prepare an onsite and offsite emergency plan	Occupier, DISH		2024-25
	Conduct mock drills as per the regulations	DCG, DISH and LCG		regular interval
	Update the plan as per the requirement	Occupier, DISH		regular interval
	Monitor similar activities in all the factories/ industries	DISH and LCG		regular interval
Capacity	Develop IEC material for	DDMC,TDMC		2024-25
Building	Publication & Distribution			
	Awareness generation to general public and medical professional residing near MAH factories for immediate steps	DDMC,TDMC, LCG		2024-25
	Organize training programmes, seminars and workshops (e.g. for drivers of HAZMAT transport, line departments officers, Mamlatdar etc)	DDMC, TDMC, LCG		2024-25
	List of experts/ resource person/ subject specialist (District emergency Off site plan)	DDMC,TDMC, LCG		2024-25
	Encourage disaster insurance	Labour & employment department		2024-25
Medical	Listing of hazardous chemicals and gases.	Occupier, DCG, LCG, DISH, BHO		2024-25
	Keep check on availability and validity of relevant antidotes for chemical hazards prevalent in District	Occupier, DCG, LCG, DISH, BHO		2024-25

	Workshops and trainings for medical professionals to handle potential chemical and industrial hazard	BHO, DCG, Occupier, LCG, DISH		Regularly
Compliance	Environmental Protection Act, Factory Act, Mutual Aid SOPs	DISH , GPCB		Regular interval
	Any other			

At District level, the District Crisis Management Group (DCG) is an apex body to deal with major chemical accidents and to provide expert guidance for handling them.

# RESPONSE PLAN & INSTITUTIONAL MECHANISM

## **CHAPTER - 4 - RESPONSE PLANNING**

### **Trigger mechanism for putting the plan into action**

The plan would be put into action as per the levels of disasters categorized i.e. L0, L1, L2 & L3 (As mentioned earlier in the DM Concept - Chapter - 1). It could also be put into action on recommendations or directive of the State Crisis Management Group taking into consideration the situation prevailing at a given point of time. The District Disaster Response structure is activated on warning or occurrence of a disaster.

Special powers are conferred on Responsible Officer during disasters. The Principle organization leading each task force is responsible for giving alert to the appropriate authority when use of the special powers is required to accomplish warning, relief or recovery objectives given to the task force.

### **Disaster Response and District Incident Response System**

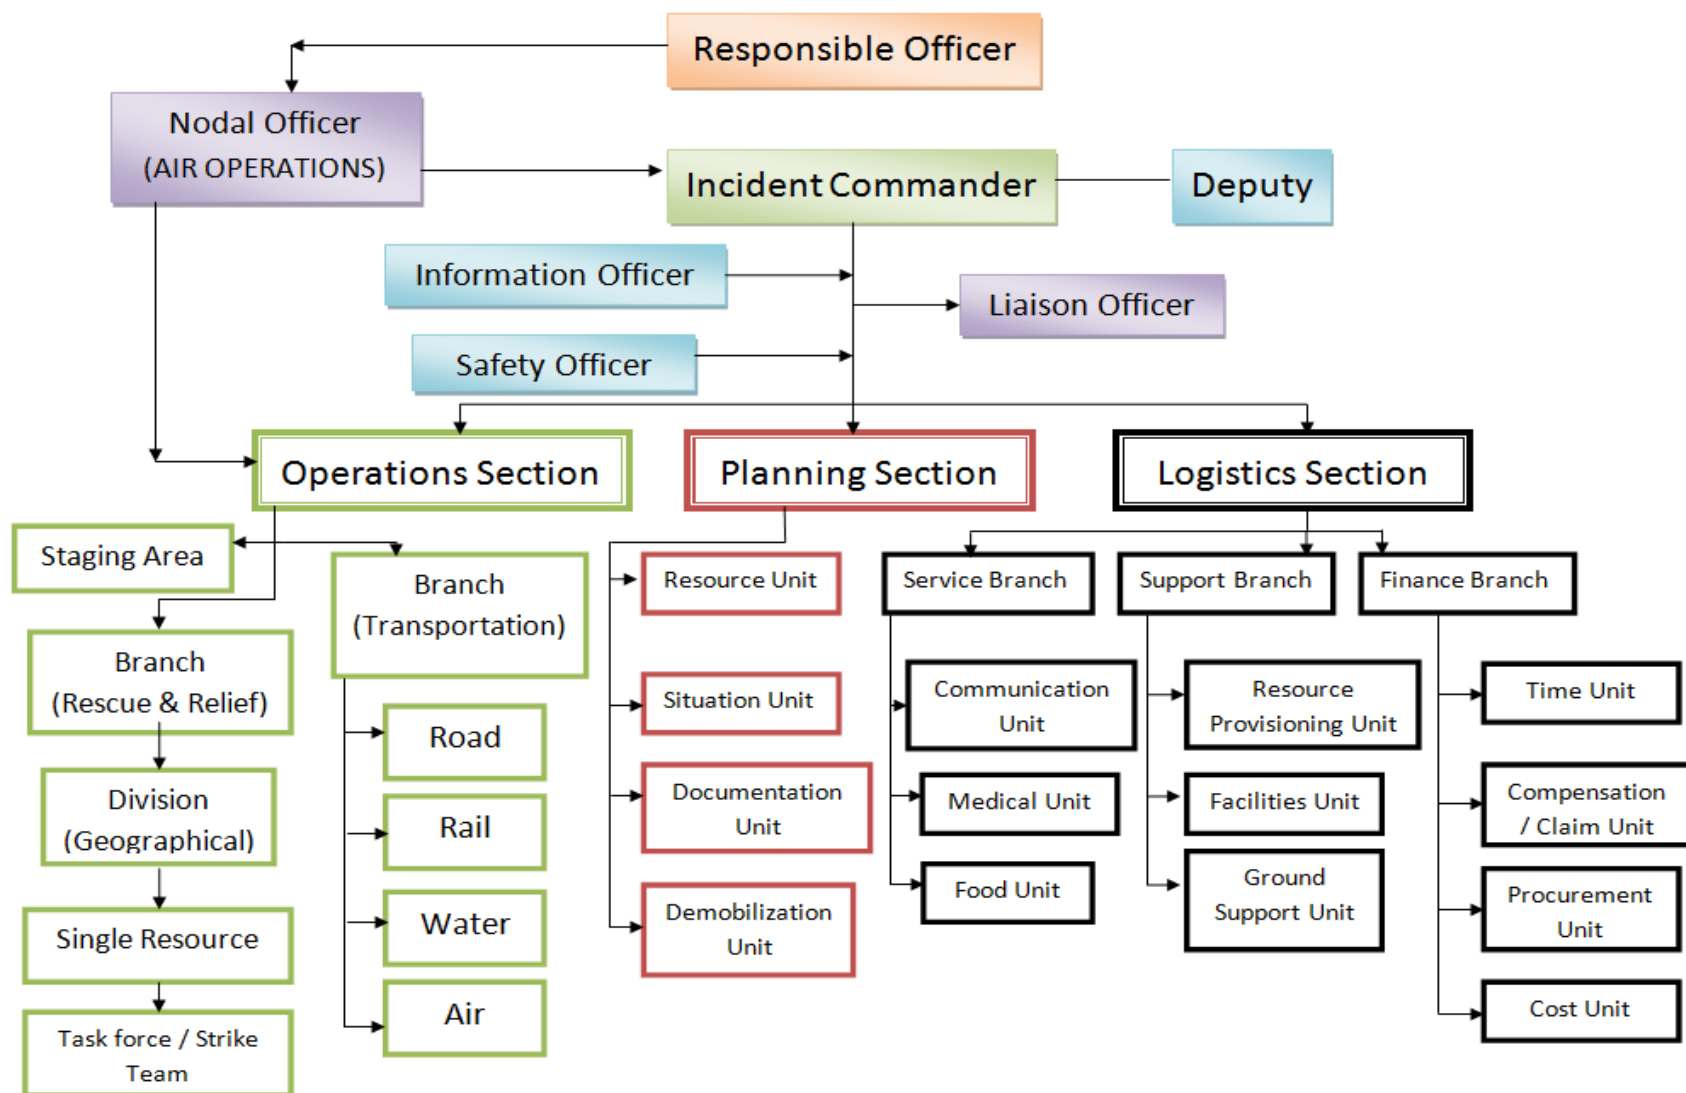

The response to disasters in the district will be organized according to the Incident Response System as adapted to the conditions in Gujarat State (IRS/GS). The argument for the IRS is that its fundamental elements –predefined different task forces, identified resources, and predefined duties and responsibilities to different task forces will lead to an effective response to any kind of disaster.

In Vadodara district, the District Disaster Management Plan is focused on sector specific action plans unlike the department specific planning approach. The disaster response is led by the **District Emergency Operation Center (DEOC)** under the command and control of the District Collector.

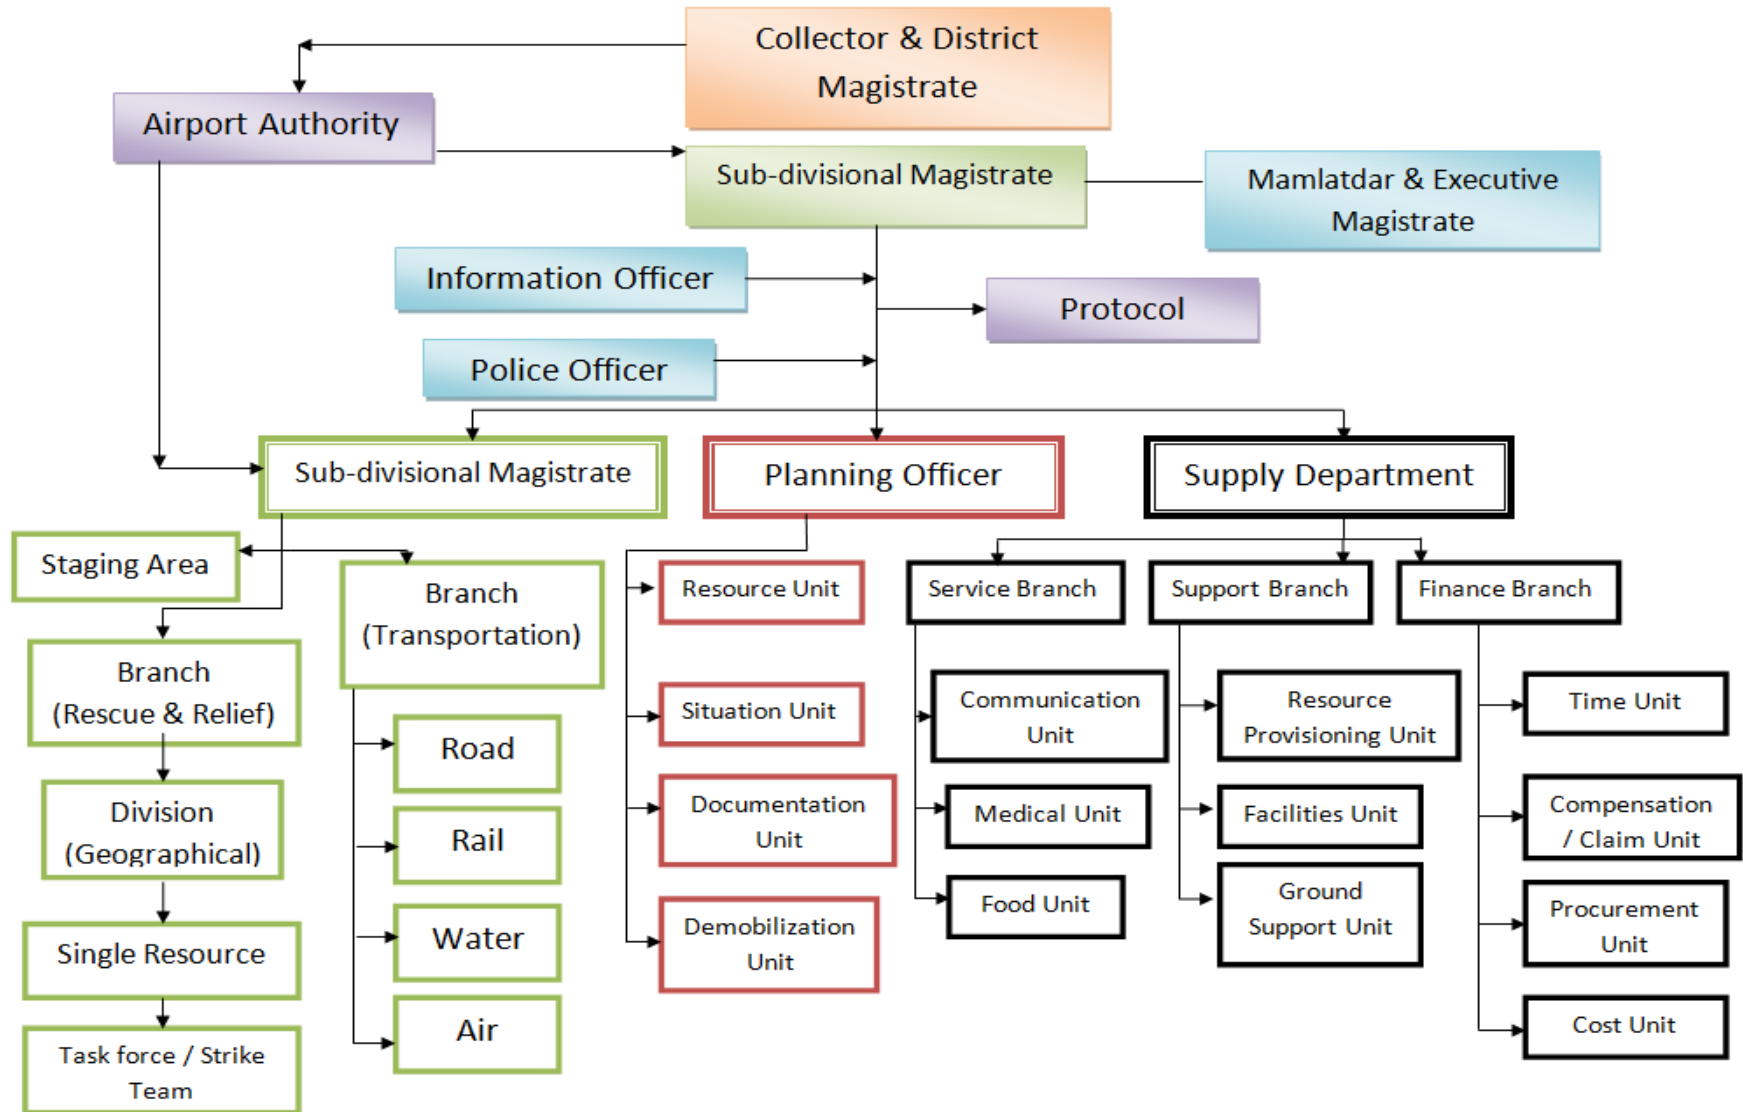

Frame work for Municipal corporation level Disaster Management Committee, Taluka level Disaster Management Committee, City level Disaster Management Committee and Village level Disaster Management Committee has been made, updated and followed for different level specific Disaster Response Mechanism.

The district level response structure of the Vadodara district is given in the next page.

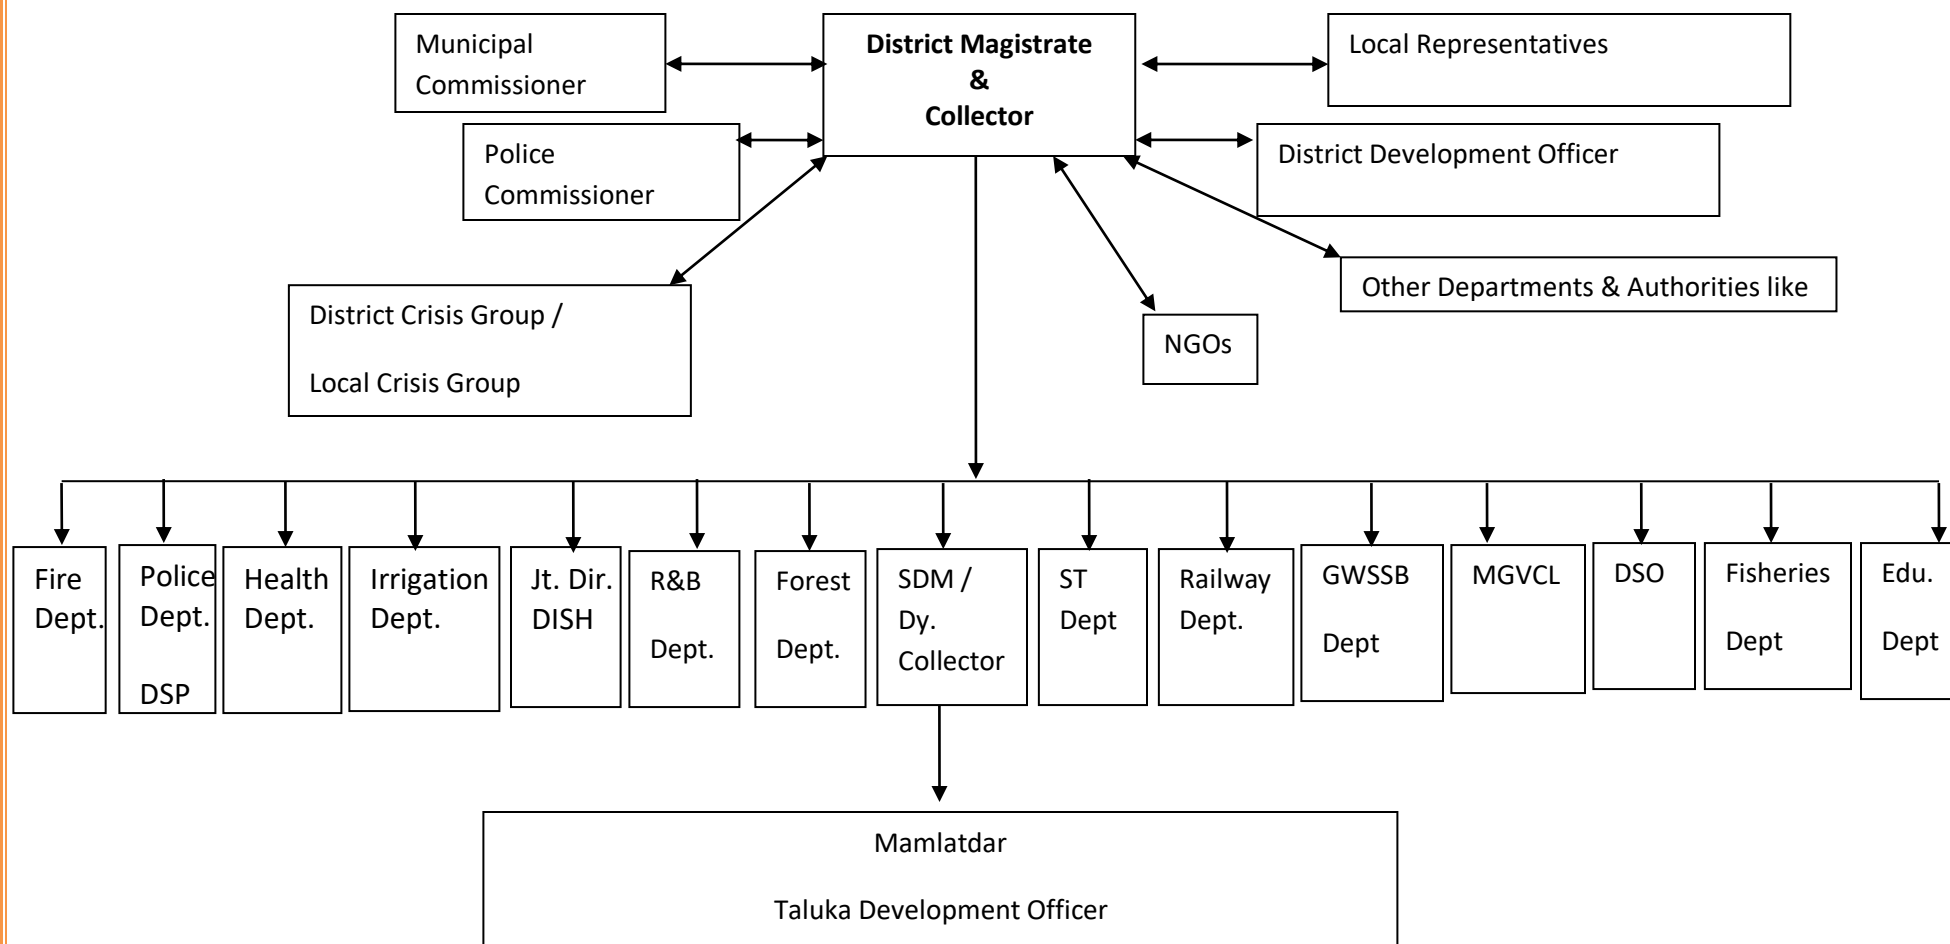

### District level Response Structure Model

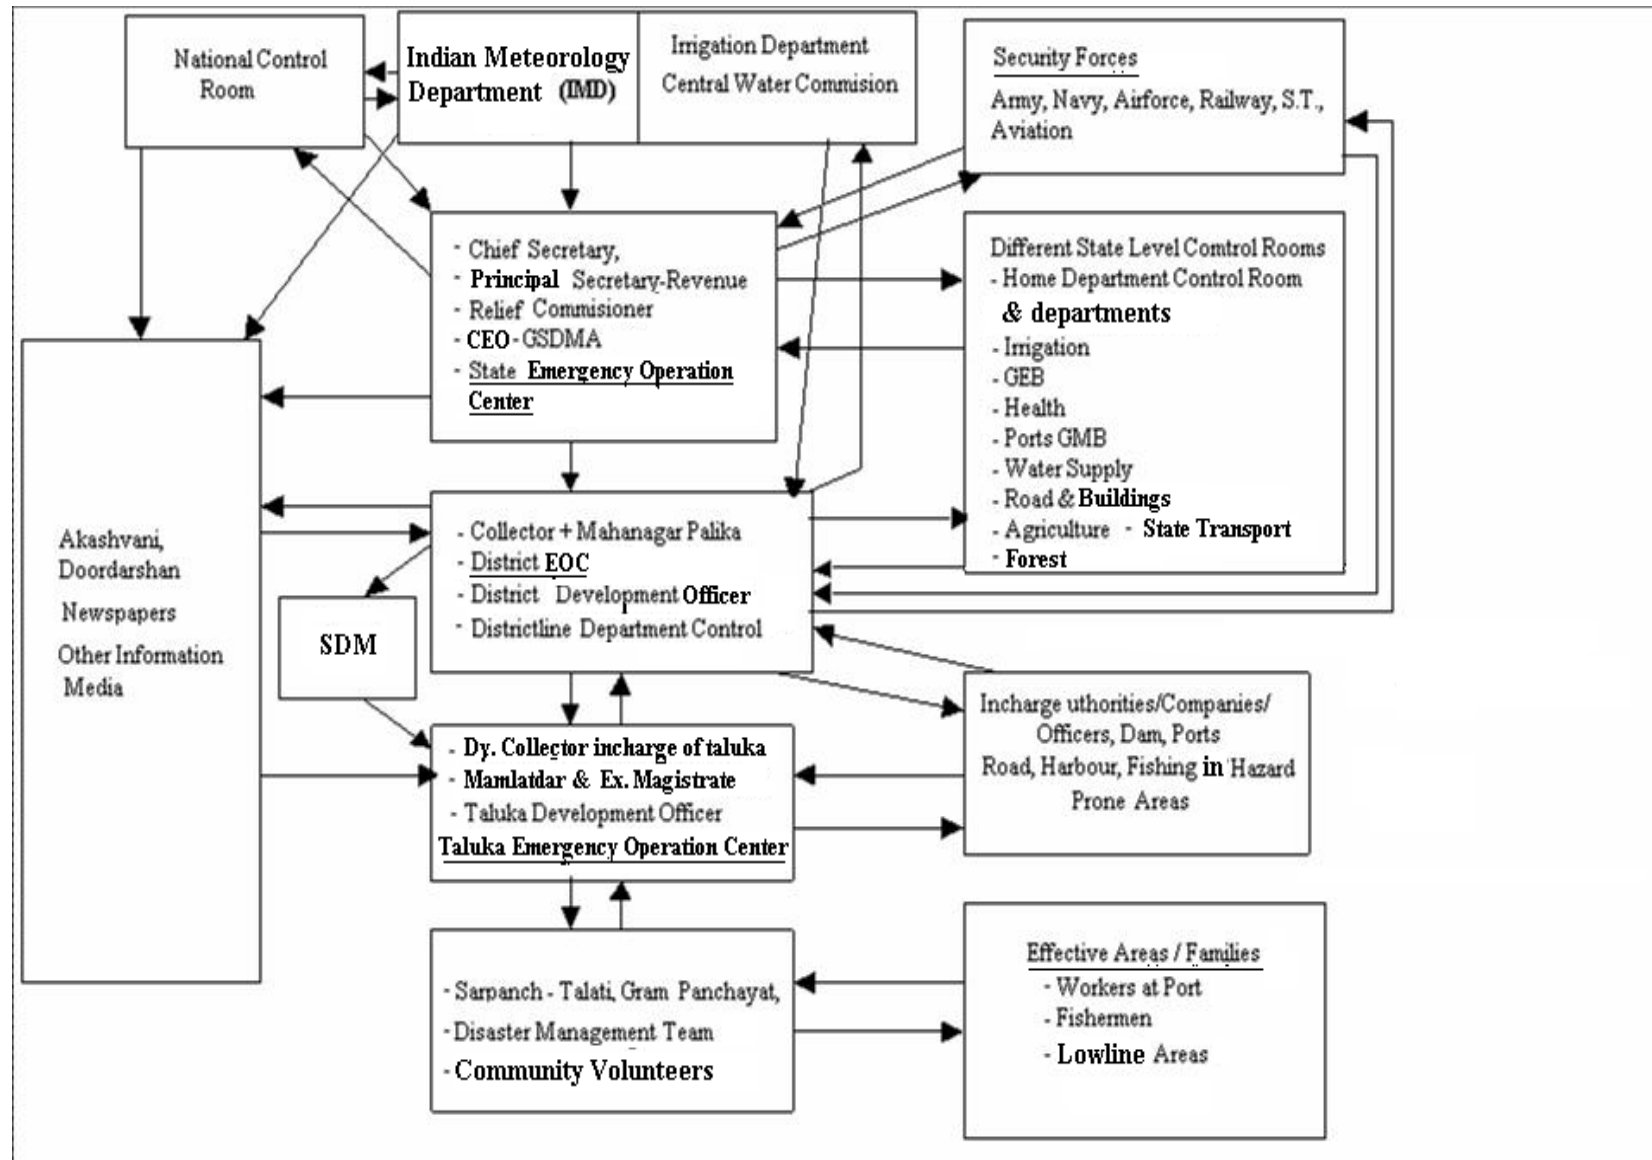

### District level Response Structure (IRS)

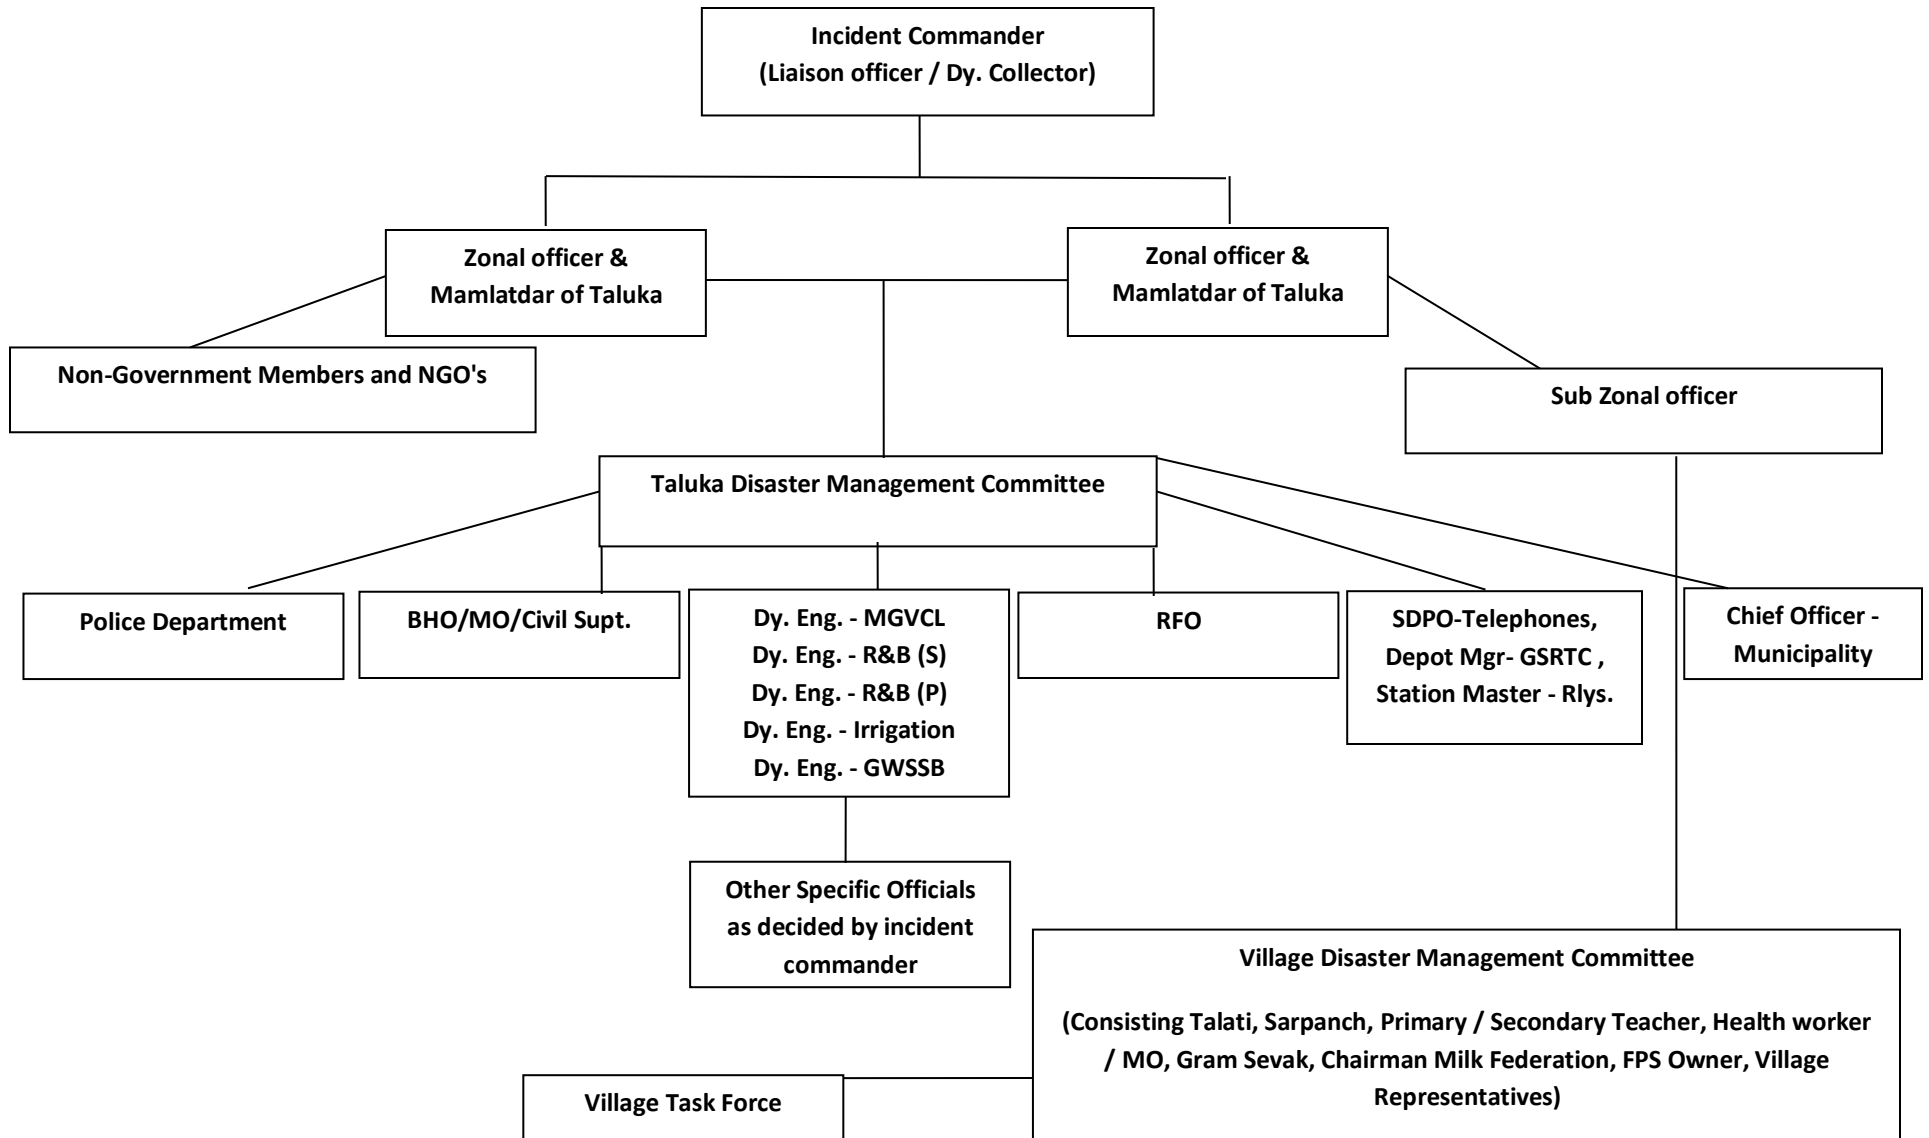

### Flow chart of District Administrative Setup

## Linkages of District with State and National level

## **Taluka level Structure**

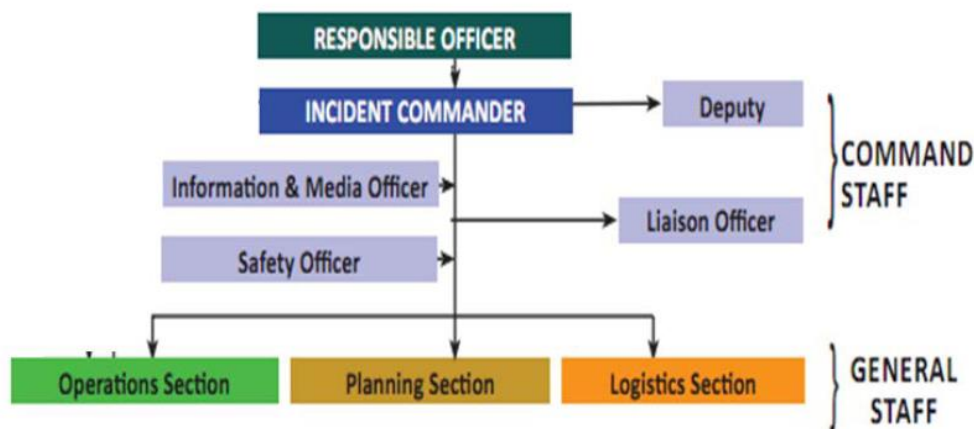

# INCIDENT RESPONSE SYSTEM

## 1. IRS Organizational Structure: IRT Framework

As per NDMA's IRS guidelines, IRT at District, Sub-Division, Tehsil and Block level should be constituted under the written directives of District Magistrate (DM). These teams will include experienced officers / employees at all levels and respond to all natural and man-made disasters. The lowest administrative unit (Sub-Division, Tehsil or Block) will be the first responder as the case may be. IRT at all levels will have same structure, i.e. IC supported with Operations, Planning and Logistics Sections. The IRTs are to be pre- designated at all levels.

### A. IRT Framework - District Level

In general, the selection of Section Chiefs is made according to the suitability and capability of the officer. The selection of the Operations Section Chief, however, depends on the nature of the disaster. In case of flood and earthquakes reaching the affected area, rescuing the affected people and providing relief to them is the main task of the responders. People have to leave their home in a hurry and they are not able to take away their valuables. These abandoned houses become vulnerable. The relief materials while being transported also become prone to loot. In such cases, Police and the Armed Forces are the best suited to handle and lead the operations. In case of fire, it will be the District Fire Officer who will be appropriate officer to handle the situation. In case of health related disaster, it would be the District Chief Medical Officer and so on.

## **B. Major Responsibilities and Duties**

### **INCIDENT COMMAND**

The Incident Command's responsibility is the overall management of the incident. It is comprised of following positions:

#### **Incident Commander**

The Incident Commander has a wide variety of responsibilities.

- Assess the situation and/or obtain a briefing from the prior Incident Commander.
- Determine incident objectives and strategy.
- Establish the immediate priorities.
- Establish an Incident Command Post.
- Establish an appropriate organization.
- Ensure planning meetings are scheduled as required.
- Approve and authorize the implementation of an Incident Action Plan.
- Ensure that adequate safety measures are in place.
- Coordinate activity for all Command and General Staff.
- Coordinate with key people and officials.
- Approve requests for additional resources or for the release of resources.
- Keep agency administrator informed of incident status.
- Approve the use of students, volunteers, and auxiliary personnel.
- Authorize release of information to the news media.
- Order the demobilization of the incident when appropriate.

#### **Information and Media Officer**

The Information and Media Officer is responsible for developing and releasing information about the incident to the news media, to incident personnel, and to other

appropriate agencies and organizations. Reasons for the Incident Commander to designate an Information and Media Officer:

- An obvious high visibility or sensitive incident.
- Reduces the risk of multiple sources releasing information.
- Need to alert, warn or instruct the public.
- Media demands for information may obstruct IC effectiveness.
- Media capabilities to acquire their own information are increasing.

### **Liaison Officer**

The Liaison Officer is the point of contact to assist the first responders, cooperating agencies and line departments. It may be designated depending on the number of agencies involved and the spread of affected area. Reasons to establish the Liaison Officer position at an incident:

- When several agencies send, or plan to send, Agency Representatives to an incident in support of their resources.
- When the IC can no longer provide the time for individual coordination with each Agency Representative.
- When it appears that two or more jurisdictions may become involved in the incident and the incident will require on-site liaison.

### **Safety Officer**

The Safety Officer's function is to develop and recommend measures for ensuring safety of responders and to assess or anticipate hazardous and unsafe situations and review it regularly. The Safety Officer will correct unsafe situations by working through the chain of command, however, the Safety Officer may exercise emergency authority to directly stop unsafe acts if personnel are in imminent life-threatening danger.

## **GENERAL STAFF**

Each one has a vital role for efficient response; however, depending upon the nature and requirements of the incident, they may be or not be activated. Each of these functional areas can also be expanded as needed into additional organizational units with further delegation of authority.

### **Operations Section**

The Operations Section deals with all types of field level tactical operations directly applicable to the management of an incident. This section is headed by an Operation Section Chief (OSC). In addition, a deputy may be appointed to assist the OSC for discharging his functions depending on the magnitude of the work load. Operations Section is further sub-divided into Branches, Divisions and Groups which assist the OSC/IC in the execution of the field operations.

### **Planning Section**

The Planning Section deals with all matters relating to the planning of the incident response. Headed by the Planning Section Chief, this section helps the Incident Commander in determining the objectives and strategies for the response. It works out the requirements for resources, maintains up-to-date information about the ongoing response and prepares IAP. For the closing phase of the operations, the Planning Section also prepares the Incident Demobilization Plan.

### **Logistics Section**

The Logistics Section deals with matters relating to procurement of resources and establishment of facilities for the incident response. This section is headed by the Logistics Section Chief and is an important component of the IRS organization for providing back end services and other important logistic support like communications, food, medical supplies, shelter and other facilities to the affected communities and responders as well. There is a Finance Branch attached to this Section in order to ensure that the procurements, if any, may be done quickly and in accordance with the financial rules.

## **2. Triggering Mechanism for Deployment of IRS**

Some of the natural hazards have a well established early warning system. On receipt of information regarding the impending disaster, the Emergency Operations Center (EOC) will inform the Responsible Officer (RO), who in turn will activate the required IRT and mobilize resources. At times the information about an incident may be received only on its occurrence without any warning – in such cases the local IRT will respond and inform the higher authority and if required seek reinforcement and guidance.

## **3. Activation of IRS in the District**

Before taking up response activities, the DM (RO/IC as per IRS) will hold a briefing meeting and take stock of the situation, availability and mobilization of resources for listing out the various tasks and to provide proper briefing to the responders. The IAP will be drawn and put into action based on the situation assessment. The DM/RO will nominate Operations Section Chief (OSC) based on “incident type” and rest will follow as per IRS/IRT and other procedural guidelines.

On activation of IRS, all line departments/organizations/individuals shall follow the directions of the Incident Commander as condition demands. He can divert all mechanisms and resources in the district to fight against a scenario leading to disaster/calamity in the district. All Section Chiefs (Operations, Planning and Logistics) are vested with commanding authority and logistic assistance to deliver the concerned responsibility.

## **4. Incident Action Plan**

It is important that activities indicated in the IAP are connected with the functional responsibility defined in IRT and also according to other descriptions as per DDMP. For instance, proper links shall be established between IRT and Emergency Support Functions (ESF) for IAP effectiveness. Three basic elements of IAP are: Task /Function /Activity, Department/Officer Responsible, and Time. Besides that, common forms used for performing IRS and IAP as given in IRS National Guidelines may be utilized.

## 5. Standard Operating Procedures

Standard Operating Procedures (SOPs) are a common method of implementing instructions. SOPs provide response protocols for carrying out specific responsibilities. They describe the “who, what, when and how” during a disaster, helping responders to perform complex tasks with high level of coordination. SOPs should be prepare and annexed to the DDMP for all relevant hazards of the district, such as earthquake, flood, cyclone, landslide, tsunami, man-made disasters, etc. It should be based on pre-defined IRTs and ESFs and communicated to every stakeholder in advance.

# FUNCTIONAL RESPONSIBILITIES

RESPONSIBLE OFFICER =	PRIMARILY RESPONSIBLE FOR EFFECTIVE RESPONSE
COMMAND =	OVERALL INCHARGE OF THE INCIDENT RESPONSE TEAM AND ITS EFFECTIVE FUNCTIONING
OPERATIONS =	DIRECT AND SUPERVISE ALL TACTICAL ACTIONS
PLANNING =	COLLECT/ANALYZE DATA, WORKOUT NEED OF REQUIRED RESOURCES AND PREPARE ACTION PLAN
LOGISTICS & FINANCE =	PROVIDE LOGISTICS SUPPORT, ROCUREMENT AND COST ACCOUNTING

### LIST OF IRS POSITIONS AND SUITABLE OFFICERS IN THE DISTRICT

IRS Position	Suitable officers
<b>INCIDENT COMMANDER</b>	ADM / ADC or any other equivalent officer or as deemed by RO
Deputy IC	SDM or any other equivalent officer or as deemed by IC
Information & Media Officer	Control Room Officer / Emergency Officer or any other suitable position at District level as deemed by IC
Liaison Officer	Dy. Collector (Protocol) / District Public Relations Officer or any other suitable position at District level as deemed by IC
Safety officer	Fire Officer / Dy. SP (Police) / Medical Officer / Factory Inspector or any other suitable position at District level as deemed by IC
<b>OPERATIONS SECTION CHIEF</b>	Dy. Superintendent of Police / ADM / Dy. Collector or any other suitable position at District level as deemed by IC / RO
<b>PLANNING SECTION CHIEF</b>	ADM (Sadar) / Add. SP / Dy. SP / Sr. Deputy Collector / Joint Collector / District Planning Officer / Fire Officer / Medical Officer / NDRF representative (If available) or any other suitable position at District level as deemed by IC / RO
<b>LOGISTICS SECTION CHIEF</b>	Senior Dy. Collector or any other suitable position at District level deemed by IC / RO

The District administration of Vadodara has identified 16 expected task forces for key response operation functions that are described below. Additional taskforces can be added under the operations section as needed by the circumstances of a disaster. Each Taskforce is led by one organization and supported by other organizations.

<b>Emergency Operation Taskforce</b>	<b>Functions</b>
1. Coordination and Planning	Coordinate early warning, Response & Recovery Operations
2. Administration and Protocol	Support Disaster Operations by efficiently completing the paper work and other Administrative tasks needed to ensure effective and timely relief assistance
3. Warning	Collection and dissemination of warnings of potential disasters
4. Law and Order	Assure the execution of all laws and maintenance of order in the area affected by the incident.
5. Search and Rescue (including Evacuation)	Provide human and material resources needed to support local evacuation, search and rescue efforts.
6. Public Works	Provide the personnel and resources needed to support local efforts to reestablish normally operating infrastructure.
7. Water	Assure the provision of sufficient potable water for human and animal consumption (priority), and water for industrial and agricultural uses as appropriate.
8. Food and Relief Supplies	Assure the provision of basic food and other relief needs in the affected communities.
9. Power	Provide the resources to reestablish normal power supplies and systems in affected communities.
10. Public Health and sanitation (including First	Provide personnel and resources to address pressing public health problems and re-establish normal health

aid and all medical care)	care systems.
11. Animal Health and Welfare	Provision of health and other care to animals affected by a disaster.
12. Shelter	Provide materials and supplies to ensure temporary shelter for disaster-affected populations
13. Logistics	Provide Air, water and Land transport for evacuation and for the storage and delivery of relief supplies in coordination with other task forces and competent authorities.
14. Survey (Damage Assessment)	Collect and analyses data on the impact of disaster, develop estimates of resource needs and relief plans, and compile reports on the disaster as required for District and State authorities and other parties as appropriate.
15. Telecommunications	Coordinate and assure operation of all communication systems (e.g.; Radio, TV, Telephones, Wireless) required to support early warning or post disaster operations.
16. Media (Public Information)	Provide liaison with and assistance to print and electronic media on early warning and post-disaster reporting concerning the disaster.

The specific response roles and responsibilities of the taskforces indicated above is that these roles and responsibilities will be executed and coordinated through the IRS/GS system.

**Task Force, Leader and Supporting department details in response**  
**(INCIDENT RESPONSE SYSTEM)**

The **COMPOSITION** of the **TASKFORCES** is given in the table below:

<b>No.</b>	<b>Task Force</b>	<b>Taskforce Leader</b>	<b>Supporting members / Organizations/Departments</b>	<b>Section / Unit</b>
1.	Planning and Coordination	Collector	Commissioner VMSS, DDO, DSP, RAC, and Mamlatdar - DM	Planning
2.	Administration & Protocol	Resident Additional Collector	DDO, DSP, Commissioner VMSS, SDM - City and Mamlatdar - City	Liaison
3	Damage Assessment/Survey	SDM - City	DIC, Dy. DDO, Ex. Engr., R&B, DAO, Fisheries	Logistics
4	Warning	Supt. Engr. -VIC- For Floods & Cyclones Jt./Dy.Dir.-ISH - For Chemical Disaster CP / DSP - For Terrorist Attack	RAC, Factory Inspector ,Mamlatdar - DM , Various Departmental Control Room, Member Secretary -OCR control room ,District Information Officer (DIO),Police Dept., Irrigation Dept.	Operation
5	Communications	Resident Additional Collector	Factory Inspector ,Mamlatdar - DM , Various Departmental Control Room, OCR control room ,Dy. Mamlatdars, Mobile Operators, TV, Radio, Police, Forests	Logistics
6	Media	District Information Officer	Information Department, Print, Media, TV, Journalists, NGOs	Public Information
7	Logistics	DDO	RTO, DSO, FPS, Private & Public sector, Municipal water supply board, Mamlatdar, Dist. Supply Mamlatdar	Logistics

8	Law & Order	CP - City DSP - District	DCP ,Dy. SP, SRP ,Home Guards Commandant, NGOs, Para-military and Armed Forces	Safety
9	Search & Rescue	Add. Collector & Dy.Controller- Civil Defence -	DCP , Dy. SP ,CFO - VMSS , MAG members from OCR , Mamlatdar, TDO, Police, Executive Engr., , RTO, State Transport, Health Dept., SRP , SDRF , NDRF , Army , Air Force.	Operation
10	Public Works	Supt.Engr. R&B (State / City) SE R&B (Panchayat) SE Irrigation	Ex. Engr - R&B (S/C/P) , Ex. Engr Irrigation (Circle/Panchayat), DFO ,NGOs, Water Supply Board, Municipalities, Home Guards, Police	Operation
11	Shelter	Dist.Pri.Edu.Officer Dist.Edu.Officer	Administrative officer- Edu. - VMSS ,Education Department , School Principal, Teachers, Health, PHC, State Transport, Water Supply, RTO, Mamlatdar, TDO , NGO , CBO.	Operation
12	Water Supply	Ex. Engr. GWSSB Ex. Engr. Water Works VMSS	Dy. Ex. Engr., Mamlatdar, TDO, Health Dept, Dy. Engr. VMSS , Talati	Operation
13	Food & Relief Supplies	Dist. Supply Officer	RTO, GSRTC, Municipality, DRDA, Police, Home guard, FPS, PDS, Mamlatdar, NGO,CBO	Logistics
14	Power	Supt. Engr. GEB	Ex. Engr., Dy. Engr. Technical, GEB, Transport	Operation
15	Public Health & sanitation	RDD / CDHO	CDMO -JHH , Medical Supt. SSG Hospital, Medical Officer -VMSS PHCs, CHCS, Municipality, Red Cross, Fire Brigade VMSS, Civil Defense, R&B, NGOs, Doctors, TDO, Mamlatdar	Operation
16	Animal Health & Welfare	Dy. Director Animal Husbandry	Veterinary Inspector, NGOs	Operations

## **Alert Mechanism**

### **Warning, Relief and Recovery**

Warning, Relief and Recovery actions are intended to eliminate the loss of life and property and hardship due to disasters. DM Plans and SOPs of different levels, sectors and departments have their own early warning mechanism and imply the same at the time of disaster, further planning for relief and recovery assistance to the affected people have been done during the course of disaster to avoid or reduce losses and hardship.

In Vadodara district the Collector/ DEOC is the focal point for early warning, relief and recovery aspect, who directs and coordinates these efforts within the district. Collector / DEOC coordinate in early warning, relief and recovery and share / report the steps taken in these regards with similar activities in neighboring districts and with the GSDMA and Revenue Department.

### **Early Warning Action Plan**

The availability of early warning system is a must before early warning message could be disseminate to the people till the last mile. Thus for every type of disaster there is an agency designated with the responsibility of keeping track of developments in respect of specific hazards and inform the designated authorities/agencies at the district level about the impending disaster.

Nodal agencies for early warning of different natural hazards are:

<b>Type of Action</b>	<b>Flood</b>	<b>Cyclone</b>	<b>Chemical and industrial accidents</b>
Existing EWS	Irrigation department/dam authority/ IMD ↓ Collector ↓ Mamlatdar/TDO ↓ Villages	IMD ↓ Collector ↓ Mamlatdar/TDO ↓ Villages	Industrial Association/industries ↓ DCG ↓ LCG ↓ Mamlatdar
Responsible Agency for warning dissemination	Mamlatdar office/TDO	Mamlatdar office/TDO	Mamlatdar office/TDO

Trained personnel and operators available (Y/N)	Yes	Yes	Yes
Villages covered	All risk prone villages		
Villages/habitation not covered or difficult to access	Communities in remote locations ( fisher folk, salt pan workers, maldharis etc)		
Measures required to improve timeliness and outreach (For example, voice enabled SMS)	Contact of communities in remote locations (fisherfolk, saltpan workers, Maldharis etc)		

#### **During and Post Disaster Advisory Action Plan:**

Type of Hazard	Flood	Cyclone	Earthquake	Drought	Chemical and industrial accidents	Tsunami
Responsible Agency	Revenue & Panchayat offices					
Villages covered	All risk prone villages					
Villages/habitation covered or difficult to access	communities in remote locations (fisher folk, salt pan workers, Maldharis etc)					
Measures required outreach	Contact of communities in remote locations (fisher folk, salt pan workers, Maldharis etc)					

Details of Control Room telephone numbers functioning 24\*365 days and during the monsoon with some key dignitaries' telephone numbers are as under.

#### **SEOC-DEOC-TEOC and Other Control Rooms**

With these Control Rooms, the Railways control Room, ST Department control Room, BSNL control room, MGVCL control room, with these all, Off-site Control Room (OCR) functioning to take care of Industrial accidents particularly of 81 MAH units of district. OCR located at Material

Bhavan, Reliance Industries Ltd., Petrochemicals, and Vadodara. One of its wireless set is based at DEOC, and both DEOC and OCR closely work together at the time of Emergencies.

The actual plans developed by prime and supporting departments/agencies/organizations for each disaster may result in a variation in the actual composition of each taskforce.

Once this DDMP activated, these lead and supporting organizations create taskforces to accomplish the task as directed by the incident commander and appropriate section or unit leader. In addition, each taskforce lead organization will provide a report detailing activities undertaken and lessons learned during any disaster response operations. This report will be in addition to any purpose –specific reporting during the operation.

### **Emergency Communication Systems**

Communication system is very crucial for effective control of any disaster. The communication philosophy adopted by Disaster Management team during the disaster is as under:

In the event of collapse of any communication facility / Communication infrastructure as a cascading effect/consequence of disaster, Telecommunication Task Force Leader shall ensure immediate restoration of such facility or infrastructure to ensure uninterrupted communication for effective disaster management operations.

### **Radio Communication**

All the Control Rooms are equipped with hand held radios and all the task force leaders and their teams are having the hand held radio sets at their respective control rooms. The different user groups are operating at different frequency channels allotted to them for ease in communication in respective groups. At present, “Hand held radio sets” are with the District Magistrate, DDO, DSP, fire Brigade and Forest department. If possible, Health Personnel may be given these sets later.

### **Telephones**

Telephone facility is available with all the Control Rooms.

### **Alternate Communication System**

There could be a situation when all the communication facilities and systems may come to halt due to collapse of communication facilities/infrastructures. In the event of such a failure, till the facility/infrastructure is restored made functional, following alternate systems shall be used based on the seriousness of the situation.

### **Satellite Communication System**

Satellite communication shall be activated once all the communication systems fail. This facility is with DEOC. The Telecommunication Task Force Leader shall ensure that this facility is resumed on all such occasions.

### **Messengers**

- Use of messengers as a last resort to carry the hand written messages to people concerned in dealing with the disaster.
- A dedicated vehicle shall be made available by the Transport Task Force Leader upon request.

### **Right use of Communication facility**

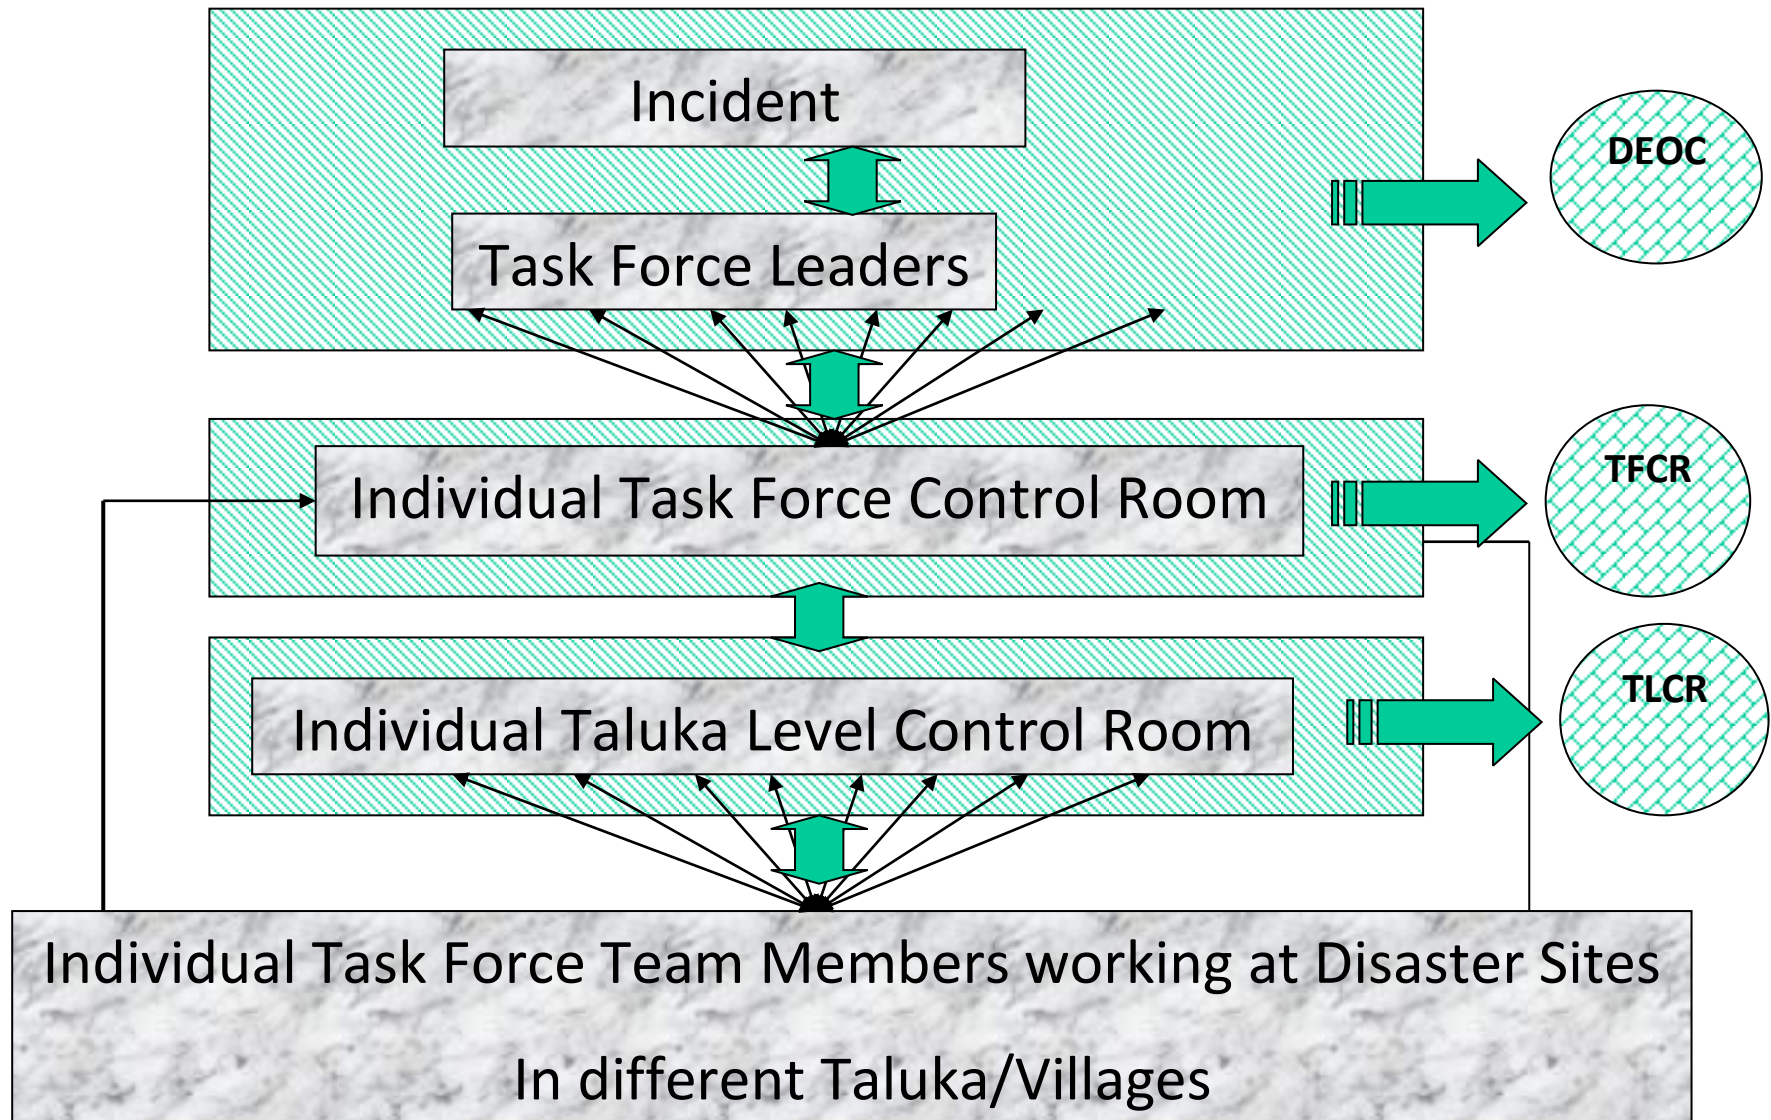

- The sense of urgency that everyone experiences during disaster may lead to a chaotic situation if communication systems are not properly used.
- Communication shall be brief and simple.
- Telephones, Cell phones, Hot Lines shall be used whenever required.

The table below describes the taskforce action plans are intended to identify key actions:

- Before a disaster
- At the time of warning
- As the disaster occurs and
- In periods from:
  - 12 to 48 hours
  - 48 to 72 hours
  - 72 hours and beyond after a disaster

The action plans serve as quick reference guide to individual task force members, as to what specific taskforces expect to be doing at specific stages before and after a disaster. This information will improve coordination within and between taskforces and with authorities outside Vadodara district.

## Communication Flow Chart during Disaster Management

## **TASKFORCE RESPONSE PLANNING**

### **Emergency Support Functions**

- **Coordination and Planning:** Coordinate early warning, response and recovery operations.

**Task Force Leader: Collector**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Establish a disaster management structure to the village level. (COLLECTOR , DDMC)	Links to State level and establishment of ICS structure.	On-going
Develop disaster plans at all levels down to the village level. (DDMC)		On-going
Hold regular meetings on disaster management including government, NGOs and private sectors. (DDMC)		Quarterly.
Continual training, including public awareness. (DDMC and Media Task Force).	Involvement of GSDMA	On-going.
Check warning, communications and other systems (DDMC), is including the use of drills.		On-going.
<b>Warning</b>		
Hold Crisis Management Committee (Collector)	Communications between Districts and with State Control Room.	On receipt of warning.
Mobilize task forces at all levels (District, Taluka, village depending on disaster) (CMC, Telecommunications, Media Task Forces)	Communications systems and procedures.	As decided by CMC.
Disseminate Information (CMC, Media Task Force)		As decided.
Mobilize resources to be positioned near vulnerable points depending on type of disaster.(CMC)	Telecommunications systems, plans.	As decided.
Establish alternate communications system (Telecommunications Task Force)		As decided.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Disaster</b>		
Start Search, Rescue and Evacuation activities. (CMC)	SAR Task Force operational.	Immediately
Begin Collecting Information on extent of damage and areas affected. (CMC)	Assessment teams have communications and transport.	Started in 4 hours.
Start plan development and provide instructions on where Task Forces should go and what they should do. (CMC, Collector)	Information on damage and areas affected.	Started in 4 hours.
Mobilize outside resources (CMC)	Information on damage and needs.	Started in 5 hours.
Provide Public Information (CMC, Media Task Force).		As early possible (or should be started in 6 hours).
<b>12 Hours</b>		
Begin regular reporting on actions taken and status by Task Forces. (Task Forces)	Operating communications system.	Started at 12 hours.
Reassess damage information, resources, needs and problem areas/activities. (CMC)		Started at 12 hours.
Begin rotation of staff (CMC)		Start at 12 hours.
Establish regular liaison with State Control Room. (DEOC)	Working communications systems.	Start at 12 hours.
Shift focus of efforts to relief. (CMC)		Open
Restore key infrastructure (CMC through Public Works and other Task Forces)		Before 48 hours.
<b>48 hours</b>		
Continue review and reassessment of operations (CMC)	Information on operations.	
Conduct broad damage assessment (CMC and Damage Assessment Task Force)		
Establish Temporary Rehabilitation Plan (CMC)		
Begin demobilization based on situation. (CMC)		
Focus on creating a sense of normalcy. (CMC)		Before 72 hours.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>72 hours</b>		
Start Rehabilitation activities. (CMC)	Plan	
Conduct detailed survey of damage and needs. (CMC and Damage Assessment Task Force)		
Begin regular reporting on operations.	Information on operations.	As early as possible.
Restore all public and private sector services. (CMC)		As early as possible.
Lessons Learned meeting. (CMC and others)		After 2 weeks.
Final Report/Case Study (CMC)		After activities completed.

- **Warning:** Collection and dissemination of warnings of potential disasters.

**Task Force Leader: Resident Additional Collector**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Verify communication and warning systems are functioning - drills		Every 15 days
Have warning messages prepared in advance.		
<b>Warning</b>		
Receive and dispatch warnings. (Task Force)	Coordinate with Telecommunications Task Force	As received.
Verify warnings received and understood. (Task Force)		Within 1-2 hours of dispatch.
Independently confirm warnings if possible (Task Force)		As time allows.

- **Law and Order:** Assure the execution of all laws and maintenance of order in the area affected by the incident.

**Task Force Leader: Police Commissioner (For City Area)**

**District Superintendent of Police (For District)**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Evaluate expected disaster needs verses normal resources. (Task Force)		Completed in 8 days.
Estimate personnel and resources needed for disasters. (Task Force)	Based on standard for number of security personnel per population depending on severity of disaster.	Completed in one week.
Planning and coordination with Revenue Dept. (Task Force)		
Conduct drills, including public awareness generation. (Task Force)	Includes participation of Media Task Force	Every 45 days.
<b>Warning</b>		
Verify communications system. (Wireless Inspector)		1-2 hours of warning.
Alert police and other Task Force members. (Superintendent of Police)		1-2 hours of warning.
Implement duty distribution SOP for personnel and other resources. (Superintendent of Police)		1-2 hours of warning.
Develop preliminary estimate of requirements to support other Task Forces. (Superintendent of Police)		1-2 hours of warning.
<b>Disaster</b>		
Get orders on deploying personnel from Control Room. (Superintendent of Police)	Operating communications system.	Immediately
Determine status of staff and facilities. (Superintendent of Police)	Operating communications system.	1-2 hours of disaster.
Deploy additional staff. (Superintendent of Police)	Transport available.	2-3 hours of disaster.
Monitor resources. (Superintendent of Police)		1 hour of disaster

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
Establish VVIP unit. (Superintendent of Police)		Immediately.
Request additional resources, if needed. (Superintendent of Police)	Operating communications system.	4 hours of disaster.
<b>12 hours</b>		
Institute regular reporting. (Task Force)	Operating communications systems.	At start of period.
Begin staff rotation. (Task Force)		At start of period.
Address crowd control problems. (Task Force)		As needed.
Implement anti-looting/anti-theft SOP. (Task Force)		As needed.
Establish rumor control. (Task Force)	Involves Collector, Media Task Force, NGOs, and local eminent persons.	As needed.
Provide information to public, e.g., road status. (Task Force)	Involves Control Room, Media Task Force, and Deputy Magistrate.	As needed.
<b>48 hours</b>		
Implement a Force Management Plan (increase, reduction, redeployment, of forces). (Superintendent of Police)		From start of period.
Plan for return to normal ((Superintendent of Police, Task Force, Control Room)		From 72 hours after the disaster.
Conduct Lessons Learned Session (Task Force with input from other parties.)		1 week after the disaster.
Final Report		2 weeks after the disaster.

- **Search and Rescue (including evacuation):** Provide human and material resources to support local evacuation, search and rescue efforts.

**Task Force Leader:** Addl. Collector & Dy. Controller Civil Defense for city & Liaison officers - SDM for District

**Supportive Task Force Leaders:** DCP, Dy. SP, Chief Fire Officer, Member Secretary - OCR

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Risk assessment and vulnerability mapping. (Task Force)		Before warning.
Develop inventory of personnel and material resources. (Task Force)		Before warning.
Training. (Task Force)	Input and support from GSDMA	Before warning.
Establish public education program. (Task Force)	Media Task Force	
Establish adequate communications system. (Task Force)	Additional equipment required.	
Drills. (Task Force).		Before warning.
Establish transport arrangements for likely SAR operations. (Task Force)	With Logistics Task Force.	Before warning.
Develop Rescue SOP. (Task Force)		Before warning.
<b>Warning</b>		
Mobilize Task Force and SAR teams. (Task Force).		On warning.
Verify equipment is ready. (Task Force).		On team activation.
Confirm transport is ready. (Task Force)	Logistics Task Force.	On warning.
Undertake precautionary evacuation. (Task Force)	Logistics and Shelter Task Forces	As directed.
Re-deploy teams and resources, if safe. (Task Force)	Logistics Task Force	Based on conditions.
Start public awareness patrols. (Task Force)	Media, Law and Order and Logistics Task Forces.	As required.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Disaster</b>		
Assure safety of staff.		Immediately.
Restore own communications. (Task Force)		Immediately.
Dispatch rescue/evacuation teams based on assessments. (Task Force)	Input from Control Room.	Immediately.
Call for additional resources if needed. (Task Force)	Communications systems in operation.	3-4 hours of disaster.
Provide reports on operations. (Task Force)		Starting at 3-4 hours.
Begin handling of deceased per SOP. (Task Force)	Various Revenue officers and Police involved.	Starting at 3-4 hours.
<b>12 Hours</b>		
Begin staff rotation system. (Task Force).		Starter at 12 hours.
Begin specialized rescue (may begin earlier). (Task Force)	May require outside resources, coordination with Logistics Task Force.	Started at 12 hours.
Begin debris removal in cooperation with Public Works Task Force.	Focus on critical infrastructure. Liaison with Control Room.	Start at 12 hours.
Secure additional resources (e.g., fuel, personnel) for continued operations. (Task Force).		Start at 12 hours.
<b>48 hours</b>		
Demolish/Stabilize damaged buildings in cooperation with Public Works Task Force.	Logistics Task Force, workers, equipment.	Starting at 48 hours.
Demobilization, reconditioning, repair and replace equipment and other resources. (Task Force)		Based on nature of disaster.
Remain on stand-by for additional operations, particularly related to safety of recovery work. (Task Force).		As needed.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>72 hours</b>		
Lessons Learned meeting. (Task Force and others)		After 2 weeks.
Final Report. (Task Force)		After major activities completed.

- **Public Works:** Provide the personnel and resources needed to support local efforts to re-establish normally operating infrastructure.

**Task Force Leader: Executive Engineer, Roads and Buildings**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Inventory of personnel, equipment and status of infrastructure. (Task force)	Link to DRM project data based development.	One week before warning.
Identify critical infrastructure. (Task Force)	Need to define what critical infrastructure is.	Before warning.
Identify alternate transport routes and publish map. (Task Force)		Before warning.
Plan for prioritized post-disaster inspection of infrastructure. (Task Force)		
Establish and maintain a resources and staffing plan. (Task Force)		
Plan to provide sanitation and other facilities for shelters. (Task Force)		
<b>Warning</b>		
Establish Control Room. (Task Force)		No later than 6 hours from warning.
Mobilize Task Force and personnel.	Requires communications.	No later than 6 hours from warning.
Liaise with District Control Room. (Task Force)		No later than 6 hours from warning.
Verify status and availability of equipment and re-deploy if appropriate and safe. (Task Force)	Coordination with Logistics Task Force and Control Room.	24 hours from warning.
Review plans. (Task Force)		No later than 6 hours from warning.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Disaster</b>		
Begin damage assessment and inspections. (Task Force)	Coordination with Damage Assessment Task Force.	Within 12 hours of disaster.
Develop operations plan and communicate to Control Room.		Within 12 hours of disaster.
Mobilize and dispatch teams based on priorities. Teams will (1) repair, (2) replace, (3) Build temporary structures (For e.g., rest facilities, shelters).	Coordination with Logistics, Water, Power Task Forces and Control Room.	Within 12 hours of disaster.
Collaborate with other Task Forces.		Continuous.
<b>12 Hours</b>		
Begin staff rotation system and manpower planning. (Task Force).		Starter at 12 hours.
Mobilize additional resources based on expected duration of operations. (Task Force).	Coordination with Logistics Task Force, Contractors. May need additional funding.	Started at 12 hours.
Assure safety. (Task Force)		Start at 12 hours.
Establish security arrangements. (Task Force)	Law and Order Task Force.	Start at 12 hours.
Provide public information on roads, access and infrastructure. (Media Task Force)	Coordination with Control Room	Start at 12 hours.
<b>48 hours</b>		
Start detailed survey. (Task Force)	In cooperation with Damage Assessment Task Force.	Starting at 48 hours.
Begin reporting on operations (Task Force)		Starting at 3 days.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
Reconditioning, repair and replace equipment and other resources. (Task Force)		Based on nature of disaster.
Plan and start demobilization. (Task Force)		Starting at 3 days.
<b>72 hours</b>		
Develop long term restoration plan and start activities. (Task Force)		From 72 hours.
Lessons Learned meeting. (Task Force and others)		After 2 weeks.
Final Report. (Task Force)		After major activities completed.

- **Water Supply:** Assure the provision of sufficient potable water for human and animal consumption (priority), and water for industrial and agricultural uses as appropriate.

**Task Force Leader: Executive Engineer, Gujarat Water Supply and Sanitary Board**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Establish water availability, capacities, reliabilities and portability. (Task Force)	Standard of 20 litres of drinking water per person per day.	3 months before warning.
Plan for alternate water delivery and storage (Task Force)	May need tankers, tanks, generator set.	3 months before warning.
Secure new and additional equipment. (Task Force)	Requires funding.	
Secure extra stocks of chemicals, expendable supplies and equipment. (Task Force)	May require additional funding.	3 months before warning.
Open Water Control Room in Monsoon. (Task Force)		Done.
<b>Warning</b>		
Establish staff rotation and shift system. (Task Force)		No later than 24 hours from warning.
Provide public awareness on use of water. (Task Force)	Media Task Force.	No later than 24 hours from warning.
Provide instructions to government and private sectors on protection of water supplies. (Task Force)		No later than 24 hours from warning.
Mobilize Task Force members.		24 hours from warning.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
Mobilize additional personnel and vehicles. (Logistics Task Force)	May be difficult to locate additional personnel locally. Recourse to outside or contractor sources may be required.	24 hours from warning.
Coordinate activities with Power and other Task Forces.	Involves District Control Room.	24 hours from warning.
Verify water source status and protection. (Task Force).		No later than 24 hours from warning.
<b>Disaster</b>		
Plan and prioritize supply of water to users. (Task Force)	Requires information on needs, damage and demand.	Completed by 24 hours into disaster.
Assess status and damage to water systems. (Task Force)	Coordination with Damage Assessment Task Force.	Completed by 24 hours into disaster.
Mobilize water tankers. (Task Force)	Coordination with Logistics Task Force and Control Room.	Started by 24 hours into disaster.
Repair/restore water systems, based on plan. (Task Force)	Coordination with Power and Logistics Task Forces.	Started by 24 hours into disaster.
Assure supply point/distribution security. (Law and Order Task Force)		Started as soon as distributions begin.
Coordinate distribution of water and storage and provision of information on safe water use. (Task Force).	Coordination with Media Task Force and Control Room	Started by 24 hours into disaster.
<b>12 Hours</b>		
Establish temporary water systems. (Task Force)		Up to 72 hours from disaster.
Move toward permanent water supply system. (Task Force)		After 72 hours.
Complete long term recovery plan and needs. (Task Force)		After 72 hours.

<b>Action and (Who Should Take It)</b>	<b>Requirements or Conditions to be met for the action can occur.</b>	<b>Timeframe</b>
Begin reporting and documentation. (Task Force)		From 48 hours.
Begin demobilization. (Task Force)	Coordinated with Control Room.	From 48 hours.
Lessons Learned meeting. (Task Force and others)		After 2 weeks.
Final Report. (Task Force)		After major activities completed.

- **Food and Relief Supplies:** Assure the provision of basic food and other relied needs in the affected communities.

**Task Force Leader: District Supply Officer**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Establish procedures and standards. (Task Force)	Need standards.	On-going.
Maintain two months stock of essential supplies. (Task Force)		Done.
Develop transportation plan. (Task Force)	In cooperation with Logistics Task Force.	Completed in 8 days.
Develop list of NGOs. (Task Force)		Done.
Plan staffing for disaster. (Task Force)		Done
Identify locations, which can be isolated and increase stock as needed. (Task Force)		On-going.
Identify food preparation locations. (Task Force)		Done.
<b>Warning</b>		
Pass on warning. (Task Force)		Within 12 hours of receipt of warning.
Alert NGOs to prepare food. (Task Force)	Contact with NGOs.	Within 12 hours of receipt of warning.
Verify stock levels and make distribution plan. (Task Force)	Possible cooperation with Logistics Task Force.	Within 48 hours of receipt of warning.
Alert transport contractors to prepare for transport. (Task Force)	Coordinate with Logistics Task Force.	Within 5 hours of receipt of warning.
Mobilize staff. (Task Force)		Within 6 hours of receipt of warning.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Disaster</b>		
Receive and respond to instructions from Control Room. (Task Force)		As received.
Monitor conditions of stocks and facilities. (Task Force)	Need for communications.	
Develop distribution plan. (Task Force)	Need information on needs and locations.	As requested by Control Room.
Order food packets and provide supplies as needed. (Task Force)	Coordination with Logistics Task Force.	Per distribution plan.
Establish relief supplies receptions centers. (Task Force)	Coordinate with Control Room and Logistics Task Force.	As required.

<b>12 Hours</b>		
Start distribution operations. (Task Force)	In coordination with Logistics and Shelter Task Forces.	At beginning of period.
Formalize reporting, communications and monitoring. (Task Force)		Completed by 48 hours.
Start staff rotation system. (Task Force)		At beginning of period.
Begin mobilizing and managing additional supplies.	Coordination with Logistics and, Control Room.	Underway in 48 hours.
Establish security for all sites. (Law and Order Task Force)		At beginning of period.
Begin public announcement of distribution plan and standards. (Media Task Force)		Underway in 48 hours.
<b>48 Hours</b>		
Shift to normal operations. (Task Force)		Within 1 week.
Reconcile receipts and distribution records. (Task Force)		Within 30 days.
Continue providing relief to special areas/populations. (Task Force)		For 15 days from the disaster

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>72 Hours</b>		
Restore Public Distribution System. (Task Force)		From 1 week after the disaster.
Lessons Learned meeting.		Within 14 days of disaster.

- **Power:** Provide resources to re-establish normal power supplies and systems in affected communities

**Task Force Leader: Superintending Engineer, Madhya Gujarat Vij Company Limited (MGVCL) / GEB**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster and Warning Phases</b>		
Develop inventory of current status of power system and resources. (Gujarat Electricity Board – GEB)		
Establish minimum stock levels and procure necessary additional stocks. (GEB)		
Conduct monthly meetings. (GEB)		On-going
Develop contact lists. (GEB)		
Conduct informal hazard and risk assessment. (GEB)		Completed.
Develop disaster plan. (GEB)		
<b>Disaster</b>		
Assess impact according to SOP. (GEB)	Coordinate with Control Room and Damage Assessment Task Force.	
Prioritize response actions. (GEB)	Need to establish priorities.	
Collect more information. (GEB)		
Mobilize additional resources. (GEB)	Coordination with Control Room and other Task Forces.	
Check for unforeseen contingencies.		
<b>12 Hours</b>		
Revise plans based on feedback and assessments. (GEB)		Continuous
Monitor status of actions. (GEB)		Continuous
Begin staff rotation plan. (GEB)		At beginning of period.
Disseminate public information. (Media Task Force)		At beginning of period.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
Secure support for staff (food, lodging) from NGOs. (GEB)		
Assure security as needed. (Law and Order Task Force)	Coordinate with Control Room.	
Establish constant communications on needs, requirements and resources with Control Room and GEB/HQ.		
<b>48 Hours</b>		
Look for improvements in efforts. (GEB)		
Reinforce central coordination. (GEB)		
Conduct regular coordination meetings with other actors. (GEB)		
Begin formal documentation of efforts. (GEB)		
<b>72 Hours</b>		
Review shift plan for safety. (GEB)		
Plan for return to normal, including additional security if needed. (GEB)	Involvement of Law and Order Task Force.	

- **Public Health and Sanitation (including first aid and all medical care):** Provide personnel and resources to address pressing public health problems and re-establish normal health care systems.

**Task Force Leader:** (1) RDD / CDMO- Jamanabai General Hospital for City  
(2) Chief District Health Officer / Med. Supt. - SSG Hospital

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Develop inventory of personnel, resources and facilities. (Task Force)		1 week.
Training. (Task Force)	Coordination with GSDMA.	6 months.
Establish Control Room.		Completed.
Prepare for specific diseases by season (e.g., monsoon)		Completed.
Establish Epidemiological Reporting System (ERS). (Task Force)		Completed.
Identify disease vulnerable areas. (CDHO)		Completed.
Improve public awareness. (Media Task Force)		
<b>Warning</b>		
Send out warning to health facilities. (Task Force)		As received.
Mobilize health teams to possible disaster areas. (Task Force)	In coordination with Control Room.	As needed.
Activate Task Force for whole district. (DHO)		On warning.
<b>Disaster</b>		
Begin first aid efforts. (Task Force)		Within 1 hour of disaster.
Establish status of health care system. (Task Force)	Requires communications.	Within 6 hours of disaster.
Begin referral of injured to upper-level facilities. (Task Force)		Within 1 hour of disaster.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
Implement SOP for management of deceased. (Task Force)	Involves cooperation with Law and Order and SAR Task Force.	Within 1 hour of disaster.
Coordinate efforts with Control Room and other Task Forces.		Within 2-3 hours of disaster.
<b>12 Hours</b>		
Begin to call in outside resources. (Task Force)	Involves Telecommunications and Logistics Task Forces and Control Room.	Within 3 hours.
Establish temporary medical facilities where needed. (Task Force)	Coordination with Public Works, Power, Water, and Law and Order Task Forces.	Within 24 hours.
Expand surveillance of health status. (Task Force)		Within 24 hours.
Establish shift system for staff. (Task Force)		At beginning of period.
Visit and review health status in shelters. (Task Force)		Within 24 hours.
Develop health care system recovery plan. (Task Force)	In coordination with Control Room.	2-3 hours.
<b>48 Hours</b>		
Establish formal health care system reporting. (Task Force)		At beginning of period.
Start solid waste and vector control management SOP. (Task Force)		At beginning of period.
Start waste water management SOP. (Task Force)		At beginning of period.
Focus health status surveillance on children 0 to 5 years.		Implements in one week.
Establish public awareness and IEC efforts. (Task Force and Media Task Force)		At beginning of period.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>72 Hours</b>		
Develop demobilization plan.		By beginning of period.
Lessons Learned meeting.		Within 14 days of disaster.
Final Report		Within 14 days of disaster.

- **Animal Health and Welfare:** Provision of health and other care to animals affected by a disaster.

**Task Force Leader: Deputy Director, Veterinary and Animal Husbandry**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Update animal list. List of staff & training for disposal of carcass. (Task Force)		Done.
Stock medical supplies and vaccines. (Task Force)		Done
<b>Warning</b>		
Alert staff (by phone). (Task Force)		As warnings received.
Distribute supplies to vulnerable areas. (Task Force)		During warning period.
Contact Control Room. (Task Force)		As required.
<b>Disaster</b>		
Remove and destroy carcasses. (Task Force)	Need fuel and logistics.	As soon as possible.
Treat injured animals. (Task Force)		As soon as possible.
Issue certification of death. (Task Force)	For insurance purposes.	Within 48 hours.
Call in staff from other districts as needed. (Task Force)		As needed.
Assist local authorities in survey of damage and reconciliation of records.		As required.
<b>48 Hours and Beyond</b>		
Assist local authorities in providing fodder as needed.		As required.
Collect feedback. (Task Force)		
Final Report. (Task Force)		In 15 days.

- **Shelter:** Provide materials and supplies to assure temporary shelter for disaster-affected populations.

**Task Force Leader: District Primary Education Officer**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Develop shelter operating procedures. (Task Force)		
Develop inventory of shelters (location, capacity,...). (Task Force)	UNDP project inventory.	
Provide information to other Task Forces on location of shelters. (Task Force)	Logistics, Water, Power, SAR, Food/Relief Supplies Task Forces and Control Room	
Training for shelter managers. (Task Force)	Need training module.	
<b>Warning</b>		
Mobilize shelter managers. (Task Force)		Within 6 hours of warning.
Review shelter locations for operating status. (Task Force)	Communications needed.	Within 6 hours of warning.
Open shelters as instructed.	Coordination with Control Room.	Within 6 hours of warning.
Mobilize additional resources for shelters and camps. (Task Force)	Cooperation with Logistics, Food and Relief Supplies, Water and Power Task Forces.	Within 6 hours of warning.
Provide public announcements on locations and status of shelters. (Media Task Force)		Within 6 hours of warning.
<b>Disaster</b>		
Beginning logging-in of occupants. (Shelter managers).		Immediately.
Report on status of shelters. (Task Force)	To Control Room.	As needed.
Plan for prioritization of shelter use. (Task Force)	Coordination with evacuation operations and Control Room.	Immediately.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
Coordinate with other Task Forces on water, power, food, health, security. (Task Forces)		Immediately.
Provide support and assistance to occupants. (Task Force)	Liaise with Animal Task Force on management of animal and with Health Task Force on health care.	
<b>12 Hours</b>		
Continue operations. (Task Force)		Continuously
Monitor shelter status and movement of people. (Task Force)		Continuously
Mobilize additional resources. (Task Force)	Coordinate with Control Room and Logistics Task Force.	Continuous.
<b>48 Hours and Beyond</b>		
Begin Demobilization as appropriate. (Task Force)		
Begin reconditioning/repairs to shelters. (Task Force)	In cooperation with Public Works Task Force.	As needed.
Lessons Learned session. (Task Force)	Involvement of other Task Forces and evacuees.	14 days after completion of operations.
Final Report. (Task Force)		1 months after completion of activities.

- **Logistics:** Provide air, water and land transport for evacuation and for the storage and delivery of relief supplies in coordination with other Task Forces and competent authorities.

**Task Force Leader: District Development Officer**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Conduct resource inventory (air/land/water transport and storage; inside and outside district.). (Task Force)		1 month.
Establish deployment requirements, procedures and alternate options. (Task Force)		1 month.
Conduct drills. (Task Force)		1 month.
Coordinate with other Task Forces.	Work through Control Room.	As needed.
<b>Warning</b>		
Alert and mobilize Task Force members. (Task Force)		Within 1 hour of receiving warning.
Mobilize transport and other resources for action on short notice depending on disaster expected. (Task Force)	Coordination with Control Room	Within 2-3 hours of warning.
Liaise with Control Room and SAR, Shelter and Food/Relief Supplies Task Forces.		Within 1 hour of receiving warning.
Review plan and determine if outside resources are needed. (Task Force)		Within 6 hours of receiving warning.
Plan for logistics based depending on nature of disaster. (Task Force)	Coordinate with Control Room and Food and Relief Supplies Task Force.	As needed.
<b>Disaster</b>		
Take action based on instruction from Control Room. (Task Force)		Within 2 hours of receiving warning.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
Continually review requirements and resources. (Task Force)		Continuous.
Develop operations plan. (Task Force)	Coordinate with Control Room and Food and Relief Supplies Task Force.	Within 2 hours of receiving warning.
Strengthen liaison with Control Room and key Task Forces. (Task Force)		Within 2 hours of receiving warning.
Verify quality of service. (Task Force)	Requires set standard of service and information on operations.	Daily.
<b>12 Hours</b>		
Respond to increased demand for logistics. (Task Force)		Continuous.
Begin rotation of staff. (Task Force)		At start of period.
Establish logistics bases as needed. (Task Force)	Coordinate with Control Room and Food and Relief Supplies Task Force.	Continuous.
Review plans and communicate with other Task Forces. (Task Force)		Continuous.
Begin regular reporting and documentation. (Task Force)		At start of period.
<b>48 Hours</b>		
Reassess needs and requirements. (Task Force)		Continuous.
Begin demobilization as appropriate. (Task Force)		
<b>72 Hours</b>		
Lessons Learned meeting.	Include Shelter, Food and Relief Supplies in meeting.	Within 14 days of disaster.
Final Report		Within 14 days of disaster.

- **Damage Assessment and Survey:** Collect and analyze data on the impact of the disaster, develop estimates of resource needs and relief plans, and compile reports on the disaster as required for District and State authorities and other parties as appropriate.

**Task Force Leader: Resident Additional Collector**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Establish assessment procedures and forms. (Task Force)	Collaboration with GSDMA.	
Compile baseline data. (Task Force)	Collaboration with UNDP project.	
Establish assessment groups and teams. (Task Force)		
Develop an assessment coordination plan. (Coordination and Planning Task Force)		
Develop a communications plan. (Task Force)	In cooperation with Telecommunications Task Force.	
<b>Warning</b>		
Mobilize Task Force. (Task Force)		Within 6 hours of warning.
Review Plan. (Task Force)		Within 6 hours of warning.
Consider pre-disaster impact assessment. (Task Force)	Based on expected nature of disaster.	Within 6 hours of warning.
Active village-level assessment teams. (Task Force)		Within 6 hours of warning.
<b>Disaster</b>		
Consider safety of assessment teams. (Task Force)		Immediately.
Start planning for assessment. (Task Force)		As initial impact information is available.

<b>Action and (Who Should Take It)</b>	<b>Requirements or Conditions to be met for the action can occur.</b>	<b>Timeframe</b>
Begin initial assessment procedures. (Task Force)		When conditions allow.
Communicate assessment plans to Control Room. (Task Force)		Once initial plan is developed.
<b>12 Hours</b>		
Publicly disseminate assessment plans and reports. (Media Task Force)		As available.
Initiate continual up-dating of assessment information. (Task Force)	Coordinate with Coordination and Planning Task Force.	
Initiate continual up-dating of assessment plans. (Task Force)	Coordinate with Coordination and Planning Task Force.	
Coordinate with other Task Forces. (Task Force)		
Begin staff rotation and secure more staff as needed.		At beginning of period.
<b>48 Hours</b>		
Prepare detailed damage, losses, needs assessment and long term recovery plans. (Task Force)	Coordinate with other Task Forces.	3-5 days after disaster.
Coordination of requirements, plans and activities.	Working through Control Room and Coordination and Planning Task Force.	Continuous.
<b>72 Hours</b>		
Lessons Learned meeting.	Include Shelter, Food and Relief Supplies in meeting.	Within 14 days of disaster.

- **Telecommunications:** Coordinate and assure operation of all communications systems (e.g., radio, TV, phones, wireless) required to support early warning or post-disaster operations.

**Task Force Leader: Sub Divisional Engineer (MIS) - BSNL**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Develop telecommunications inventory and SOPs. (Task Force)	Telecommunications training.	
Coordinate with other Task Forces. (Task Force)		
Identify sites of vulnerable system components (e.g., switches). (Task Force)		
Ensure redundancy in communications systems. (Task Force)	May require close liaison with private sector providers.	
Training in communication skills and methods. (Task Force)		
<b>Warning</b>		
Verify communication systems are working. (Task Force)		Within 24 hours of warning.
Mobilize Task Force.		Within 24 hours of warning.
Repair down systems and establish alternate communications systems. (Task Force)	Coordinate with Control Room.	Within 24 hours of warning.
Mobilize resources. (Task Force)		Within 24 hours of warning.
Facilitate telecom demands of other Task Force members. (Task Force)		
<b>Disaster</b>		
Check status of communications systems. (Task Force)		In 2-3 hours.
Identify damage to systems. (Task Force)		First information available in 2-3 hours.

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
Contact Control Room and other Task Forces on telecom needs. (Task Force)		In 2-3 hours.
Start repairs. (Task Force)		In 2 hours.
<b>12 Hours</b>		
Mobilize outside resources (may start earlier). (Task Force)		Continuous.
Complete plans for repairs and re-establishment of systems. (Task Force)	Coordinate with Control Room.	Continuous.
Liaise with Control Room and other Task Forces.		
Start shift system for staff. (Task Force)		At beginning of period.
<b>48 Hours and Beyond</b>		
Continue to assist other Task Forces. (Task Force)		
Continue repair work. (Task Force)		
Begin demobilization. (Task Force)		
Lessons Learned meeting.	Include Shelter, Food and Relief Supplies in meeting.	Within 14 days of disaster.
Final Report. (Task Force)	Involve other Task Forces.	Within one months of end of operations.

➤ **Media & information Management:**

**Taskforce Leader: Joint Director - Information**

Action and (Who Should Take It)	Requirements or Conditions to be met for the action can occur.	Timeframe
<b>Before a Disaster</b>		
Coordination with various Print and TV Media	Disseminate the DRM Programme Activities	
Awareness Generation Programmes for Media	May have workshops and seminars	
Mass awareness for community	Large scale publicity for community awareness	
<b>During Disaster</b>		
Media Briefing Meeting	Timely Briefing of the situation	After every 4 hours
Supporting Incident commander and other leaders	Discuss current media briefing status in meetings	Every day
Ensure proper and correct coverage	Steps taken to minimize the rumors	As and when find required

## **Standard Operating Procedure and Roles and Responsibilities of Different Key Departments and Taskforces**

The Present plan document identifies the roles and Responsibilities of the organization, in key identified sector. Taskforces have constituted for taking response measures in sectors. Action plan has been prepared for each taskforce which covers their roles & responsibilities in development of incident / emergency. It is expected that each taskforce shall develop the standard operating procedures for specific disaster / emergency. District collector has to ensure that all the members acquire knowledge and skills to perform their assigned roles.

### **A) DISTRICT MAGISTRATE & COLLECTOR**

Being chairperson and Incident commander of the district for Disaster Management, he will be in overall command & emergency action to control a kind of emergency effectively for the district.

The Chair person has to perform the role as follows:

- Preparation and updating of District Disaster Management Plan for the District.
- To ensure that everyone is able to perform the role involved in emergency service effectively.
- To activate and maintain the District Control Room round the clock. To provide essential facilities with the District control room.
- To access emergency situation and have to declare the emergency, call and direct the emergency services to respond the emergency by providing reinforcement and support by pooling the resources from the District and if required from the State.
- The arrangement for rescue, evacuation, shelter, food, water, clothing, and transportation to affected area, announcement to the public.
- To keep inform to the higher authority time to time to declare the withdrawal or termination of emergency.
- Rehabilitation, Restoration, Cleaning, etc. on post emergency actions.
- To submit the reports on emergency. To conduct the meetings.
- To conduct the mock drill.

## **B) MUNICIPAL COMMISSIONER**

On receiving the information from the Collector, the Vadodara Municipal Corporation will help by making arrangements like:

- To receive casualties during an emergency in the corporation run Hospitals.
- To mobilize the firefighting equipments for Civil Hospital.
- To check for expected effected effects to the citizens of Vadodara and to take actions accordingly.
- To make schools available for shelters.
- To blow the city sirens for alarming the public.
- To inform the concerned department heads such as water and sewage supply, electricity section, hospitals, education department etc. about their DCPC plans and their functions and preparedness during emergencies.
- To rehabilitate evacuated city population after the emergency.

## **C) DISTRICT DEVELOPMENT OFFICER**

Being a responsible person of Taluka / District the following actions are to be given prime importance for emergency purpose.

- To ensure the different authorities, agencies, organization persons, as specified their role, should participate immediately during emergency in district pocket area.
- To advice and guide different panchayat department and local representatives for mitigate and preventives aspects of disaster management and coordinative approach at the time of emergency.
- To participate in the meeting, mock drill & training.
- To prepare own detailed action plan to ensure effective control on emergency.
- To liaison & co-ordination with chair person, Central Control Room, emergency services, organization, agencies, agencies person etc.
- To support all other duties as specified by District Collector.

## **D) POLICE DEPARTMENT**

Another authority who gets the first information on incident / accident is police department. The following actions are to be carried out by police department.

- To access the situation and report immediately.

- To maintain the law and order during the emergency to control the traffic and control the affected area.
- To protect the life of people, inside, outside as well as road movers.
- To protect the property & environment & public announcement.
- Evacuation, rehabilitation, shelter & transportation work during the emergency as per prevailing situation.
- To help & assist to make area clean, removing of any structure and other similar work as required during actual emergency.
- To participate the meetings & Mock Drill / Rehearsal & Training.
- To liaison with Central Control Room and other emergency services / organization / agencies.
- To prepare their own details action plan & to ensure the provisions to handle the emergency.

#### **E) FIRE SERVICES**

Most probably, the first information regarding any incidence / event is received by the fire services. Thus, fire service being first informant has to play the major role during the emergency.

- Inspection, survey & assess the situation where incident occur & give the report.
- To decide the proper & effective actions and immediate response actions to control the emergency, under intimation to Central Control Room or Chair Person.
- Proper training to fight against different hazards
- Rescue, Evacuation, Remove of debris, and other emergency work as directed or instructed.
- To maintain the proper and adequate firefighting, equipments, neutralizing media, self-breathing apparatus, emergency equipments, personnel protective equipments with keeping in working order.
- The knowledge & information on different type of alternative resources, various types of extinguishing media, neutralizing media, chemical properties and their hazards with safe handling procedure.
- To participate the meetings Mock Drill / Rehearsal & training.

- To liaison with Central Control Room and other emergency services.
- To prepare their own details action plan & to ensure the provisions to handle the emergency.
- Other duties as required during actual emergency.

#### **F) HEALTH DEPARTMENT**

The health and medical services have to play vital role following the emergency. One fold is proper & timely treatments to the victims injured or affected persons. Other fold is to safe guard the public health.

- To ensure the arrangement & preparedness for special medical treatment antidotes and trained doctor Para-medical staff as specified in toxicology at the time of industrial emergency in local pocket area.
- On declaration of emergency or on receiving the message or information, prompt medical facilities should be set up e.g. first aid post, casualty receiving center/ camp, as per gravity of situation at site. Similarly, arrangement for emergency operation or special treatment on chemical burn, injury, gas dispersion etc. with adequate arrangement, which will can serve the purpose of Base Hospital.
- Identification of dead bodies and post mortem arrangement.
- To maintain up to-date list with telephone nos. of services of doctors, hospitals,
- Ambulance, primary health center, Para-medical staff, vehicle to meet the emergency situation.
- Arrangement to inform the up to-date status time to time to DEOC, Chair Person, and Relatives of injured or admitted patients, emergency services etc.
- Arrangement to safe guard the public health in case of development of epidemic situation & announcement on safety measure to be taken by public at the time of emergency situation.
- To advice & guide the different stake holders in respect of medical & health part time to time.
- Provision for proper and adequate medicines, lifesaving drugs, equipments, antidotes etc. related to different hazards.
- To participate meetings, mock drills / examine and training.

- To prepare own detailed action plan to ensure the effective handling of different kinds of emergencies.
- To liaison with DEOC, Chairperson, emergency services organization, agency and other related person.
- Other duties as required during actual emergency.

#### **G) RTO**

- To respond to collector and police instructions in different kinds of emergency
- To provide adequate requirements for both persons and material.
- To arrange for deployment of vehicles with full fuel levels.
- To streamline traffic flow and parking yard movement.
- To co-ordinate in deployment of vehicles, if required.
- To participated meeting, mock drills & training.
- To prepare own detailed action plan to ensure effective handing at the time of actual emergency.

#### **H) Civil Supplies Department**

- To arrange to provide cooked food and clothing to evacuees and others involved in emergency controlling operation.
- To ensure availability of sufficient cooked food, water ready for distributaries at various locations.
- To participate in the meeting, mock drills & training.
- To prepare own detailed action plan to ensure effective handling of emergency.

#### **I) Joint Director - Information**

The proper and correct news should be reach to the public to avoid rumours and panicky. The role of District information officer is to create awareness and preparedness amongst the public for different hazards because of wide & fast spreading news.

- To participate in the meeting, mock drill / exercises and training.
- To assist the public in case of rescue operation and authentic news.

- To liaison & Co-ordination with Chair person, Central Control Room and emergency services.
- Ensure to safe guard the public at large during actual emergency by providing correct reliable authentic guideline and news.

**J) Dy. Controller (Civil Defence)**

- To participate in meeting, mock drills & training.
- To prepare own detailed action plan to ensure effective handling of emergency
- To assist police in rescue and evacuation work during emergency.
- To provide security, cordoning the area, and other Services.

**K) ELECTRICITY BOARD (MGVCL)**

- To arrange for un-interrupted power supply, if needed.
- To arrange for lighting at temporary medical camps, rallying points and parking yards.
- To take care of electrical equipment within affected zone.
- Arrange for switching off power supply if requested by authority.
- To participate in the meeting, mock drills & training
- To prepare own detailed action plan to ensure effective handling of emergency

**L) Regional Officer (GPCB)**

- To participate in the meetings, mock drill / exercises and training.
- To prepare own detailed action plan to ensure the effective control of industrial emergency & subsequent action.
- Liaison with central control Room, chairperson, Emergency Services, Organization agencies & other related persons.
- Advice & Guidance to the District Crisis Group in Respect of environment protection in the industrial pocket.
- To provide the technical input regarding environment and evaluate the contamination or adverse effect during industrial emergency.

- To provide the details & information on development of emergency situation regarding in safe level to the life and suggest area to be evacuated and other safety measures.
- To suggest the safe level for restoration & restarting of work on termination of emergency services & expert persons etc.
- Other duties or work as directed by District crisis group or chair person.

#### **M) Representative Form MAH Units**

The management of major accident hazardous unit has to maintain updated onsite emergency plan with necessary details with accurate information and a correct assessment of the situation. The site main controller is responsible to provide immediately on occurrence of crisis at his unit with specific details, development and needed help from local crisis group & district crisis group. He will arrange & provide all the resources, equipments, manpower, and communication network from his own unit and co-ordinate with local crisis group & district crisis Group to combat the industrial emergency.

#### **N) Role of other members of District Crisis Group**

The other members like controller of explosives, trade union representative, agriculture department, municipal commissioner and other government agencies, etc. have to perform the various duties. However, the following are the suggested duties as required during the emergency:

- To participate in the meeting, mock drill / exercise and training.
- To assist the public in proper way in case of rescue and evacuation during actual emergency.
- To advice and guidance to the District crisis group & Chair person.
- To arrange and help the supporting actions and duties in respect of industrial emergency
- To provide more and adequate resources & various requirement to tackle the industrial emergency immediately.
- Liaison & co-ordination with Central Control Room and emergency services.

#### **O) Volunteer Organizations (N.G.O.)**

The voluntary organization / services can play vital role in relief & rescue operations like arrangement of food packets & packing up of the same, distribution of the food packets and water pouches, arrangements of life saving drugs & distribution of the same, can play a major role in awareness generation, to convince the person / public to evacuate the residence / place and to shift to safe shelter timely during emergency. Otherwise it may result more serious effect. To save the life of public is more important factor, which will be successfully carried out by the voluntary organization. The list of such organization with address, telephone no. organization etc. will be prepared and up-dated time to time.

#### **P) Railway Authority**

On getting information at the time of disaster from Central Control Room, the Divisional Manager, western Railway, Vadodara will take following actions:

- To issue the standing instruction to all railway gates to take actions on receiving the message from the Station Master.
- To decide authority level of railway staff to take actions.
- To carry out evacuation by railway, if required.
- To take care of floating population at railway stations and on board travelers.
- To issue the standing instruction to station Masters on up and down railway stations to stop the train as soon as emergency message is received from DEOC and CCR.

#### **Q) Irrigation Department**

- Play vital role in pre, during and post form of emergencies particularly in floods.
- Proper management of dams, irrigation canals, ponds and timely maintenance of the same.
- Inform DEOC and respective stake holders in case of water release from the dams.
- Start their control room at the time of monsoon.
- Follow the instructions mentioned with the Flood memorandum.
- To participate in the meetings, mock drill / exercises and training.
- To prepare own detailed action plan to ensure the effective handling of different kinds of emergencies.

- Liaison with DEOC, Chairperson, emergency services organization, agency and other related person.
- Other duties as required during actual emergency.

**R) R&B Department**

- To play vital role in pre, during and post form of emergencies.
- Proper management of roads and buildings and timely maintenance of the same.
- Inform DEOC and respective stake holders' diversion of routes, closing status of the roads etc.
- Ensure safety terms while establishing or developing of bridges, dams, roads, buildings etc.
- To participate in the meetings, mock drill / exercises and training.
- To prepare own detailed action plan to ensure the effective handling of different kinds of emergencies.
- Liaison with DEOC, Chairperson, emergency services organization, agency and other related person.
- Other duties as required during actual emergency.

# DISASTER SPECIFIC ACTION PLAN

# **CHAPTER - 5 - DISASTER SPECIFIC ACTION PLAN**

## **5.1 Action Plan for Flood Hazard**

As per the risk and vulnerability analysis of the Vadodara district the district has major risk of floods. The District has two major rivers viz. the river Mahi that flows on Northwestern boundary of the district and the river Narmada on the Southeastern boundary of the district; there are other rivers like Vishwamitry, Dhadhar, Suriya and many other seasonal streams that flows through the district; more over to these, major *water bodies* like Ajwa Reservoir and Deo dam are also the possible sites from where the risk of floods is possible.

All the talukas of the district with major wards of the city are the possible sites which are either affected during the heavy rainfall or water logging or by water release from the dams or reservoirs.

### **Early Warning & Communication:**

#### **GENERAL TERMINOLOGY USED IN WEATHER BULLETINS**

##### **(A) Intensity of Rainfall Terminology Used**

1. 0.1 mm to 2.4 mm (24 hrs) ----- Very light rain
2. 2.5 mm to 7.5 mm ----- Light rain.
3. 7.6 mm to 34.9 mm ----- Light to Moderate rain
4. 35.0 mm to 64.9 mm ----- Moderate rain
5. 65.0 mm to 124.9 mm ----- Heavy rain
6. Exceeding 125 mm. ----- Very Heavy rain.

##### **(A) Special distribution of weather phenomenon**

###### **Percentage Area Covered Terminology Used**

1. 1 to 25 ----- Isolated
2. 26 to 50 ----- Few Places
3. 51 to 75 ----- Many Places

4. 76 to 100 -----At most Places

### **(C) Emergency Situation**

1. When water level is rising above the danger of H.F.L
2. When intensity of rainfall is above 65 mm/hr
3. When breaches are anticipated and which may cause disaster
4. When water levels are rising abruptly and which may cause disaster

### **(D) Evacuation**

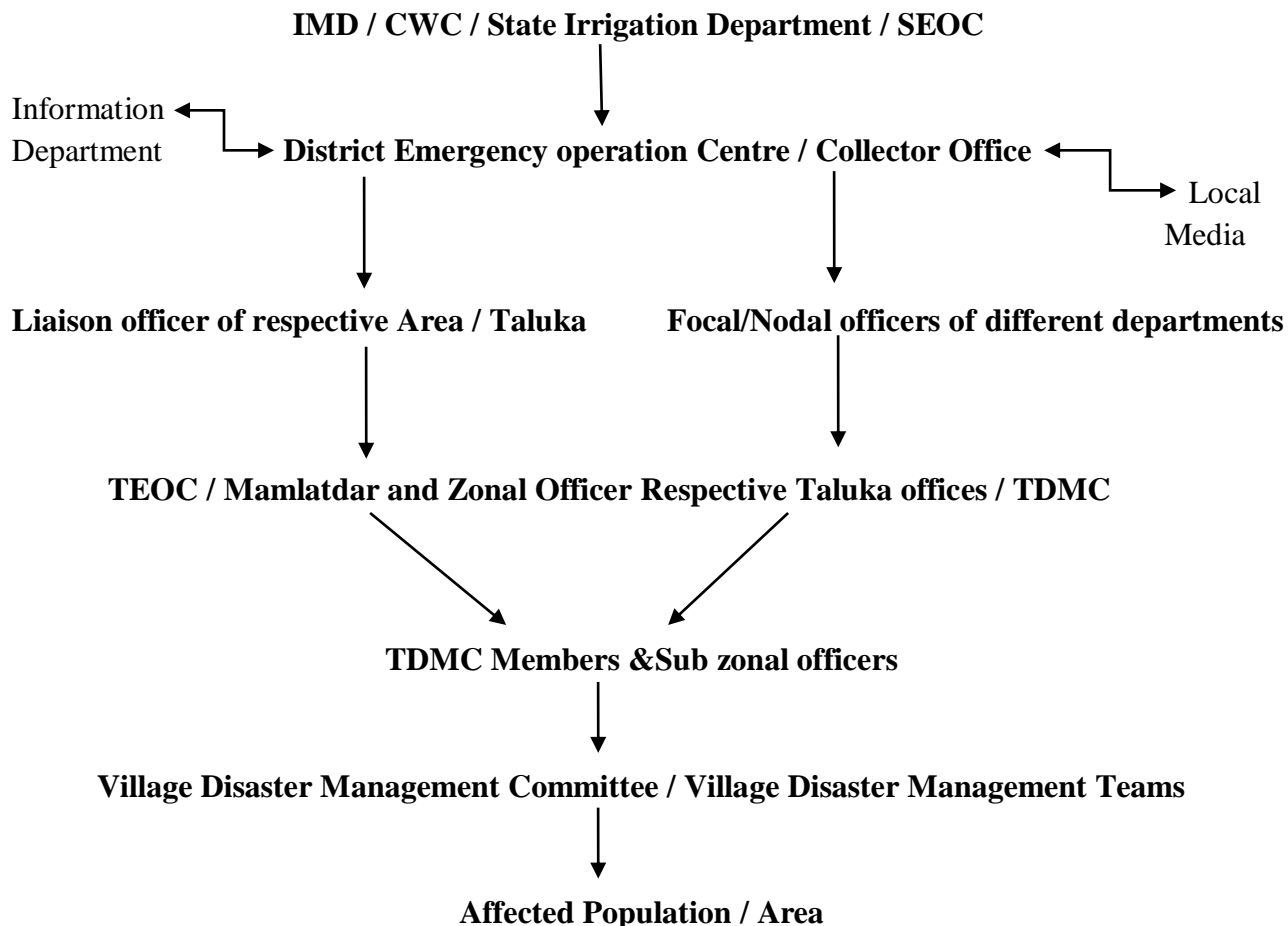

- (1) White Signal- Alert condition
- (2) Blue Signal - Ready for Evacuation
- (3) Red Signal - Immediate Evacuation

As and when the warning come from Indian Metrological department (IMD), or from Irrigation department regarding heavy rainfall or water release the following channel has been intimated and appropriate message conveyed to the concerned department / official / control rooms / community members using telecommunication, wireless message, by fax or in written by DEOC.

In city area the route has been finalized for early warning, accordingly early warning task force leading by fire brigade personnel, spreads the message of alert in respective low line areas, in villages local methodologies of early warning has been used (by beating up of drums etc.) to communicate the message of alert to the affected population of the village.

The following channel has been intimated and appropriate message conveyed to the concerned.

### **Early Warning & Communication Chart:**

### **Response:**

The response mechanism would be the same as describes with the general response mechanism chapter, here the focus will be on Irrigation department, administrative officials and the affected areas/population.

When early warning has been circulated the same department heads, focal officials and administrative heads will put their own DM plan in to the action and the response activities will be carried out accordingly.

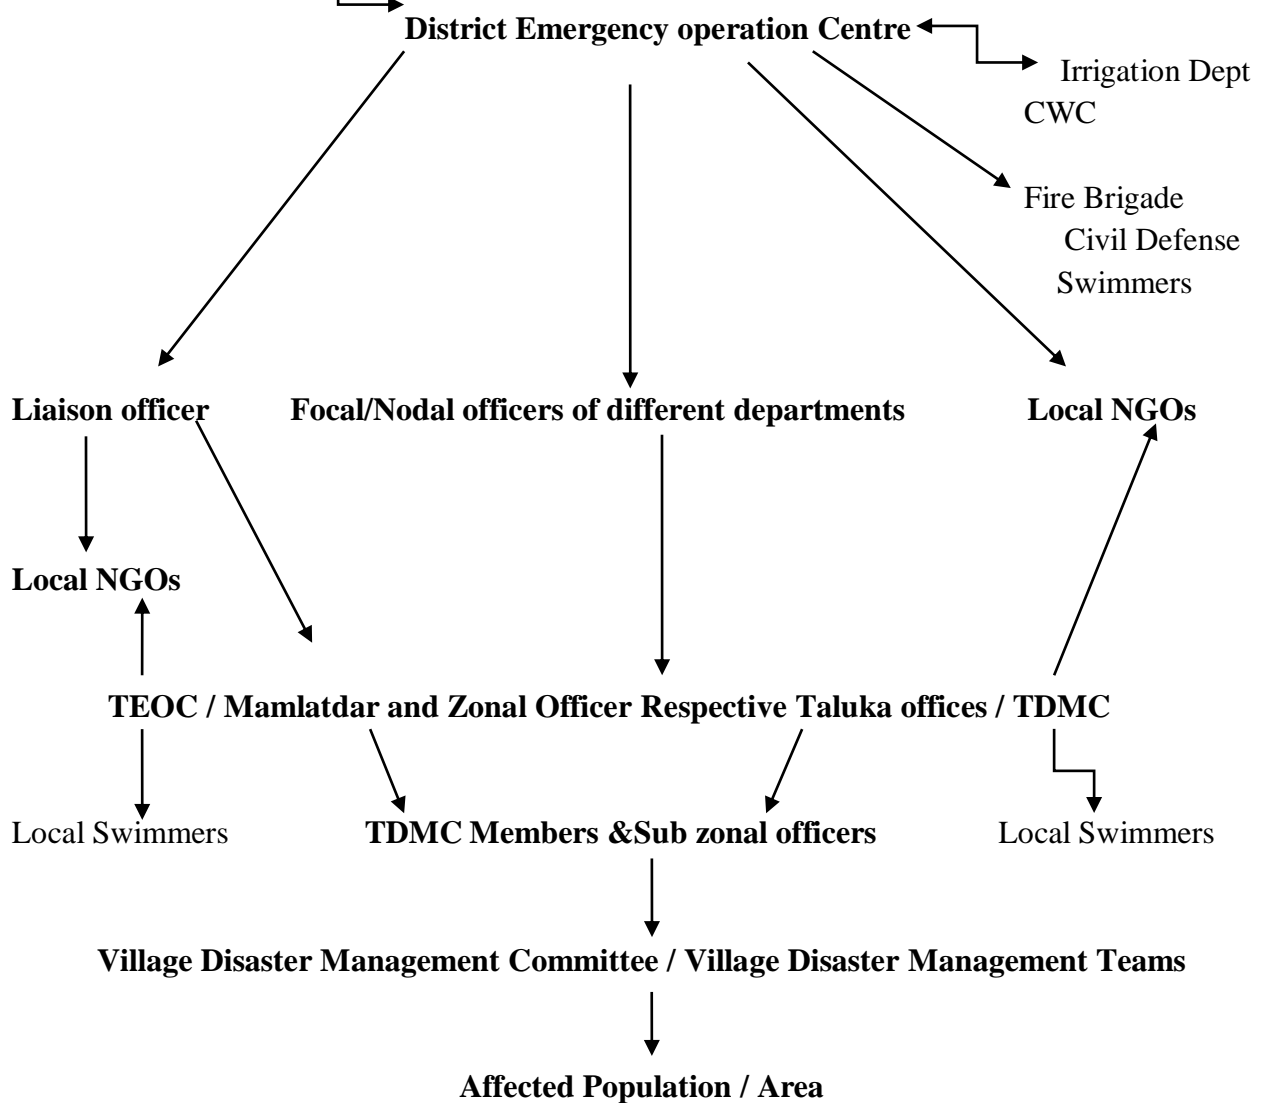

- ❖ As disaster declares the response managed and monitored through DEOC,
- ❖ All the concerned DDMC members along with the Liaison officers and response group members are intimated to respond to the situation as described in the below chart.
- ❖ As per the impact of disaster it will manage through DEOC / TEOC and if needed support of State or Central departments will be requested to deal with the situation.

- ❖ DM Plan of Irrigation Department, Flood memorandum, TDMP, CDMP and other DM Plan will be referred as an when it is required to respond in case of floods.
- ❖ The list of trained swimmers is incorporated with Annexures.
- ❖ Equipments for flood rescue like boats Life rings, Life buoys, Dewatering pumps etc. details are incorporated in Annexures.
- ❖ Database of SDRN and IDRN (Manually and Electronic) will be referred for flood response.

### **Response Chart:**

-SEOC / IAF /

-Relief & Rescue Teams

**Post Emergency:** Focus will lie on Medical Treatment, Disease Control, Poison control, Reconstruction & Rehabilitation, Floodwater Removal, and Providing Relief—Clothing, Shelter, etc. to affected people, Damage Assessment, Funeral processes.

### **Temporary Shelter:**

- ❖ For temporary shifting of affected persons, temporary shelters are used during the effect of floods.
- ❖ In city area, Vadodara Municipal Corporation has decided ward wise primary schools, Secondary/Higher secondary schools, Community hall, Colleges etc. as temporary shelter for flood affected persons and incorporated the same with their DM Plan which is used at the time of floods. Sasnadhikari is the focal person for temporary shelter for corporation area.
- ❖ Primary/Secondary/Higher secondary schools, Colleges, Community hall etc. of taluka and villages are used as temporary shelter and the focal officer for the same is DEO and DPEO.

**(A) List of villages likely to be affected by floods in Narmada River on the basis of Gauge of Garudeshwar & Bharuch sites**

<b>KARJAN TALUKA</b>	<b>DABHOI TALUKA</b>	<b>SINOR TALUKA</b>
1. Pura	1. Chandod	1. Ambali
2. Alampura	2. Karnali	2. Barkal
3. Lilayipura	3. Nanderia	3. Diver
4. Nani Koral		4. Malsar
5. Moti Koral		5. Dariyapura
6. Juna Sayar		6. Moletha
7. Sagdol		7. Jhanjhad
8. Oz		8. Kanjetha
9. Somaj		9. Sinor
10. Delvada		10. Mandva
11. Arjanpura		11. Surashamad

**(B) List of Villages likely to be affected by floods in Mahi River on the basis of gauge of Wanakbori Weir**

<b>PADRA</b>	<b>SAVLI</b>	<b>DESAR</b>	<b>VADODARA</b>
1. Tithor	1. Gulabpura	1. Jambugoral	1. Sindhrot
2. Pavda	2. Jhalampura	2. Vaghapura	2. Fatepur
3. Sultanpur	3. Khandi	3. Varasda	3. Dodka
4. Mohamadpura	4. Bhadarva	4. Trasiya	4. Rayka
5. Dabka	5. Gokalpura (G)	5. Intvad	5. Angadh
6. Chokari	6. Kalupura	6. Kadachhla	6. Sherkhi
7. Jaspur	7. Raniya	7. Manekla	7. Nandesari
8. Umraya	8. Mahapura	8. Nani Varnoli	8. Amliyara
9. Munjpur	9. Kanoda	9. Chhaliyer	9. Ahladpura
10. Ekalbara	10. Poicha (K)	10. Limbi nu Muvadu	
	11. Parthampura	11. Shihora	
	12. Poicha (Raniya)	12. Sandhasaal	
	13. Amrapura		
	14. Muval		

The below described area / rivers / dams / talukas / Villages and population are the most concerned factors in the flood response.

**Vulnerable elements (Villages and Population) due to heavy rain and flood**

(As per Census - 2011)

<b>No.</b>	<b>Taluka</b>	<b>River</b>	<b>Village</b>	<b>Total Population</b>	<b>SC</b>	<b>ST</b>

## **5.2 Action Plan for Industrial / Chemical Disaster**

To deal with Industrial / Chemical disasters, separate Off site Emergency Plan -DM plans developed by Director Safety & Health - Vadodara, total coverage of Task force, Rescue Teams, Contact details, shelters, response mechanism etc. with MAH unit details and Annexes has been incorporated with the Plan and the same can be referred at the time of Offsite emergency.

Off-site Control Room (OCR) is functioning to take care of Industrial accidents particularly of MAH units of **PCC (Petro Chemical Complex) and Nandesari GIDC Area,Padra Industrial Pocket, Savli Industrial Pocket, Waghodia Industrial Pocket Karjan Industrial Pocket** Out of total 81 MAH units in the district 61 are active ones and 20 units are closed. OCR located at Material Bhavan, Reliance Industries Ltd., Petrochemicals, and Vadodara. One of its wireless set is based at DEOC, and both DEOC and OCR closely work together at the time of Emergencies.

Industries have their own Onsite Emergency Management Plans to deal with onsite emergencies and the other major units like IOCL, BPCL etc. has developed their Disaster Management Plans.

Maintenance of permanently established machinery and shutdown mechanism can be monitored periodically with high concern, could be a major concern of risk in case of large scale industries / petro chemical industries.

Under the chairmanship of DM & Collector the response will be managed and monitored from DEOC and Off site control room, department wise response mechanism and response structure lied with Offsite emergency plan and will be referred the same at the time of chemical disasters which includes industrial fire, oil spill etc..

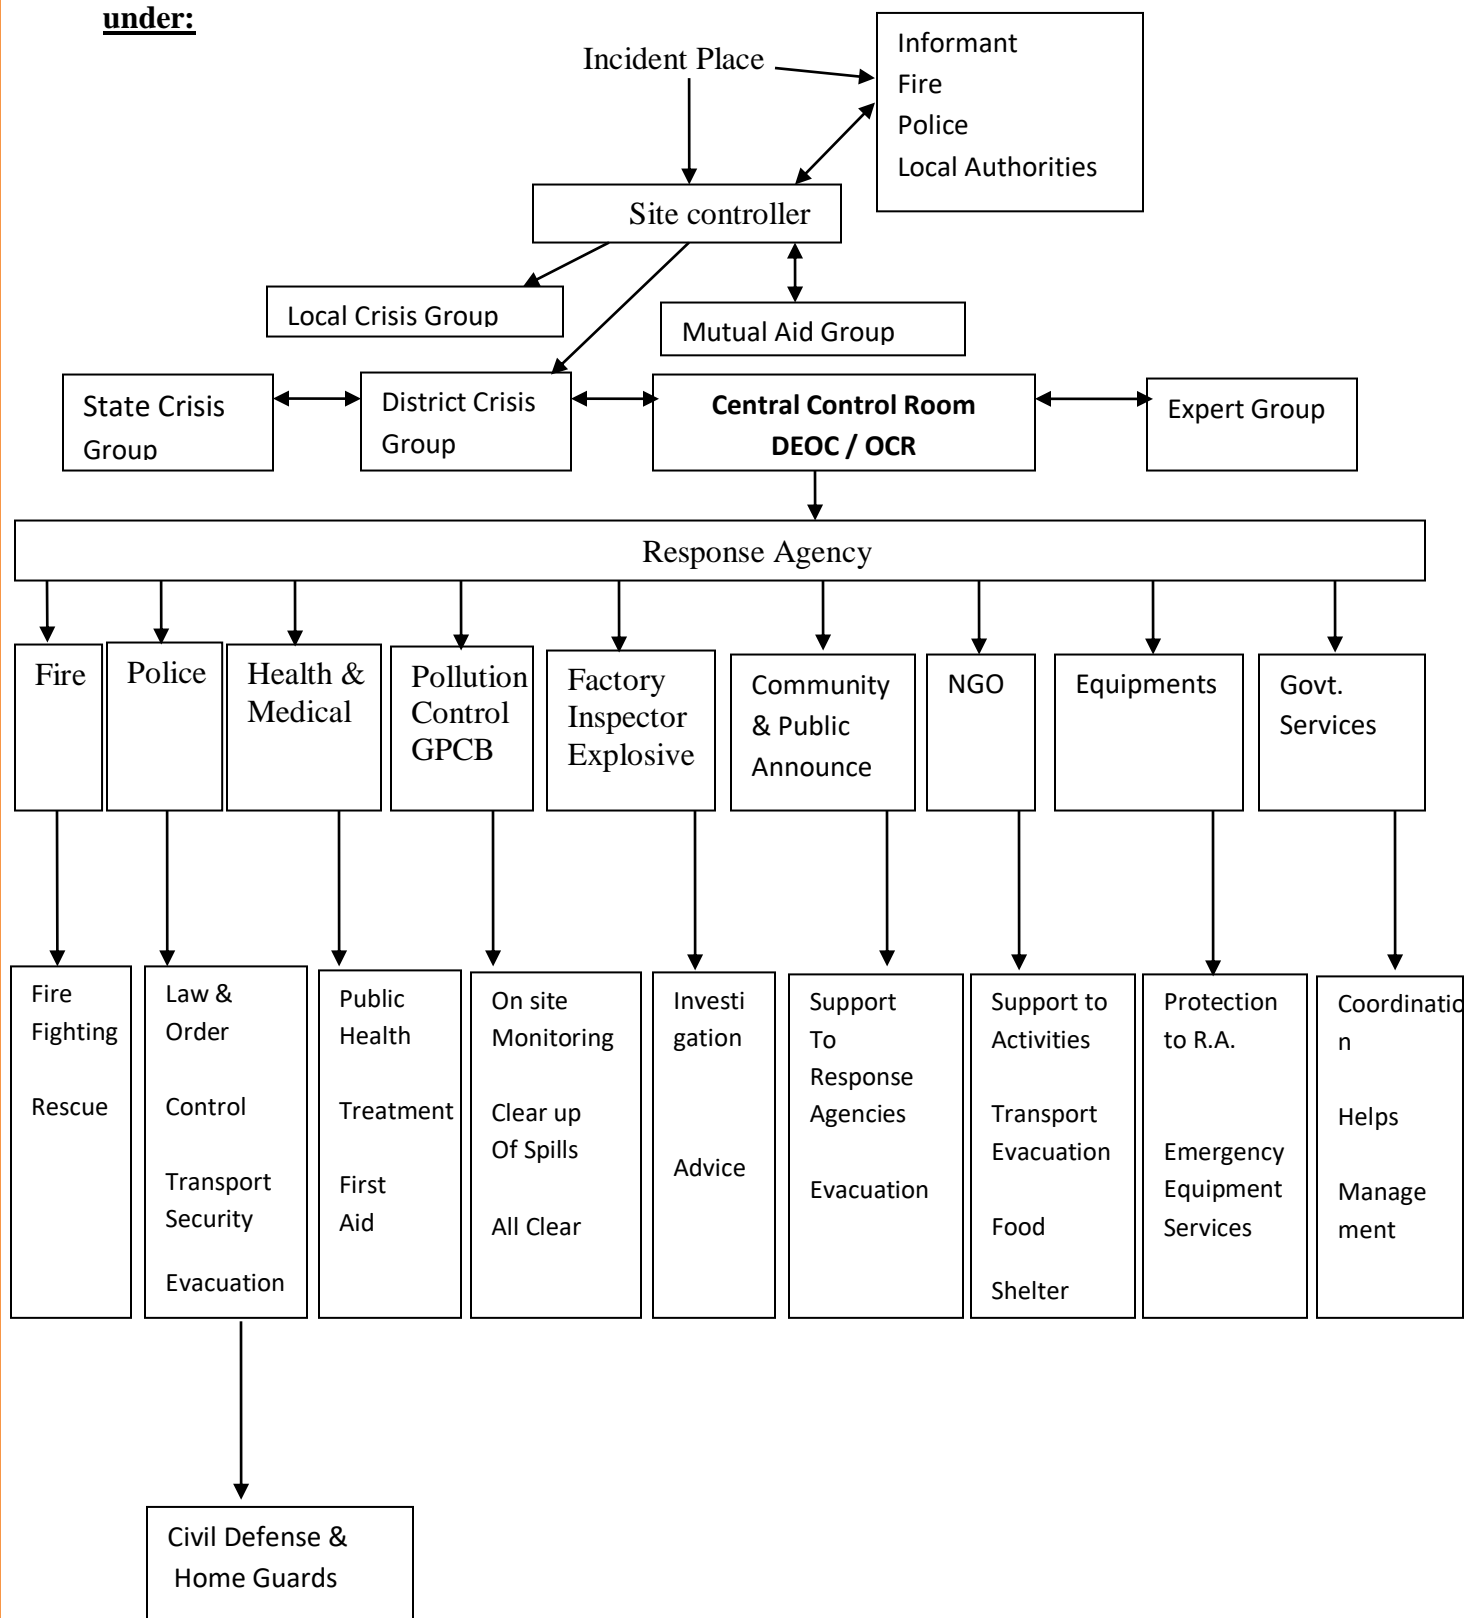

With respect to the history and probability of the risk the vulnerable elements with regards to industrial accidents for Vadodara district are the villages or area as a whole, environment, water bodies etc. from which the vulnerable villages and probable affected population details are incorporated with the details below. Separate details of the Shelter, contact persons to approach at the time of emergencies are also been incorporated.

The response mechanism would be the same as describes with the general response mechanism chapter, here the focus will be on Industries, Offsite control room, District Crisis Group officials, Technical members, Member secretary - OCR, GPCB and Office of Joint Director, DISH with different Industries DM Plan and experts of different chemical hazards.

When there will be a chemical kind of emergency off site emergency plan with the DM plan of the concern industries comes in to the action and the response activities will be carried out accordingly.

- ❖ As Chemical disaster declares the response will be managed and monitored through DEOC / OCR
- ❖ All concerned DCG members with Liaison officers and response group members are intimated to respond to the situation as described in the below chart.
- ❖ As per the impact of disaster it will manage through DEOC / OCR / TEOC and if needed support of State or Central departments will be requested to deal with the situation.
- ❖ Offsite Emergency Plan, TDMP, CDMP and other Industries DM Plan will be referred as and when required to respond in case of chemical disaster.
- ❖ The list of Expert persons, indicative list of medicines and equipments, trained first responders for Search; Rescue & Medicare etc. are available with offsite emergency plan.
- ❖ Database of SDRN and IDRN (Manually and Electronic) will be referred if needed in response.

**Action Chart in case of Chemical / Industrial Fire / Oil Spill types of Emergencies is as under:**

**Vulnerable elements (Villages and Population) due to Industrial hazards:**

Sr.No.	Name of Village	Total Population	SC	ST

**Ref. of Population: Census 2011**

## **5.3 Action Plan for Earth quake**

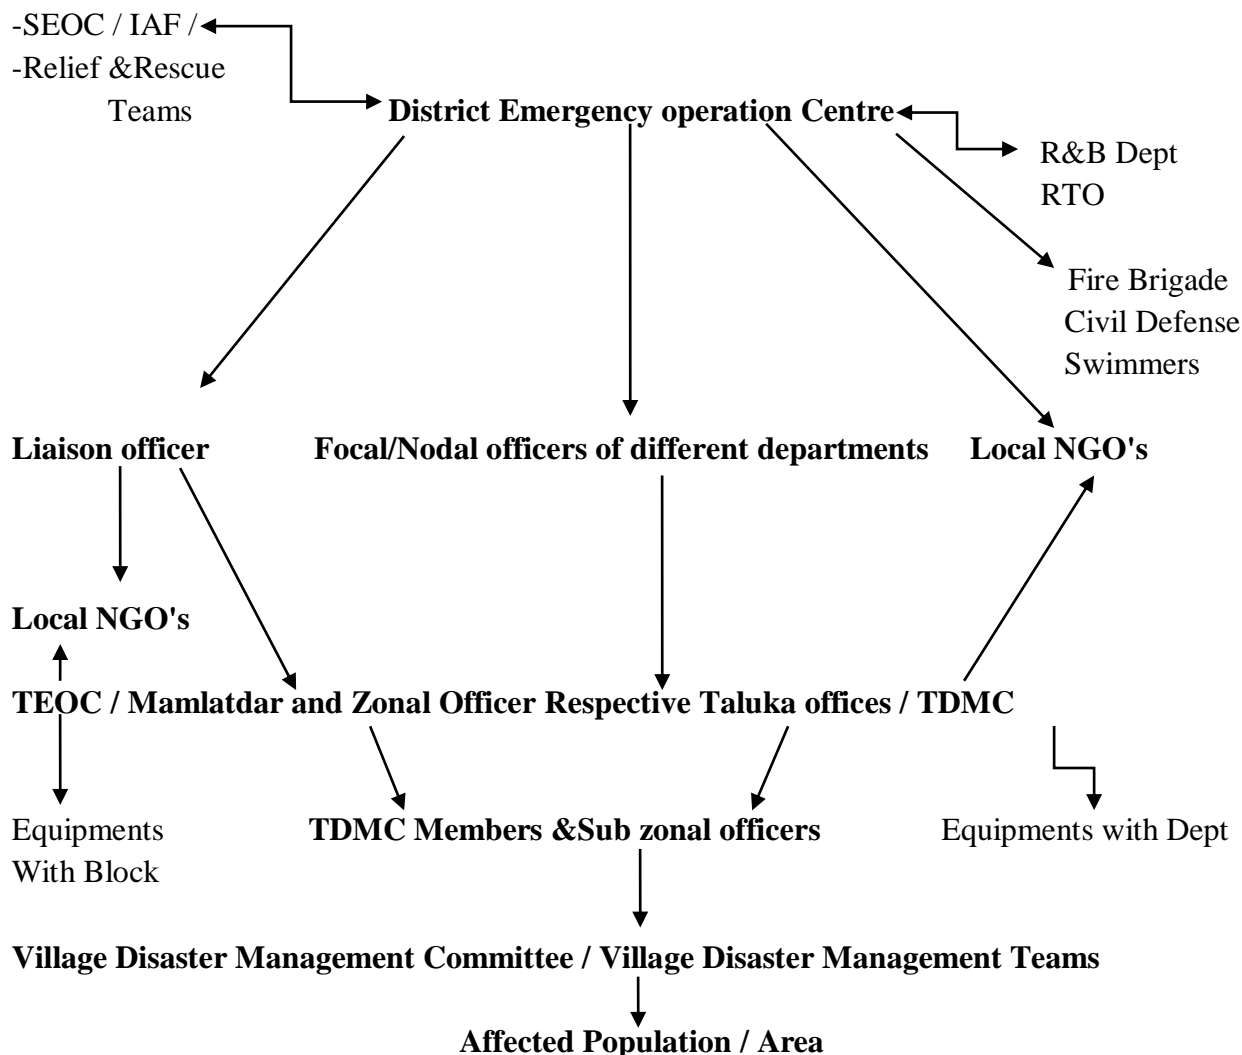

Vadodara falls under zone-III according to the zoning map, that's why it can be possible that an earthquake between magnitudes of 4-5 can strike Vadodara. But as there is fault line going through the District, earthquake of magnitude up to 7 can also strike. And very high possibility of failure of various infrastructures and very high chances of risk of loss of live properties too in certain highly populated areas of the district.

The response mechanism would be the same as describes with the general response mechanism chapter, here the focus will be on well-populated areas in particular city areas and the District disaster response group.

- ❖ As disaster declares the response managed and monitored through DEOC.
- ❖ All concerned DDMC members with Liaison officers and response group members are intimated to respond the situation as described in the below chart.
- ❖ As per the impact of disaster it will manage through DEOC / TEOC and if needed support of State or Central departments will be requested to deal with the situation.
- ❖ Departmental DM Plan of all concerned departments, TDMP, CDMP and other DM Plan will be referred as an when it is required to respond in case of Earth quake.
- ❖ Database of SDRN and IDRN (Manually and Electronic) will be referred for flood response.

<b>ZONES</b>	<b>MAGNITUDE</b>
<b>Zone - V</b>	<b>Greater than 7</b>
<b>Zone - IV</b>	<b>Greater than 5, Less than or equal to 7</b>
<b>Zone - III</b>	<b>Greater than 4, Less than or equal to 5</b>
<b>Zone - II</b>	<b>Greater than 3, Less than or equal to 4</b>
<b>Zone - I</b>	<b>Less than 3</b>

### **Response Chart:**

### **Temporary Shelter:**

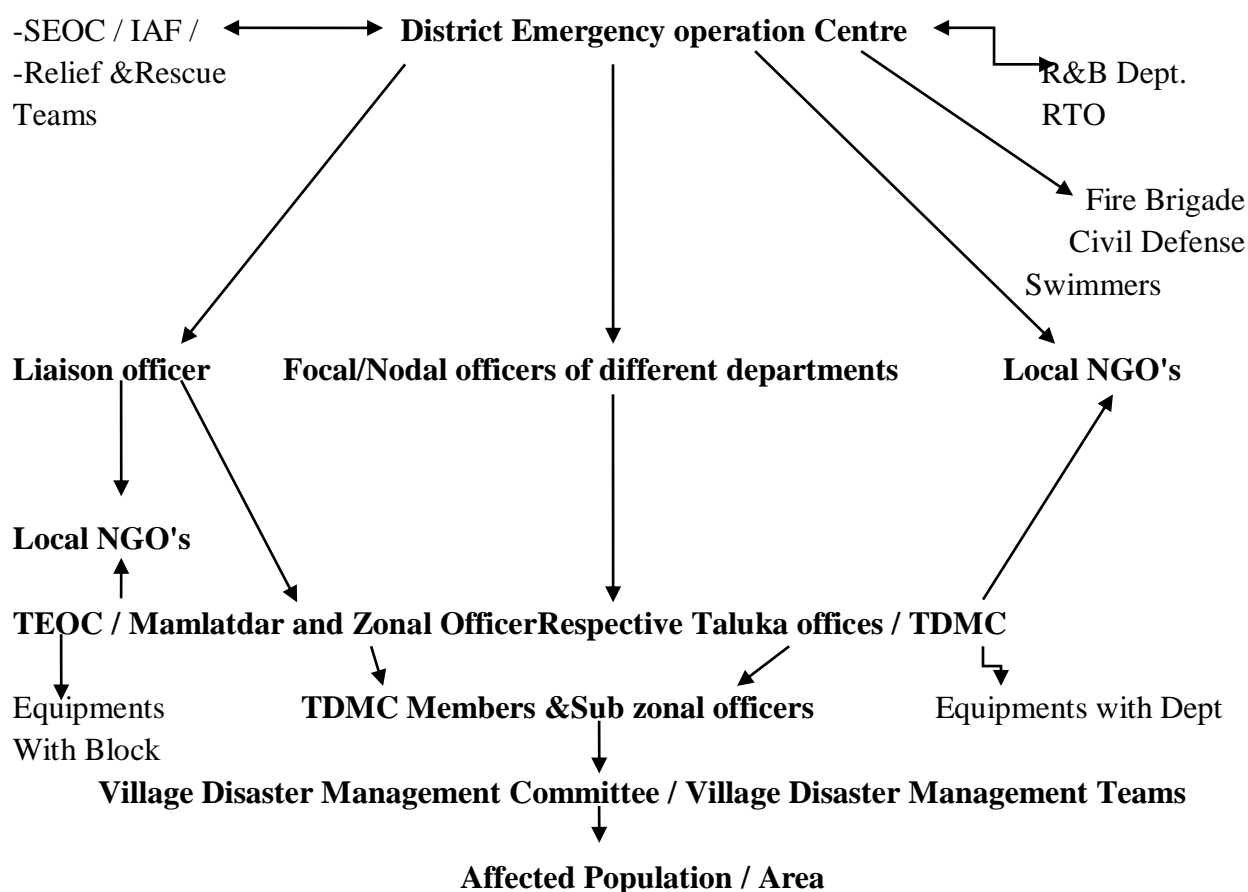

- ❖ For temporary shifting of affected persons, temporary shelter is used during the effect of earth quake.
- ❖ In city area, in case of devastating earth quake the temporary shelters available with DEOC (Tarpaulin sheet with iron blades) can be used, tents with forest and other department and caterers can also be used as temporary shelter
- ❖ None damaged / safe government establishments can also be used as per the directions of chairperson.

## **5.4 Action Plan for Cyclone**

Vadodara District has no ocean but the district is nearby the Bay of Cambay and it is surrounded with two major rivers the river Mahi flows on Northwestern boundary of the district and river Narmada on the Southeastern boundary of the district; there are other rivers like Vishwamitry, Dhadhar and many other seasonal streams flows through the district, the villages and areas near these rivers can be affected at the time of cyclone.

All the talukas of the district with major wards of the city are the possible site which can be affected during the heavy wind flow. Majorly the flood action plan will be referred at the time of cyclone.

### **Response Chart:**

### **Temporary Shelter:**

- ❖ For temporary shifting of affected persons, temporary shelter is used during the effect of Cyclone.
- ❖ In city area, Vadodara Municipal Corporation has decided ward wise primary schools, Secondary/Higher secondary schools, Community hall, Colleges etc. as temporary shelter for Cyclone affected persons and incorporated the same with their DM Plan which is used at the time of Cyclone. Sasnadhikari is the focal person for temporary shelter for corporation area.
- ❖ Primary/Secondary/Higher secondary schools, Colleges, Community hall etc. of taluka and villages are used as temporary shelter and the focal officer for the same is DEO and DPEO.

## **5.5 Action Plan for Biological Disaster**

Majorly the people of urban area residing in Vadodara district is affected by various types of Vector born disease and Water born disease in particular during the monsoon season. Frequent epidemics, especially during monsoon are a common aspect for Vadodara district.

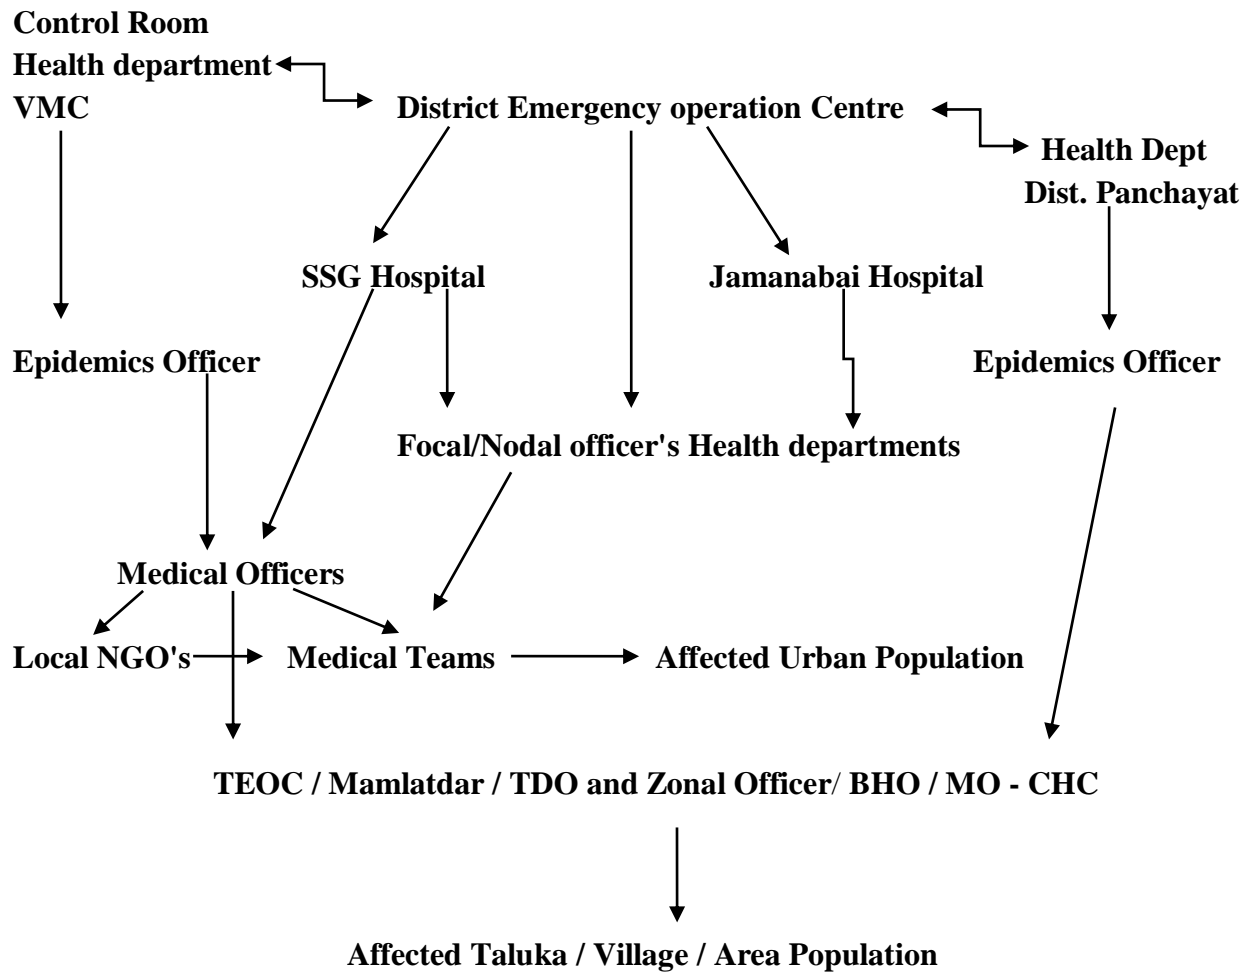

Vadodara district is endemic to various water-borne diseases such as Cholera, Leptospirosis and Malaria. Several relatively minor ailments such as Diarrhoea are more common during the monsoon. Most importantly, there is always a danger of epidemics breaking out after floods arising due to different factors – inundation of wells under contaminated sewage water, wading through such flooded water. There is contamination of groundwater as well as well-water in such circumstances. Well water can be contaminated directly when sewage water enters the well during inundation.

Variety of groundwater pollution problems have emerged in the past two decades in Vadodara district. Fluoride, Nitrate and pollution from industrial effluents have caused contamination of aquifers in different parts of the district. Fluoride is present in several minerals such as Apatite and Hornblende are found in rocks of Igneous origin which leads high amounts of fluoride content in groundwater, Increasing use of Nitrate-based fertilizers that are not fully consumed by plants result in leaching of excess Nitrates into aquifers. Further, human and animal faeces also contribute to rise of Nitrate content in groundwater.

### **Response:**

Health department in particular Health department - District Panchayat, who will look after and respond such kind of disaster arising in Panchayat areas, such as taluka level and village level, for urban pocket health division of Vadodara Municipal Corporation (VMC) will respond in such kind of disaster. Health department - District Panchayat and VMC has their own set of epidemics team and task force to respond in such kind of disaster, for sampling of the water, grains, food sample etc done by Laboratory of Food & Drug, Near M.S.University, Vishwamitri Bridge, Vadodara.

## **Response Chart:**

## **5.6 Action Plan for Oil Spills and Mine Disasters**

State level action plan / department specific action plan / Industries specific action plan will be referred at the time of the above stated Disasters. The response mechanism would be the same as describes with the general response mechanism chapter.

- ❖ As disaster declares the response managed and monitored through DEOC.
- ❖ All concerned DDMC members with Liaison officers and response group members are intimated to respond the situation.
- ❖ As per the impact of disaster it will manage through DEOC / TEOC and if needed support of State or Central departments will be requested to deal with the situation.
- ❖ Database of SDRN and IDRN (Manually and Electronic) will be referred for response.

## **5.7 Action Plan for Tsunami :**

The possibility of the above stated disaster is very less with respect to Vadodara District, but if the effect of it is felt by the nearby district / state, will accordingly respond as per the State directions.

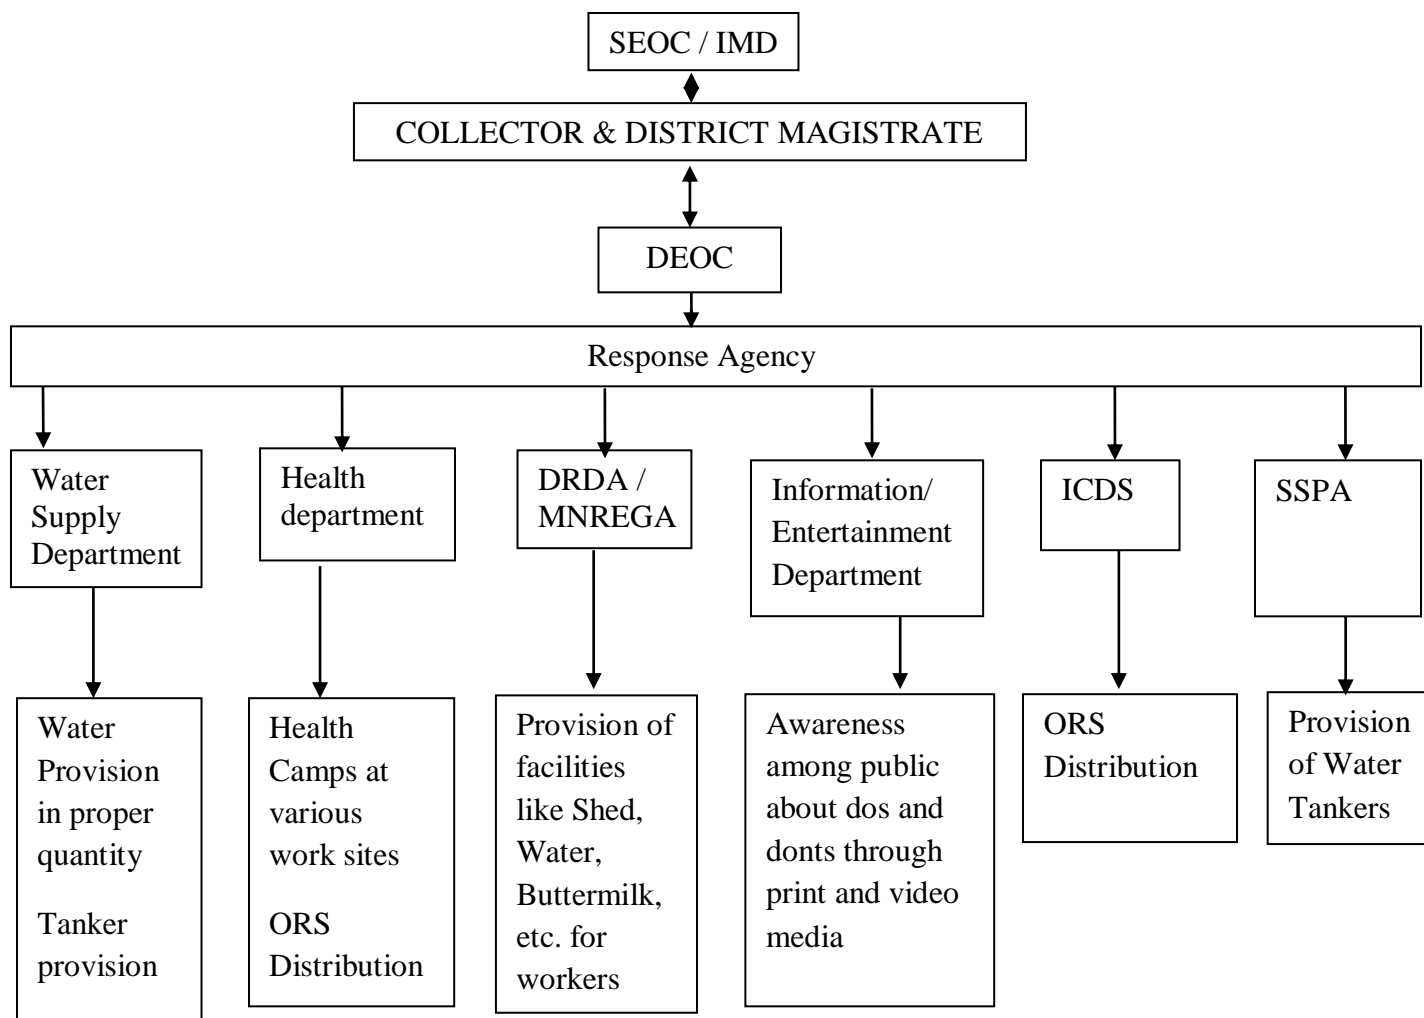

## **5.8 Action Plan for Heat Wave :**

Since two years due to global warming effect, Heat Waves have become hazard for the human life. Though it cannot be called Disaster because according to Disaster's definition it does not fit into the condition of harming infrastructure and precautionary measures and timely response are required to cope up with it. India Meteorological department has started issuing different alerts for high temperature which are as follows:

- Yellow Alert : 41.1 to 43.0 Degree Celsius
- Orange Alert : 43.1 to 44.9 Degree Celsius
- Red Alert : Greater or Equal to 45 Degree Celsius

Thus, according to these alerts Vadodara has already been issued orange alert in the year 2016. And keeping in mind the impact of heat wave on human life following roles and responsibilities has been given to various departments in order to reduce the impact of heat wave:

The above table represents the responsibilities of different Departments for various provisions that will help public reduce the impact on their health. In addition to that, DO's and DONT's for reducing the impact of Heat Wave, has been issued by Gujarat State Disaster Management Authority, Govt. of Gujarat which are as follows:

# ગરમીમાં લૂ લાગવા (હીટ વેવ) થી બચો

## આરોગ્યલક્ષી સુચનો

- \* હીટ વેવ દરમિયાન સુધી બહાર નીકળવાનું ટાળવું, આખું શરીર અને માથું ઢંકાઈ તે રીતે સફેદ સુતરાઉ ખુલતા કપડાં પહેરવા, ટોપી, ચશ્માં, છત્રીનો ઉપયોગ કરવો.
- \* નાના બાળકો, સગર્ભા માતાઓ, વૃદ્ધો તથા અશક્ત અને બિમાર વ્યક્તિઓએ તડકામાં વિશેષ કાળજી લેવી
- \* સીધા સૂર્ય પ્રકાશથી બચો
- \* ભીનાં કપડાંથી માથું ઢાંકી રાખો અવાર-નવાર ભીનાં કપડાંથી શરીર લૂછો વારંવાર ઠંડું પાણી પીવું
- \* લીંબુ શરબત, મોળી છાશ, તાડફળી અને નારીયેળનું પાણી, ખાંડમીઠાનું દ્રાવણ, ઓ.આર.એસ. વગેરે પુષ્કળ પ્રમાણમાં પીવા
- \* બાળકો માટે કેસુડાનાં ફુલ તથા લીમડાના પાનનો નાદવાના પાણીમાં ઉપયોગ કરવો
- \* ગરમીમાં બહારથી ઘરે આવ્યા બાદ શરીરનું તાપમાન નીચું આવે ત્યારબાદ જ નહાવું, શક્ય હોય તો ઘરના બારી અને બારણા સાથે ખસતી ટટ્ટી પાણી છાંટી બાંધી રાખવી
- \* દિવસ દરમિયાન ઝાડ નીચે, ઠંડક અને છાંયામાં રહેવું
- \* બજારમાં મળતો ખુલ્લો, વાસી ખોરાક ખાવો નહીં, બજારમાં મળતા બરફનો ઉપયોગ ટાળવો, લગ્ન પ્રસંગે દૂધ, માવાની આઈટમ ખાવી નહીં
- \* ઉપવાસ કરવાનું ટાળવું, સવારનું ભોજન ૧૨:૦૦ વાગ્યા સુધીમાં લઈ લેવું
- \* ચા-કોફી અને દારૂના સેવનથી લૂ લાગવાની શક્યતા વધે છે, તેથી તેનું સેવન ટાળવું
- \* હીટ વેવની ચેતવણીના દિવસોમાં બપોરે બે વગ્યાથી ચાર વગ્યા સુધી બહાર નીકળવાનું ટાળવું

## લૂ લાગવા (હીટ વેવ) ના લક્ષણો

- \* માથું દુઃખવું, પગની પીડીઓમાં દુઃખાવો થવો
- \* શરીરનું તાપમાન વધી જવું
- \* ખૂબ તરસ લાગવી
- \* શરીરમાંથી પાણી ઓછું થઈ જવું
- \* ઉલ્ટી થવી, ઉબકા આવવા, ચક્રર આવવા, આંખે અંધારા આવવા
- \* બેભાન થઈ જવું
- \* સુધ-બુધ ગુમાવી દેવી (Confusion)
- \* અતિગંભીર કિસ્સામાં ખેંચ આવવી

- \* વરીયાળી, કાચી કેરી, ગુલાબ, ખસ(વાળા), અને કાળી દ્રાક્ષનું શરબત લઈ શકાય, રાત્રે ૧૦ નંગ કાળી દ્રાક્ષ પાણીમાં પલાળી સવારે આ પાણી પીવું અને દ્રાક્ષ ખાવી, તરબુચનો ઉપયોગ સવારે અને બપોરે કરવો.

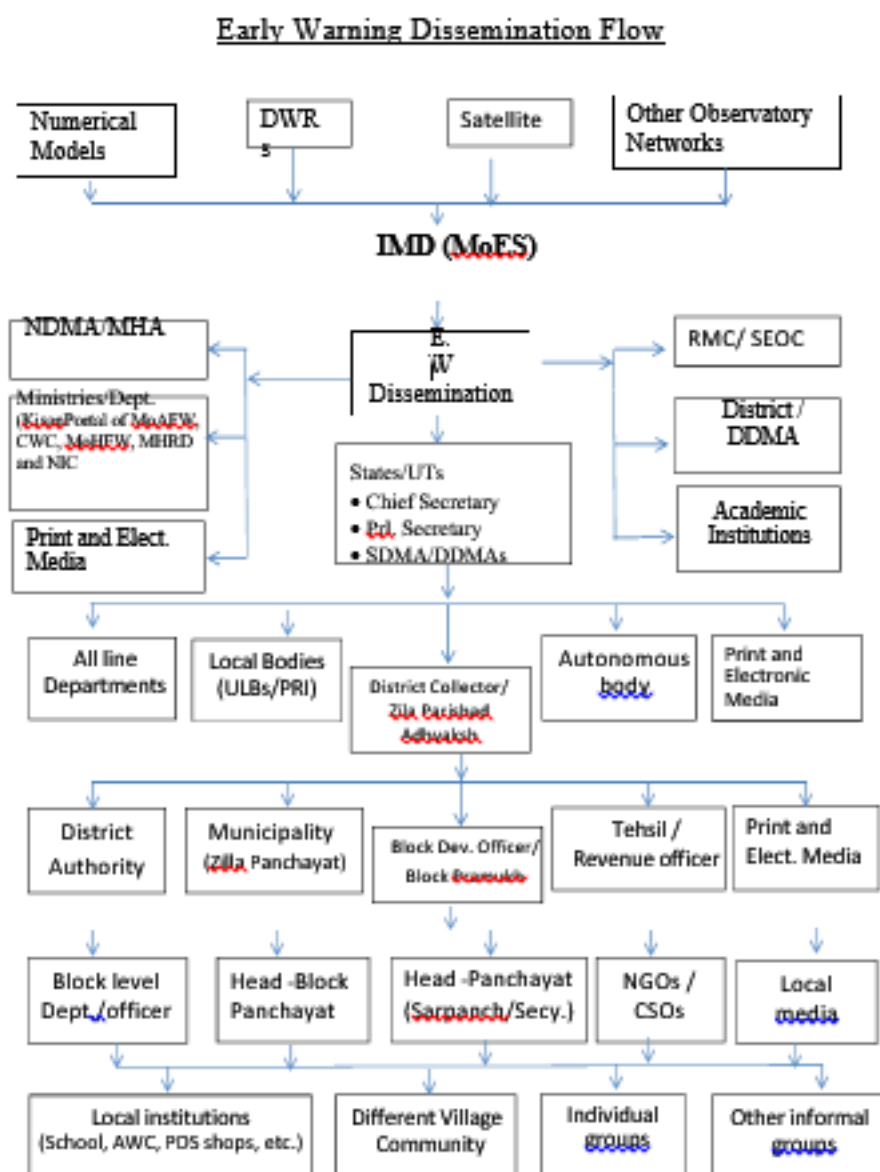

લૂ લાગવાની અસર જણાય તો તાત્કાલીક નજીકના પ્રાથમિક આરોગ્ય કેન્દ્ર કે સરકારી દવાખાનાનો સંપર્ક કરવો.

ગુજરાત સરકાર દ્વારા જનહિતાર્થે

## 5.9 Action Plan for Lightning and Thunderstorm :

Thunderstorm and lightning have emerged as major weather hazards in recent years and have affected different parts of the country. Lightning and Thunderstorms are extremely short term phenomenon. The lightning strikes are instantaneous and it hits within flash of seconds. Thus, it gives very little time to an individual react. These severe weather events cause extensive structural damages, destruction of crops, uprooting of trees and casualties.

## **5.10 Action Plan for Fire Incidents :**

Fires can start due to human activities or from natural causes. Forest fires can start from either natural causes or human activity or from a combination of both. The most common fires are the residential and non- residential structural fires caused usually by human activities. Most industrial and chemical fires are triggered by human activity. They are sometime caused by human errors, faulty designs, or mechanical failures. Fire can also be the secondary effect of a disaster like earthquake. Secondary fires after a disaster like earthquakes constitute a substantial and heavy risk. Damage to natural gas systems during an earthquake can lead to major fires and explosions. Damages to electrical systems during a disaster can ignite major fires.

**Types of Fire Fires are classified in the following categories:**

- **Class A Fires:** Involving combustible materials of organic nature, such as wood, paper, rubber and many plastics etc. where the cooling effect of water is essential for extinction of fires.
- **Class B Fires:** Involving flammable liquids, petroleum products or the like, where a blanketing effect is essential
- **Class C Fires:** Involving flammable gases under pressure including liquefied gases, where it is necessary to inhibit the burning gas at fast rate with an inert gas, powder or vapourising liquid for extinguishers
- **Class D Fires:** Involving combustible metals, such as magnesium, aluminium, zinc, sodium, potassium, etc. when the burning metals are reactive to water and water containing agents and in certain cases to carbon dioxide, halogenated hydrocarbons and ordinary dry powders.

### **Prevention from Fire**

Fire extinguishers are the most common type of firefighting equipment being installed at office facilities, warehouses and sales offices. They should be selected based on the type of fire hazard, as depicted below:

- Class A fires – Water, foam, ABC dry powder and halocarbons
- Class B fires – Foam, dry powder, clean agent and carbon dioxide
- Class C fires – Dry powder, clean agent and carbon dioxide extinguishers
- Class D fires – Extinguishers with special dry powder for metal fires

The Gujarat State Disaster Management Act, 2003 provides for the State Government to declare any area where any disaster has occurred as disaster affected area on the recommendations of the State Relief Commissioner or the District Collector. The purpose of declaration of disaster is to organize effective response and mitigating the earthquake effects. Such a declaration provides wide powers and responsibilities to the State Relief Commissioner and the District Collectors in order to handle the incident effectively.

# LINKAGES WITH OTHER STAKEHOLDERS

## **CHAPTER - 6 -**

### **LINKAGES WITH OTHER STAKEHOLDERS**

#### **6.1 Partnership and Linkages with Stake Holders:**

With respect to regular communication, all the departments and agencies including specific departments like office of:

1. Joint Director, DISH
2. Gujarat Pollution control Board
3. Railways Authority
4. Air Force
5. Vadodara Municipal Corporation
6. Off Site Control Room is in regular contact with District Emergency Operation Centre.

Regular Meetings of District Crisis Group (DCG) consisting various departments head has been conducted in every three months period in which various issues have been discussed regarding Chemical / Industrial hazards like..

- Potential of chemical hazards in various GIDC Areas and Notified Areas
- Mitigation steps to minimize the potential
- Regarding Awareness Generation Activities in Industrial Areas
- Training and Sensitization Programmes
- Regular onsite and Offsite Mock drills
- Seminars and workshop with various local partners (Village Panchayat & Associations)
- Availability of experts
- Availability of Anti dotes
- Escape routes
- Strengthening of Communication network
- Strengthening of resources
- Identification and validation of temporary shelters

Herein Vadodara district, an offsite control room (OCR) is been functioning since long with the support of Mutual Aid Group, which focuses on the Chemical hazards and is in close coordination with DEOC. The OCR mainly deals with the preparedness and response aspects.

DM Plan of GPCB, Offsite Emergency Plan through office of the Joint Director, DISH has been received herein DEOC, certain environmental and industrial hazard related issues always discussed and directed to them for further technical guidance with respect to particular issue.

## **6.2 Academic / Scientific and Technical Organizations:**

There are many of the academic, scientific and technical institutions / organizations in Vadodara district that are directly or indirectly concerned with Disaster Management Issues. For instance:

1. Gujarat Energy and Research Institute which studies and research on the energy related issues,
2. M.S.University which run PG Diploma in DM course, courses on Geological and technical education.
3. Many of Fire Safety and Disaster Management institutions run in various parts of the district, mainly in Vadodara, Waghodia and Savli Taluka which are focused on Fire Safety and Disaster Management Studies.
4. Health related institutions like IMA, Vadodara Red Cross Society which are concerned with DM

## **6.3 Media Management:**

Majorly at the time of disaster the print as well as electronic media is managed by the chairperson himself or appoints the person of Dy. Collector rank to deal with media personnel. As per his direction the news or information shared with the media personnel from DEOC.

# RECOVERY MEASURES

## **CHAPTER - 7 -**

### **RECOVERY MEASURES**

Disaster recovery is viewed by some people as a fight against nature to restore order in a community. However, the disaster recovery process is not a set of orderly actions triggered by the impact of a disaster upon a community. Rather, disaster recovery is a set of loosely related activities that occur before, during and after a disastrous event. These activities can include:

- Warning and Public Information
- Evacuation and Shelter
- Search and Rescue
- Damage Assessment
- Debris Clearance, Removal and Disposal
- Utilities and Communications Restoration
- Re-establishment of major transport linkages
- Temporary housing
- Financial management
- Economic impact analysis
- Detailed building inspections
- Re-development planning
- Environmental Impact Assessment
- Demolition
- Reconstruction
- Hazard mitigation; and
- Preparation for the next disaster.

Recovery has two phases i.e. Short term and Long term Recovery. Class I officers from various line departments are deputed as Liaison Officers for each Taluka, and they are responsible for monitoring and working with the local administration in both phases of recovery operations under the guidance of the District Collector.

Search and Rescue, Damage Assessment, Public Information, Temporary Housing, Utility Restoration and Debris Clearance are essential elements of short-term recovery. The efficacy of their implementation affects long-term decisions.

Long-term recovery begins when a community starts to repair or replace roads, bridges, homes, and stores. It is also the period where improvement and changes are for the betterment of the society such as strengthening building codes, changing land use and zoning designations, improving transportation corridors and replacing “affordable housing” stock, etc. Whether they are considered during pre-disaster planning or short-term post-disaster recovery, it is during the long-term recovery period that most changes in pre-existing conditions can and do occur. Changes that include sustained efforts to reduce loss of life and property from the next disaster, such as changes to building codes and land use designations are examples of mitigation.

## **7.1 Immediate and Short Term Recovery**

While a preliminary damage assessment is carried out during disaster phase, a detailed assessment must be conducted before commencing reconstruction and rehabilitation activities. The relevant Government departments and local authorities shall initiate detailed assessment at their respective level for damages sustained in housing, industry/services, and infrastructure, agriculture, health / education assets in the affected regions. Immediate recovery can continue from a day to two months, depending upon the extent of damage.

### **1.1. Restoration of Basic Infrastructure**

The restoration of basic infrastructure is to put the most essential infrastructure back in place after the disaster.

#### **a) Roads and Bridges**

This covers construction of all critical roads and bridges necessary to provide connectivity with immediate effect. It can be National Highway or village roads to link with main roads and health centers, or construction/restoration of bridges that can be the only point of accessing Talukas & villages. Responsible Department: R & B (State & Panchayat)

**b) Drinking Water Supply**

Restoration of Drinking Water supply has to be done by setting up of new hand pumps, tube wells or setting up of piped water supply in areas with no access to potable water. In case of floods, setting up of raised hand pumps is required.

Responsible Department: Electricity Department & Water supply Department

**c) Electricity:** Restoration of power supply is also critical to immediate recovery. Responsible Department: Electricity Department

**d) Communication Network:** In times of disasters, communication networks may be disrupted. The networks of mobile services providers have to be put back in operation at the earliest to make search and rescue easier, as well as to expedite coordinated response measures.

Responsible Department: BSNL & Mobile Service Provider, Electricity Department

**e) Reconstruction & Repair of Lifeline Buildings**

Lifeline buildings are those necessary to keep the administrative machinery functioning despite the damage by disaster. The following buildings have to be repaired on priority:

- Collectorate
- Line Department Buildings
- Block Offices
- Hospitals

**f) Rehabilitation**

In case there is a major damage from earthquake or flooding, a large segment of the population may have to be rehabilitated to new locations on a temporary basis. There may be a need of permanent relocation in case of the change of river course. Communities will have to be supported with relief shelter.

**g) Mass Care/Sheltering and Housing**

The management of relief shelters is continued from the response phase to the immediate recovery phase and done through Incident Response System. The Incident Commander oversees the operations while the Relief Camp Manager manages the shelter. During this

period, the number of victims must be identified for whom construction of houses under Indira Aawas Yojna & Sardar Awas Yojna shall be sanctioned.

**h) Food**

Supply of food in relief phase is more important. It becomes important to elicit support from various NGOs, Grain merchants and volunteers.

**i) Debris Removal and Disposal of Dead Bodies**

We should remove debris or trees from transportation routes for effective rescue and relief measures. Dead bodies of humans and animals may be found in the debris and hence the Health & Animal Husbandry Department works in tandem with debris removal agencies.

**j) Drainage and Sewage**

Drainage and sewage systems will have to be quickly re-established to decrease inundation from floods, spread of diseases and epidemics and maintaining hygiene.

**k) Health Care**

First Aid and Emergency Health care has to be provided at the earliest. In case the health care centers are affected by the disaster, temporary medical relief camps need to be installed while the building is retrofitted or reconstructed. Reconstruction of buildings has to begin in this phase. Mobile Medical Units (MMUs) have to be pushed into action for immediately health care close to the community.

**l) Livelihood Recovery**

Livelihood interventions will happen over to three different overlapping phases, i.e. Livelihood Provisioning, Livelihood Protection and Livelihood Promotion. The first two phases shall form part of the Immediate & Short Term recovery, while the third shall form a part of Long Term Recovery.

**1. Livelihood Provisioning:** Providing critical food and non-food items in the form of relief is necessary for survival. This will focus on disbursement of food and health services for chronically vulnerable people during the emergency.

**2. Livelihood Protection:** Protect, replace and rebuild the productive assets needed to sustain a preexisting or new livelihood.

i) **Cash doles:** Some amount of cash assistance should be given for self-directed delivery by the victims. Individual loans and community block grants shall be extended to build local earning assets. ii) **Material Assistance:** In case where replacement of crucial assets or fresh requirement of some resources is crucial and not easily available in local markets, material assistance shall be provided. For instance, distribution of seeds to farmers can be done.

### **Mitigation Activities**

As a part of conducting a detailed damage and loss assessment, an assessment of prospective risks and vulnerabilities will also have to be done. For example, refurbishing of embankments or retrofitting of houses and other buildings.

## **7.2. Long Term Recovery**

Long-term recovery must be complete in 2 months to 24 months time. (i) Housing Development of permanent housing solution for victims will happen during this period. (ii) The construction of houses for victims identified under Indira Awas Yojana and Sardar Awas Yojna shall be undertaken during this time.

### **2.1. Reconstruction and Repair**

#### **a) Infrastructure**

Restoration of social infrastructure has to be done to reinstate the normal functioning of district infrastructure. Schools & Hospitals will have to be reconstructed and repaired in this recovery phase.

Re-establishment of disrupted health care services will have to be done at the earliest.

Responsible Department for Hospitals: Health Department & R & B

Responsible Department for Schools: Education Department & R & B

#### **b) Economic Infrastructure**

Restoration of economic infrastructure (Banks) is essential for accessibility of money and the smooth functioning of the economy of the district. Unless addressed, it severely affects the

livelihood and employment potential of the district. Thus, bank buildings shall be quickly instated.

### c) **Livelihood Recovery**

Final phase for livelihood recovery is a part of long-term recovery initiatives.

i) Livelihood Promotion: To initiate and strengthen livelihoods to be more economically and environmentally sustainable as well as more resilient to future disasters.

In this long term recovery effort, focus is on livelihoods diversification, creation of alternate income generating activities, providing financial services such as loans and insurance, and strengthening forward linkages with markets for existing and new livelihoods.

ii) Microfinance Services: Micro-credit (small loans) shall be provided to repair or replace critical livelihood assets, finance existing debts or for developing new livelihoods.

iii) Micro-insurance: Providing small-scale insurance at low premium for providing payouts on the occasions of emergencies. Insurance of livestock shall also be facilitated.

## 7.3 Restoration of Essential Services and Infrastructure

The following tables are to be filled after an event of disaster:

### **Power**

Item/Services	No. of unit damaged	No of villages affected	Population affected	Recovery measures	Implementing agency	Tentative Duration (Months)
Feeder						
Transformers						
HT Lines						
LT Lines						
Electric Poles						

To be planned after initial damage assessment by departments

## Health

	PHC (village name)	CHC	Sub Centre	Drug Store	Recovery Measures	Implementing agency	Tentative Duration (Months)
No of buildings damaged							
No of health centres inaccessible							
Refrigeration and other vital equipment for storage							
Drugs and medicines perished	(Location and qty)						
No of Ambulance damaged							

To be planned after initial damage assessment by departments

## Social

People in need of immediate rehabilitation including psychosocial support (due to disaster)

Village	Men	Women	Children	Total	Recovery Measures	Implementing agency	Tentative Duration (Months)

### Water Supply

Type	Village	No. of unit affected	Faliya/ Population affected	Recovery Measures	Implementing agency	Tentative Duration (Months)
Well						
Borewells						
Pond						
Water Supply Disrupted						
Contamination						
ESR damaged						
GLR Damaged						
Sump damaged						
Pipe lines damaged						
Standpost damaged						
Cattle trough damaged						
Handpump						

### Road and Transport

Road damage	Location	Severity	Km	Recovery Measures	Implementing agency	Tentative Duration (Months)
Panchayat						
State Roads						
National Highway						
Nagar Palika						

### Road and Transport

	Village/Ward	Population	Alternate road/route	Recovery Measures	Implementing Agency	Tentative Duration (Months)
Road Cut off						
Rail Connectivity						

### Communication

Type	Office/Tower Damaged	Villages affected	Recovery Measures	Implementing Agency	Tentative Duration (Months)
Landline connectivity	(No. of unit and location)				
Mobile connectivity					
Wireless Tower					
Radio					

### Food Supply

List of village affected by disruption in food supply

Type	No. of godown damage	Type of grains perished (Ton)	Qty of grain perished (Ton)	Qty of grain at risk (Ton)	Recovery Measures	Implementing Agency	Tentative Duration (Months)
Civil Supply							
APMC							
Other							

## Housing

Partial Damage		Fully Damaged / Collapsed		Recovery Measures	Prog / Scheme	Implementing Agency	Tentative Duration (Months)
Kucha	Pucca	Kucha	Pucca				

## Public Utilities

Public Buildings	Partial damage (No. of units)	Fully Damaged/ Collapsed (No. of Unit)	Recovery Measures	Prog/ Scheme	Implementing Agency	Tentative Duration (Months)
Panchayat						
Educational Buildings						
Anganwadi						
Hospitals						
Office Buildings						
Market						
Police station						
Community Halls/ Function plots						

## 4. Restoration of Livelihood Provisioning of Employment

Occupational category	No. of workers	Implementing Agency	Tentative Duration (Months)
Skilled labours			
Unskilled and , Agricultural labours			
Small and marginal farmers			
Construction workers			

Salt pan workers			
Fisher folk			
Weavers			
Other artisans			

### Land Improvement

Land erosion / siltation (Hectare)	HHs affected	Recovery Measures	Implementing Agency	Tentative Duration (Months)

### Agricultural

Crop failure (Hectare)	HHs affected	Recovery Measures	Implementing Agency	Tentative Duration (Months)

### Non-farm livelihood

Cottage Industry	Extent of damage/disruption		Recovery Measures	Implementing Agency	Tentative Duration (Months)
	Tools and equipment (Specify no. and type)	Goods and material (Specify type and qty)			
Handloom					
Pottery					
Food Processing					

Diamond sorting etc					
Printing/ Dying					
Other					

### Shops and establishment

Extent of damage/disruption			Recovery Measures	Implementing Agency	Tentative Duration (Months)
Building (No. and location)	Tools and equipments (Specify no. and type)	Goods and materials (Specify type and qty)			

# ANNEXURES AND MAPS

# **ANNEXURE - A**

## **DISTRICT PROFILE**

### **History:**

Baroda has a rich historical background. The ardent historian can trace Baroda's history over 2000 years and more. However, the recent threads can be picked up when the Mughal rule over the city came to an end in 1732, when Pilaji brought the Maratha activities in Southern Gujarat to a head and captured it. Except for a short break, Baroda continued to be in the hands of the Gaekwads from 1734 to 1949.

The greatest period in the Maratha rule of Baroda started with the accession of Maharaja Sayajirao III in 1875. It was an era of great progress and constructive achievements in all fields.

Maharaja Sayajirao was one of the foremost administrators and reformers of his times. He initiated a series of bold socio-economic reforms. He attached great importance to economic development and started a number of model industries to encourage initiative, and then handed back the working industries to private enterprise. He started model textile and tile factories. It is as a result of his policy of industrial development that Baroda is today one of the most important centers for textile, chemical and oil industries today. He introduced a number of social reforms. In no department of administration has the far-sighted policy of this wise ruler been more conspicuous than in education, and in none have the results been more real and tangible. He boldly introduced compulsory primary education and a library movement (the first of its kind in India) to augment his adult education scheme.

It was he who visualized a general scheme of development in all branches of knowledge at different stages, with the Maharaja Sayajirao University of Baroda at the apex. Modern Baroda owes its beauty, its educational institutions and its masterpieces of architecture to the insight and vision of this great ruler.

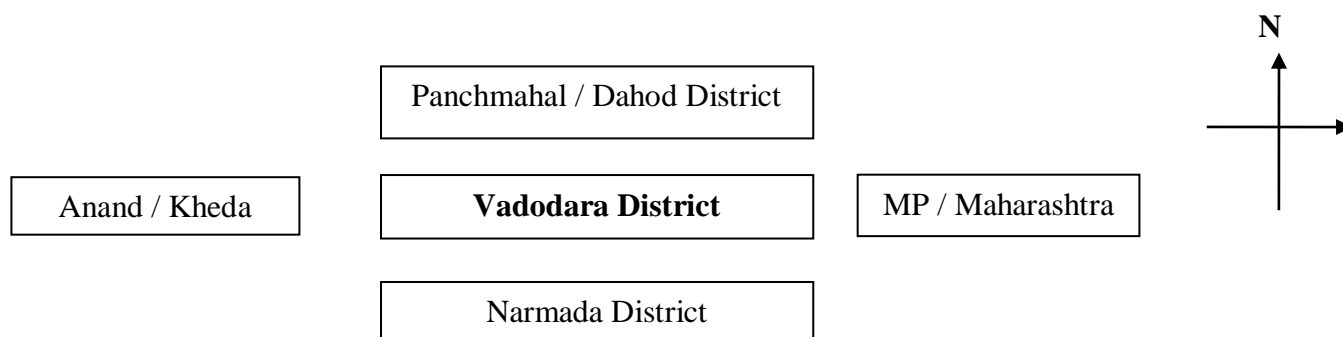

There is a saying that nothing grows under the banyan tree, but this is not true of Baroda. Having witnessed the rise and fall of the empires and kingdoms of the Hindus, Pathans, Mughals and Marathas, it now occupies a unique position on the educational, cultural and industrial map of India. Yet, it has been fortunate enough to retain the beauty of its rich and varied past. And it is one of the few cities in India which is still influenced by the lost might of its ruling dynasties.

## **Area & Administration:**

By and large the District consist of one Municipal corporation i.e. Vadodara Mahanagar Seva Sadan (VMSS), 8 Talukas (Under 5 Subdivisions) and 4 Nagar Seva Sadan (Municipalities) through which the administrative function has been operated. There is a separate department specific administrative structure existed and functioning accordingly.

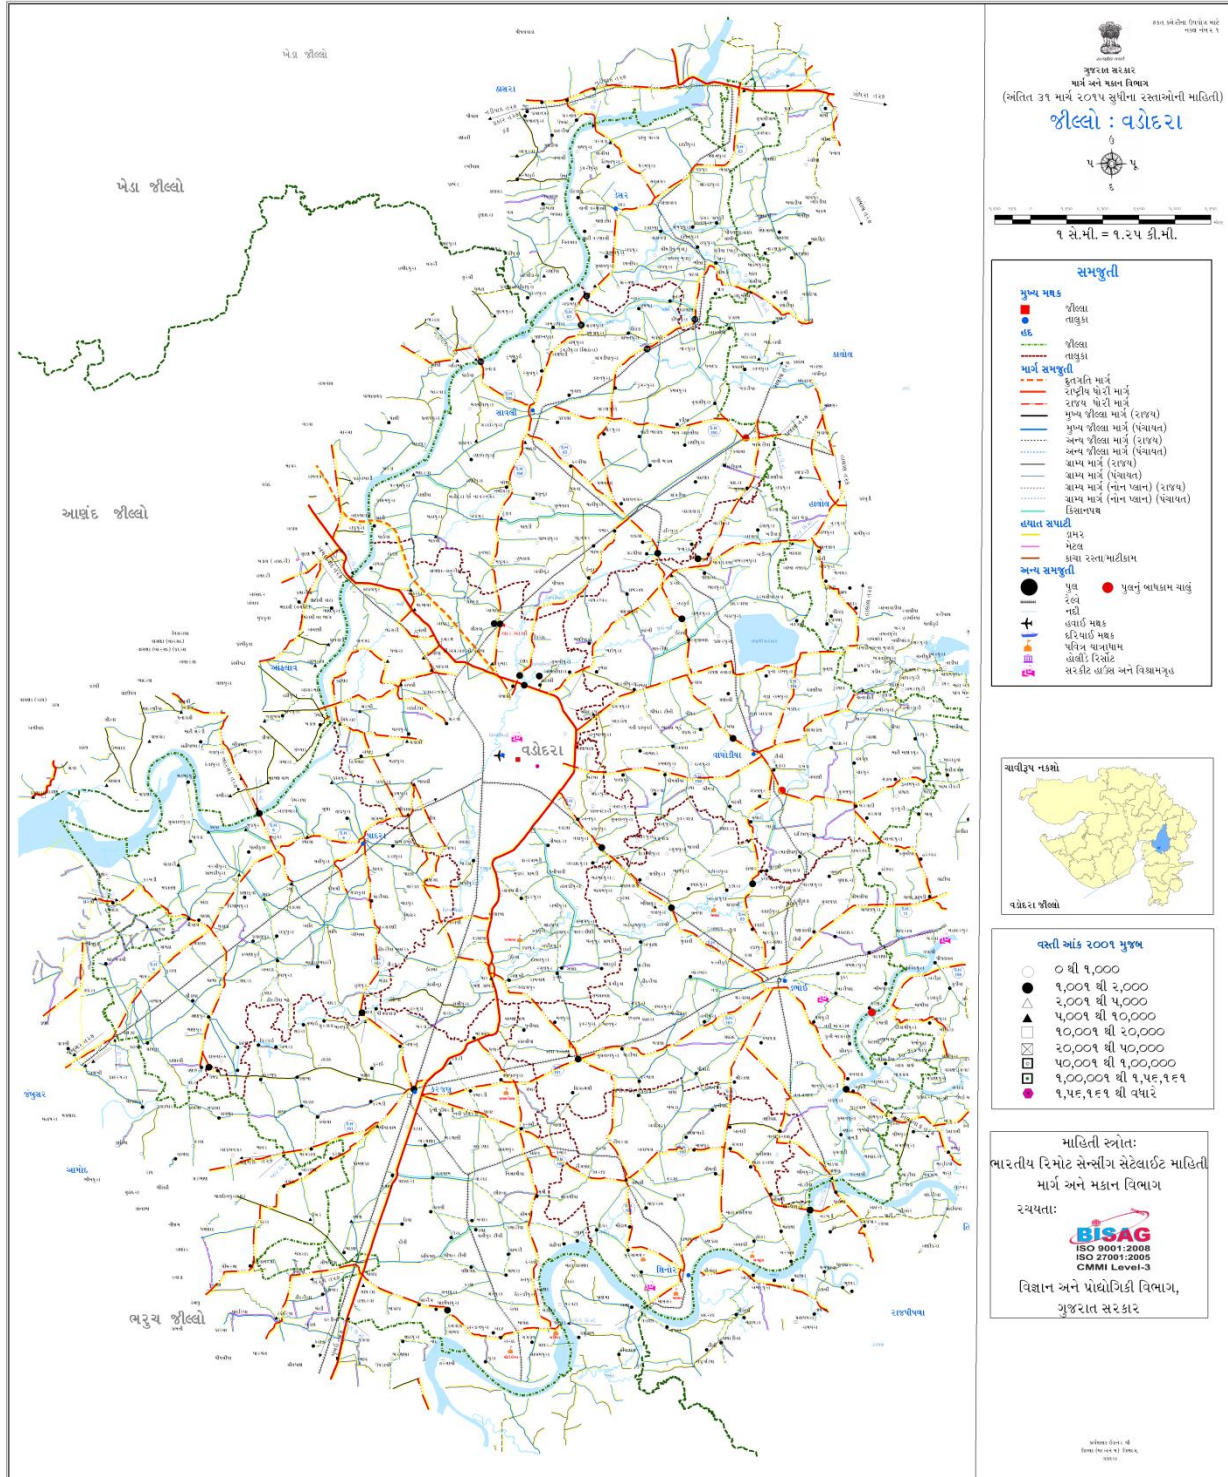

The District Vadodara is situated in southern east part of Gujarat State. And is oldest planned city famous for educational institution. Vadodara district is located in south Gujarat. The city is situated on the bank of Vishwamitri River. The District boundary of Vadodara extends from 21.49' N latitude to 22.49' N latitude and from 72.51' E longitude to 74.17° E longitude. It is bounded on north by Panchmahal & Dahod districts, on east by MP& Maharashtra, on south by Narmada district and on West by Anand and Kheda districts.

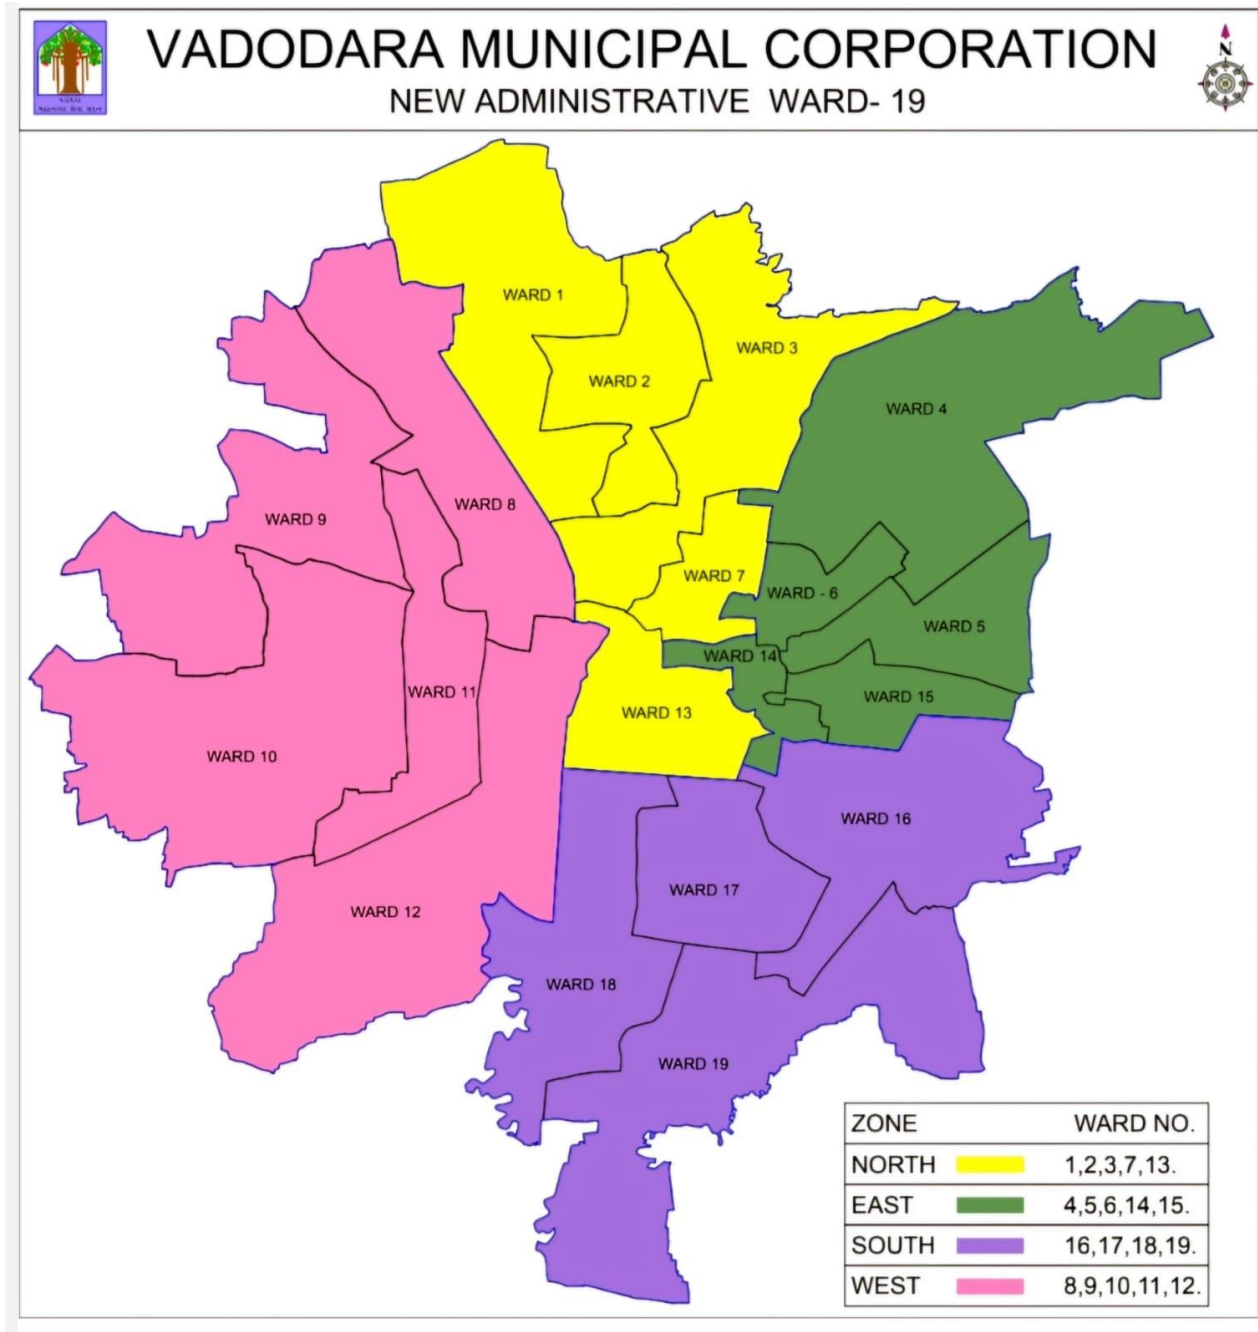

Mahi River flows on Northwestern boundary of the district and Narmada on the SE boundary of the district; are the major rivers. The other major rivers are Vishwamitry, Dhadhar and many other seasonal streams. The major water bodies are Ajwa Reservoir, Dev dam, etc.

It is one of the larger districts of Gujarat sprawling over an area of 4277.51 sq. km. It is home for a population of 30,93,795 spread over 677 villages and five urban areas. For administrative convenience the district is divided into 8 Talukas, one Municipal Corporation (Vadodara City Map is shown under) and four Municipalities.

**Map : 1 : Vadodra District Map**

**Map - 2: Vadodara City Map**

Of the eight Talukas, 6 Talukas fall within the 75cm annual isohyets line, whereas two talukas on northwestern tip of dist. viz. Savli and Vadodara fall in 100 cm annual isohyets line. Having one Municipal corporation (Vadodara Mahanagar Seva Sadan), Vadodara district has been fallen in the following administrative divisions:

Total Nos. of Sub division: -05

(Vadodara-City, Vadodara-Rural, Karjan, Savli, Dabhoi)

Total No. of Taluka : - 08  
 Total No. of Village : - 677  
 Total No. Municipalities : - 04

Broadly District specific demographical details (As per 2011 Census Provisional Data) are as under:

**Table: 1**

No	Name of Taluka	No. of villages	Population	Municipalities with Type	Population
1	Vadodara (R)	82	186902	VMC	1822532
2	Karjan	93	137174	Karjan - Type C	30405
3	Padra	82	219241	Padra - Type C	46660
4	Savli	136	236542	Savli - Type D	18467
5	Desar	-	-	Dabhoi - Type B	51240
6	Vaghodiya	93	149914	Total	1969304
7	Dabhoi	118	129278		
8	Sinor	41	65440		
	Total	645	1124491		

**Ref. of Population: Census 2011**

## **Demography:**

According to 2011 census Provisional data, District has population of 30,93,795 persons. The density of population here is noted to be approx. 723 people/sq. km. The average decadal population growth rate of district for 2001 census was 17.80%.

After 2013, Chhota Udepur got separated from Vadodara District, so the population of new Vadodara District can't be compared to Old Vadodara District as it contained large no. of talukas which new one can't consider.

Total population of the district is 30,93,795 persons as per the 2011 census data of which 16,08,887 are males and 14,84,908 are females. As per census 2011 approximately 3,34,877 are 0-6 years Children, 19,47,874 are Dependents 1,96,350 are SC Population and 2,93,039 are ST Population residing within the district.

**Table: 2**

No.	Total Population	Male	Female	0-6 Years children	Dependents
1	30,93,795	16,08,887	14,84,908	3,34,877	19,47,874

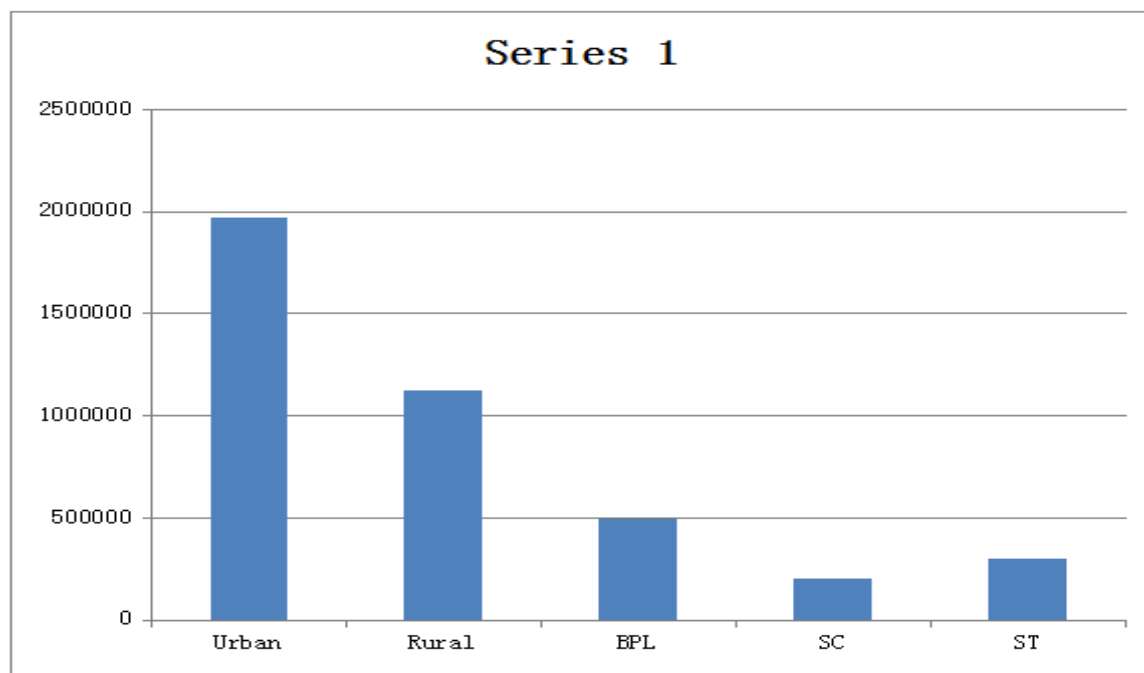

### **No of Families:**

There are 67,66,492 families in the District. And 4,89,389 people in the district falling below poverty line (BPL). Of the Total population of 30,93,795; 1,96,350 people belong to the SC community and 2,93,039 belongs to the ST community. Amongst the total population 19,69,304 persons are living in urban pockets and 11,24,491 persons belong to rural area.

**Table: 3**

No.	Urban Population	Rural Population	BPL People	SC People	ST People
1	19,69,304	11,24,491	4,89,389	1,96,350	2,93,039

**Chart:3**

**Literacy:**

Amongst the total population of the district, total 23,85,203 persons are literate. The literacy rate of the district is 77.10%. The male literacy rate is 81.37% whereas the female literacy rate is 72.47%.

**Occupational Structure:**

Amongst the total population, 19,69,304 persons are living in urban pockets and 11,24,491 persons belong to rural area. The total number of workers are 11,45,921 who are involved in different types of laborer works, amongst which 9,14,192 are Male Workers and 2,31,729 are Female Workers. There are 2,68,602 farmers in the District. From total workers, 10,10,506 are Main workers, 1,35,415 are Marginal workers, 1,24,155 Cultivators, 2,68,602 Agricultural laborers, 13,560 house hold Industrial workers and 7,39,604 are other workers.

**Climate:**

The Climate of Vadodara District can be regarded as one of extreme kind with hot summers & cold winters and witnessing of very good monsoon.

### **Temperature:**

The temperature at Vadodara district headquarters ranges from 43.0 degree centigrade higher in the summer and 4.2 degree centigrade lowest in the winter.

### **Rainfall:**

The average annual rainfall for Vadodara is 550 mm. The rainfall is sufficient and the district has the rainy season during July to September of the Season and rain received during this period. Some amount of rainfall is received from western disturbances during winter. Due to less rainfall & its short duration the agricultural activity mostly depends upon canal/ irrigation/Tube wells/Wells.

In Last 10 Years,Vadodara district rainfall data is as under:

**Table : 4**

<b>Year</b>	<b>Vado.</b>	<b>Karjan</b>	<b>Padra</b>	<b>Savli</b>	<b>Desar</b>	<b>Dabhoi</b>	<b>Sinor</b>	<b>Waghodia</b>
<b>2009</b>	592	721	579	363	-	516	463	356
<b>2010</b>	1570	785	756	981	-	759	505	852
<b>2011</b>	1138	1139	530	880	-	709	805	393
<b>2012</b>	934	645	689	757	-	695	889	466
<b>2013</b>	1726	1662	1126	1451	-	1132	1276	973
<b>2014</b>	1075	667	673	1303	719	649	485	725
<b>2015</b>	545	493	158	315	173	536	384	178
<b>2016</b>	714	593	263	459	475	657	467	483
<b>2017</b>	916	504	391	324	568	878	399	640
<b>2018</b>	941	669	291	408	493	709	382	452
<b>2019</b>	1978	1322	607	720	779	1808	901	1000
<b>2020</b>	1035	1032	728	854	843	999	734	780
<b>2021</b>	1069	795	849	483	470	892	532	563

<b>2022</b>	1112	1370	885	536	512	1109	1136	766
<b>2023</b>	851	733	880	561	684	776	612	472

As per general rainfall history Dabhoi and Vadodara taluka receives maximum of rainfall and in other part Sinor taluka receives lowest rainfall during the rainy season.

## **River,Dams & Irrigation Ponds:**

The District has two major rivers. Mahi River flows on Northwestern boundary of the district and Narmada on the SE boundary of the district; are the *major rivers*. The other major rivers are Vishwamiti, Dhadhar and many other seasonal streams. The major *water bodies* are Ajwa Reservoir, and Dev dam.

**Table: 5:**

No	Rivers	Dams & Affected Taluka	Reservoirs with Taluka	Irrigation Ponds With Taluka
1	Mahi River	Dev- Waghodia/Dabhoi	Ajwa - Waghodia	Vadhvana - Dabhoi
2	Narmada River		Pratappura -	Dhanora - Savli
3	Vishvamitri River		Waghodia	Vadadala - Savli
4	Dhadhar River			Manorpura - Savli
5	Suriya River			Muval - Savli
6				Timbi - Waghodia
7				Jambuai - Waghodia
8				Javla -Savli
9				Karachiya - Savli
10				Subhelav - Savli
11				Varsada - Savli
12				Sarsi - Desar - Savli
13				Vesaniya - Waghodia
14				Haripura- Savli

**Soil:**

The soil found in the District may broadly be classified as alluvial, black, light brown and alkaline. The major types of soil present in the district are alluvial soil, black cotton soil and mixed types. Alluvial soil is found in five talukas viz. Savli, Vadodara, Waghodhia, Padra, and Dabhoi in western part of District. The Black soil is found on southwestern talukas of Karjan, Shinor and Dabhoi. In rest of the district, varieties of soils are being found.

**Crops:**

The major crops grown are cotton, paddy, jowar, groundnut, wheat and bajra. Fisheries and animal husbandry are major allied activities of agricultural communities in the district. Moreover, Vadodara is the major industrial hub of the country. The major industries found here are Oil and Petrochemicals, Textile, Chemical, Medicine, Glass, Engineering, Cotton, Tobacco, Fertilizer etc. The District is crisscrossed by major rail and road links joining Delhi- Ahmedabad-Mumbai corridor. Because of this it is known as the 'Gateway to the golden corridor'.

## **Infrastructure details**

### **Education:**

Baroda is synonymous with education. The patronage of education started with Maharaja Sayajirao and the city has built further on the academic infrastructure established by him. The present educational foundation rests on over more than 20 public schools and over 100 private schools at the district place. Towering benevolently over all is the Maharaja Sayajirao University, the jewel in the Baroda crown, so to speak: MSU. It has 13 faculties and 17 residential hostels, 4 of them for women students. The university caters to over 30,000 students.

M.S. University - Vadodara is the main university in district. There are different Colleges in different blocks Dabhoi, Sadhli, Karjan, Limda- Waghodia and Savli has colleges affiliated with Gujarat University.

### **Other Educational Institutions:**

- Technology/Pharmacy/Medical - Vadodara, Limda-Waghodia.
- P. T. C. College 1. Vadodara. 2. Dabka-Padra 3. Waghodia
- S. N. D. T, College, Vadodara
- Medical College, M. S. Uni. Vadodara.
- Homeopathic College, Savli, Vadodara
- Dental College, Vadodara, Pipalia-Waghodia
- Ayurvedic College, Vadodara

### **Schools:**

#### **Total Primary Schools -**

There are total 1066 primary schools in the district, in which total 261740 students are studying in 1<sup>st</sup> to 8<sup>th</sup> standard.

#### **Secondary School -**

Total 175 Secondary schools amongst which 82 are granted schools, 85 are non-granted schools and 8 are government schools. Total 85,238 students are studying in these 175 schools.

**Higher secondary school -**

Total 254 Higher secondary schools amongst which 159 are granted, 94 are non-granted and 01 are government school. Total 54,092 students are studying in these 254 schools.

**Fisheries:**

Fishermen are not much active in the Vadodara District as there is no sea in the district but as per the details from fisheries department the fishing activity is done at the place where ponds and rivers placed the fishing activity carried out by local fishermen. Total 6688 fishermen are there in the district amongst which all are active fishermen.

For these fishing activities these fishermen uses 30 different types of big flat boats, 7 small boats, approximately 116 Tarapas / Tin boats and around 5251 nets for fishing activity.

**Live Stock:**

Cattle wealth occupies pivotal place in the rural economy of the district, the Livestock position is as below:

**Table: 6**

No.	Types of Live Stock	No. of live Stock
1	Bullock	69466
2	Cows	43356
3	Buffaloes	108164
4	Sheep & Goats	6671 & 125386
Total livestock		353043

There are 1 Veterinary hospital and 14 Dispensaries in the district.

**Industries:**

There are number of factories registered under the Indian factories Act. Approximately 786 small scale industries has been functioning in the District .Total 6 GIDC functioning in the Vadodara district.

There are several major factories like petrochemicals and Refinery or GSFC, Gujarat refinery, IOCL, IPCL, GACL, GIPCL functioning in the District. Other than these Deepak Nitrate, Apollo

Tire, Philips *India*, JCT, Munjal Auto, Nirma, GAIL- *India*, Alembic are the few large scale companies whose working plants are situated in the Vadodara city or district.

Many Chemical Industries has been their own establishments in Nandesari Industrial area and some of the Chemical industries are situated in different GIDC's of the District.

Industries have their own Onsite Emergency Management Plans to deal with onsite emergencies and the other major units like IOCL, BPCL etc. has developed their Disaster Management Plans.

### **Roads & Railway:**

The district has 3191 Kms length of pakka roads connecting to 426 villages/towns in the district. 249 villages are connected by kachha roads and 43 villages accessible only in fair weather. Out of the total 694 inhabited villages, 633 villages are connected by state road transport facilities.

Total length of railway track is 557 kms in the District, out of that Broad Gauge length is 557 Kms and remaining is Meter gauge.

### **Health Facilities:**

The district has more than 30 private Hospitals, 43 PHCs and 8 CHCs in the District to cater the people. Major hospitals are SSG Hospital, Jamanabai Hospital, GMERS General Hospital Gotri, Baroda Heart Institute, Bhailal Amin Hospital, Bankers Heart Institute, etc. located in Vadodara city area which can be viewed in Annexures. Locations of the CHCs and PHCs in different talukas are as follows:

**Table: 6: Details of CHC & PHC:**

Sr. No.	Taluka	Name of CHCs	No. of PHCs
1	Vadodara (Urban)	Chhani	In City Area SSG, GMERS Gotri Hospital and Jamanabai Hospital
2	Vadodara (Rural)	Por	09
3	Karjan	Karjan	05
4	Padara	Padra	07
5	Savli	Savli & Desar	07
6	Vaghodiya	Jarod	04
7	Dabhoi	Dabhoi	05
8	Sinor	Motafifalia	03

## **ANNEXURE - B**

### **Interim Guidance & Risk and Vulnerability Ranking**

(Adapted from Technical Note No. 1.4.1. - Probability, Impact and Risk Ranking Disaster Management Planning Workshop module (pages 20-21), prepared by Jeff Klenk, Interworks, for the ADB-funded CBERR Project.)

All events or activities carry some risk and are associated with some level of vulnerability. Risk and vulnerability ranking is the process of assigning scores to the risk and possible impact of hazards to be able to compare the likely vulnerability and make informed management decisions about which hazards are of greatest concern and when planning and preparation efforts should be directed. A crude risk and vulnerability ranking process can be accomplished in five steps.

#### **Step 1: identify the Hazards of Concern:**

Complete the hazards column for the following table. Typical hazards have already been identified, but these should be confirmed at this step and additional hazards added as appropriate.

<b>Hazard</b>	<b>Probability</b>	<b>Impact</b>	<b>Vulnerability Rating (Probability times Impact)</b>	<b>Specific Locations and populations of concern.</b>
Earthquake (resulting in damage)				
Wind (cyclone)				
Sea surge (cyclone)				
Flood				
Industrial Accident				
Drought				
Heat/cold wave				
Hail storm				
Landslides/Mudflows				

Dam Failure				
Mine fires/collapse				
Road/rail/air accident				
Oil spill (marine)				
Boat sinking				
Building collapse				
Human Disease (epidemics)				
Food poisoning				
Animal disease (epidemics)				
Terrorism (consequences)				
Critical Infrastructure Failure (e.g. extended power outage)				
Civil Unrest				

## **Step 2: Assign the Probability Ratings:**

Assess the probability-or "livelihood" of each hazard by reaching a consensus on probability and then assign each hazard a "Probability Level," as indicated in the following table. Enter the score for each hazard in the probability column of the table as below:

<b>Probability</b>	<b>Score</b>	<b>Description</b>
Almost certain	5	A regular event, on the average at least once in a 12 month period
Likely	4	Will occur at least once every two years.
Moderate	3	Will occur at least once every 5 years.
Unlikely	2	Will occur sometime in a 25 years period.
Rate	1	Can be expected to occur sometime in a 100 year period

### **Step 3: Assign the Impact Ratings:**

Assess the potential magnitude or impact of each hazard and assign each an "Impact Level" as in the following table. Enter the impact score for each hazard in the table in Step 1.

<b>Impact</b>	<b>Scope</b>	<b>Description</b>
Catastrophic	5	Massive insecurity, substantial loss of life likely. Large and generalized assistance urgently needed for large segments of population. Additional management, administrative, and technical expertise urgently needed. Large volumes of materials inputs needed.
Major	4	Security threatened for large segments of population; substantial impacts on vulnerable groups likely. Some loss of life likely. Life-saving programs likely needed to handle impact of emergency situation. Large volumes of material inputs and additional administrative staff and technical expertise likely to be needed.
Moderate	3	Security is threatened for potential target groups, some interventions may be needed, particularly for groups who likely face increase in vulnerability. Organization can likely respond with existing country/regional management structures.
Minor	2	Momentary insecurity local groups able to respond adequately to those in need. Some technical assistance by organization may be helpful to local respondents, although not urgently needed.
Insignificant	1	Little or no significant change in conditions, no expected loss of life, injuries or significant loss of property for usual target groups as the result of the hazard Normal operations continue.

### **Step 4: Assign the "Vulnerability" Ranking:**

Multiply the probability and the impact scores in the table in Step 1. The resulting score indicates crude vulnerability. Scores above 15 indicate high vulnerability; scores between 7 and 15 indicate medium vulnerability and scores below 7 indicate low vulnerability.

Probability Rating: Class and (score)	Impact Rating: Class and (score)				
	Insignificant (1)	Minor (2)	Moderate (3)	Major (4)	Catastrophic (5)
Almost certain (5)	Low-5	Moderate - 10	Moderate -15	High-20	High-25
Likely (4)	Low-4	Moderate-8	Moderate -12	High-16	High-20
Moderate (3)	Low-3	Low-6	Moderate -9	Moderate -12	Moderate -15
Unlikely (2)	Low-2	Low-4	Low-6	Moderate -8	Moderate -18
Rare (1)	Low-1	Low-2	Low-3	Low-4	Low-5

These three classes related to the immediate vulnerability to disaster and provide guidance on disaster response planning. Assessing risk and vulnerability to low likelihood but high impact hazards (e.g., earthquakes) requires a different, more long-term focused, assessment process.

Note that the rating process presumes that:

- Populations are better able to respond to disaster which more likely and do not have severe (major) impacts and,
- Steps taken to prepare for moderate or high vulnerability events will also improve the ability to respond to low vulnerability events.

The divisions between low, moderate and high crude vulnerability can be changed but should be used consistently for all similar assessments in the state.

### **Step 5: Identify Areas with Highest Vulnerability:**

Once vulnerability ranks have been identified, the locations and populations considered most vulnerable should be identified. This aids in knowing where disaster assistance may be most needed, as well as providing a quick indication of where vulnerability reduction efforts could be most productive. Note that vulnerability reduction can include education, structural measures, and

non-structural measures like evacuation planning. Where possible, the areas of high vulnerability should be mapped and included in disaster planning documents.

## **List of ERR KIT for DEOC/Aapda mitra**

### **UP-SCALING OF AAPDA MITRA SCHEME**

#### **Items for Emergency Essential Resource Reserve (EERR) at District Level**

<b>Sr. No.</b>	<b>Items</b>	<b>Quantity</b>
1	Personal Floatation Device ( Life Jacket made of polyurethane foam)	6
2	Torch or emergency light (Solar enabled)	12

3	Safety gloves ( Canvas/leather)	12 pairs
4	30 mtrs 10/11 mm BOB Nylon rope	6
5	Lifebuoys	12
6	Oars & Rowlocks	3 pairs
7	Paddles	18
8	Anchors	4
9	Galvanized metal bucket or bailer	4
10	Outboard Motor Minimum 30 HP	2
11	DCP Fire Extinguisher	4
12	Emergency Spot light with minimum 12 hours run time	3
13	Tool kit ( Colt cutter, wire cutter, Pliers, Screw driver set)	3
14	Axe/hatchet 3kg	3
15	Fibreglass Backboard Stretcher	6
16	Radio Walkie sets 5 watt	6
17	Blankets	12
18	Park pickets	12
19	First Aid Kit	6
20	Twin Progned Graphel/ Cat Hooks	6
21	Throw Bag	6
22	GUM Boots	12 pairs
23	Safety Goggles	6
24	Safety Helmet (Water rafting)	6
25	GPS sets	4
26	Navigation lights	4
27	Maps, Charts and compass	As required
28	Chain Saw machine	4
29	Camping tent (water resistant) + Mosquito Net	4+4
30	Inflatable Rescue Boat with 40 HP	1
